

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed rule change does not impose any burden on intramarket competition as the Redundant Logical Port credit is available to all Members and Trading Permit Holders ("TPHs")¹⁰ on each of the BYX's affiliated exchanges—BZX Exchange, Inc., EDGA Exchange, Inc., EDGX Exchange, Inc., Cboe Exchange, Inc., and C2 Exchange, Inc. (together with BYX, the "Affiliated Exchanges"). Additionally, as noted above, the Redundant Logical Port fee credit is uniformly to all Members and TPHs, across each of the Affiliated Exchanges, on the same terms and under the same objective conditions set forth in (i) through (iv) above. The Program applies uniformly to all similarly situated Members and TPHs, regardless of the type or size of the Member or TPH, and is not available on a discretionary or selective basis.

Although the Program relates to logical ports established in connection with an Exchange initiated order entry protocol migration, it does not favor any particular type of market participant because any Member that establishes a Redundant Logical Port during an Exchange initiated migration and satisfies conditions (i) through (iv) is eligible for the same credit. Accordingly, the Exchange believes the proposed Program is equitable and not unfairly discriminatory.

Furthermore, the proposed rule change does not impose any burden on intermarket competition. The Program is limited to fees and credits for Redundant Logical Ports that Members establish solely because of an Exchange initiated order entry protocol migration, and it does not disadvantage other

exchanges. To the extent the Program makes BYX more attractive or favorable by reducing migration-related costs and supporting continuity of Member access to the Exchange, it will help to foster competition among exchanges.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹¹ and paragraph (f) of Rule 19b-4¹² thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-CboeBYX-2026-029 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.
- All submissions should refer to file number SR-CboeBYX-2026-029. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's

internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-CboeBYX-2026-029 and should be submitted on or before September 23, 2026.

Self-Regulatory Organizations; The Nasdaq Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Exchange Rule Equity 7 Regarding Pricing of Ports for the Night Session

August 28, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on August 20, 2026, The Nasdaq Stock Market LLC ("Nasdaq" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I and II, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Exchange Rule Equity 7, Sections 115 and 130 to (1) clarify the fees applicable to ports used to connect to the Exchange's Night Session trading environment, and (2) provide certain fee waivers designed to facilitate member participation in the Night Session, as described further below.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend Equity 7, Sections 115 and 130 to clarify the fees applicable to ports used to connect to the Exchange's Night Session³ trading environment and to provide certain fee waivers designed to facilitate member participation in the Night Session. The

Exchange proposes to implement the fee changes on September 1, 2026.

Night Session Port Fees

As described in the 23–5 Approval Order, the Exchange established the Night Session⁴ as a trading session that operates in a separate system environment from the Exchange's Day Session.⁵ Because the Night Session operates in a separate environment, members wishing to participate in the Night Session must obtain separate ports to connect to that environment. Ports used for the Day Session cannot connect to the Night Session environment.⁶ This approach reflects the technical and functional separation of the two systems and supports market integrity, investor protection, and fair and orderly trading.⁷

The Night Session will begin on Sunday evenings at 9:00 p.m. and will be held Monday through Thursday.⁸ As described in the 23–5 Approval Order, the Night Session will operate in a manner similar, subject to certain limitations, to the Exchange's Pre-Market Hours and Post-Market Hours sessions, while also requiring additional customer disclosures regarding the potential risks of trading during the Night Session and the use of dedicated ports.⁹

The ports used during the Night Session are the same Financial Information Exchange ("FIX"), OUCH, CORE FIX, OUCH Purge, FIX Purge, and DROP connectivity products currently offered by the Exchange.¹⁰ OUCH Purge

and FIX Purge ports provide members with the ability to cancel open orders and disable or re-enable order entry, while DROP ports provide subscribers with real-time execution information. Because the Night Session operates in a separate environment, however, members must obtain these ports separately if they wish to participate in the Night Session.

Current fees for ports under Equity 7, Sections 115 and 130 are \$575 per port per month for FIX Trading, OUCH, and CORE FIX ports; \$500 per port per month for OUCH Purge and FIX Purge ports; and \$550 per port per month for DROP ports. To facilitate onboarding and incentivize participation in the Night Session in advance of the planned launch of Night Session trading on or about December 6, 2026,¹¹ the Exchange proposes to amend Equity 7, Sections 115(b) and 115(g) to waive fees for the first five Night Session ports of each applicable port type ordered by a member organization. Specifically, the Exchange proposes to provide that, subject to Exchange Rule Equity 1, Section 1(a)(19), the first five Night Session FIX Trading Ports, OUCH Ports, CORE FIX Ports, OUCH Purge Ports, FIX Purge Ports, and DROP Ports ordered by a member will be provided without charge.

The Exchange further proposes to provide that, beginning with the sixth port of each applicable port type, the Exchange will assess the standard fee otherwise applicable for such ports under Equity 7, Section 115 or Section 130, as applicable. The proposed rule text appears as explanatory footnote text in proposed Equity 7, Sections 115(b) and 115(g)(2).

NTF Port Fees

With respect to other services offered, the Exchange operates two testing environments in separate locations.

⁸ See *supra* note 1 and accompanying text.

⁹ See 23–5 Approval Order, *supra* note 1, 91 FR at 20231.

¹⁰ See, e.g., Exchange Rule 4702 (describing, among other things, the various ports offered by the Exchange); Exchange Rule Equity 7 (Pricing Schedule) (setting fees for, among other things, the

Reference to the Nasdaq Testing Facility (“NTF”) applies to both of those environments.¹² Exchange Rule Equity 7, Section 130(d) sets forth the fees for access to the NTF. Subscribers that conduct tests of Nasdaq access protocol connections other than the computer-to-computer interface (CTCI) and the FIX interface to ACT and ACES access protocols through the NTF are currently assessed a fee of \$300 per port, per month, as provided under Exchange Rule Equity 7, Section 130(d)(1)(B). The Exchange proposes to amend Equity 7, Section 130(d)(1)(B) to provide that, subject to Exchange Rule Equity 1, Section 1(a)(19), for subscribers ordering ports to connect to the Night Session for the Nasdaq Testing Facility (NTF), the first five (5) ports of each applicable port type ordered will be provided without charge. The proposed rule text appears as explanatory footnote text in proposed Exchange Rule Equity 7, Section 130(d)(1)(B).

Beginning with the sixth port of each applicable port type, the Exchange will assess the standard per-port, per-month fee otherwise applicable under Equity 7, Section 130(d)(1)(B).

Participation in NTF testing is voluntary. Members are not required to utilize NTF testing as a condition of participating in the Night Session. The Exchange nevertheless encourages members to test connectivity to the Night Session environment and is proposing the limited waiver to encourage such testing in advance of launch.

The Exchange proposes to implement the fee changes on September 1, 2026. The implementation date will permit members to order ports and establish connectivity in advance of the anticipated commencement of Night Session trading in December 2026.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹³ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,¹⁴ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

Night Session Port Fees

The Exchange believes the proposal is reasonable because the ports used

during the Night Session are the same connectivity products currently offered by the Exchange. Members wishing to participate in the Night Session must obtain separate ports because the Night Session operates in a separate system environment, as previously described in the 23–5 Approval Order. The proposal does not create new port functionality; rather, it clarifies the fees and certain waivers applicable when members use existing FIX Trading, OUCH, CORE FIX, OUCH Purge, FIX Purge, and DROP ports to connect to the Night Session environment.

The Exchange further believes the proposal is reasonable because it provides substantial fee relief to firms seeking to participate in the Night Session. The Exchange proposes to provide the first five Night Session ports of each applicable port type without charge, including FIX Trading, OUCH, CORE FIX, OUCH Purge, FIX Purge, and DROP ports.

The Exchange believes the proposed limited waiver is reasonable because, based on feedback received from customers, firms participating in the Night Session are expected to utilize between one and three ports.

Accordingly, the proposed limited waiver is expected to permit most firms to participate in the Night Session without incurring port fees. The waiver is intended to encourage participation in the Night Session and facilitate member onboarding in advance of the launch of Night Session on or about December 6, 2026.

The Exchange believes the proposal represents an equitable allocation of fees and is not unfairly discriminatory because the proposed limited waiver will be available to all members on the same terms. Any member may obtain Night Session ports and receive the benefit of the proposed limited waiver for each applicable port type, including FIX Trading, OUCH, CORE FIX, OUCH Purge, FIX Purge, and DROP ports.

NTF Port Fees

The Exchange believes that the proposed NTF limited waiver is reasonable because it encourages firms voluntarily to test connectivity to the Night Session environment prior to launch. Although NTF testing is not required for participation in the Night Session, the Exchange believes that encouraging such testing promotes operational readiness and supports an orderly launch of Night Session trading. By waiving fees associated with testing the first five Night Session ports of each applicable port type through NTF, the Exchange seeks to encourage members to validate connectivity prior to

commencement of Night Session trading.

The Exchange believes the NTF limited waiver represents an equitable allocation of fees and is not unfairly discriminatory because the waiver will be available to all members on the same terms. Any member may utilize NTF testing and receive the benefit of the proposed waiver.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

In terms of inter-market competition, the proposal will not impose any burden on competition because participation in the Night Session is voluntary and market participants may choose whether to obtain Night Session connectivity. Moreover, the proposal provides certain limited fee waivers that reduce the costs associated with establishing Night Session connectivity and testing such connectivity prior to launch.

In terms of intra-market competition, the proposal will not impose any burden on competition because the proposed limited waivers will be available equally to all members. All members that choose to participate in the Night Session will be eligible to receive the first five Night Session ports of each applicable port type without charge and to test the first five Night Session ports of each applicable port type through NTF without charge. Thereafter, all members will be assessed the same fees under the Exchange’s fee schedule.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act,¹⁵ and Rule 19b–4(f)(2) thereunder¹⁶ the Exchange has designated this proposal as establishing or changing a due, fee, or other charge imposed on any person, whether or not the person is a member of the self-regulatory organization, which renders the proposed rule change

effective upon filing. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-106229; File No. SR-CboeBYX-2026-026]

Self-Regulatory Organizations; Cboe BYX Exchange, Inc.; Order Granting Approval of Proposed Rule Change To Amend Rules Regarding Intermarket Sweep Orders

August 28, 2026.

I. Introduction

On June 5, 2026, Cboe BYX Exchange, Inc. ("Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change (a) to amend Exchange Rule 11.9(d) to: (i) permit an Intermarket Sweep Order ("ISO") to be entered as a non-displayed order and (ii) to establish the price level at which the System³ will consider an ISO available for other orders to be entered and (b) to amend Exchange Rule 11.9(g)(4) to permit non-displayed orders to re-price to more aggressive prices. The proposed rule change was published for comment in the **Federal Register** on June 23, 2026.⁴ On July 23, 2026, pursuant to Section 19(b)(2) of the Act,⁵ the Commission designated a longer period within which to determine whether to disapprove the proposed rule change.⁶ This order approves the proposed rule change.

II. Description of the Proposal

As part of its suite of order types, the Exchange currently offers Users the ability to enter ISOs, which are limit orders for a National Market System stock ("NMS stock") that meet the following requirements: (i) when routed to a trading center, the limit order is identified as an ISO; (ii) simultaneously with the routing of the limit order identified as an ISO, one or more additional limit orders, as necessary, are routed to execute against the full

displayed size of any protected bid, in the case of a limit order to sell, or the full displayed size of any protected offer, in the case of a limit order to buy, for the NMS stock with a price that is superior to the limit price of the limit order as identified as an ISO (and these additional routed orders also must be marked as ISOs).⁷ Currently, the Exchange does not permit an ISO to be entered as a Non-Displayed Order.⁸

The Exchange proposes to amend Exchange Rule 11.9(d) to: (i) permit an Intermarket Sweep Order to be entered as a Non-Displayed Order and (ii) to establish when the System will consider the limit price of an ISO to be available for other orders to be entered or to re-price to that price level. The Exchange also proposes to amend Exchange Rule 11.9(g)(4) to permit Non-Displayed Orders to re-price to more aggressive prices.⁹

Intermarket Sweep Orders

The Exchange proposes to amend Exchange Rule 11.9(d) to permit an ISO to be entered as a displayed order or as a Non-Displayed Order (a "Non-Displayed ISO").¹⁰ Additionally, the Exchange proposes to introduce Exchange Rules 11.9(d)(1)–(3) that establish when the System will consider the limit price of an ISO to be available for other orders to be entered or to re-price to that price level. Proposed Exchange Rule 11.9(d)(1) would provide that upon receipt of an ISO during Regular Trading Hours,¹¹ the System will consider the limit price of the ISO to be available for new orders to be entered at that price level.¹² Resting orders would re-price to the limit price of the ISO based on User instruction, unless the ISO is not itself accepted at that price level or the ISO contains a Non-Displayed instruction.¹³

Proposed Exchange Rule 11.9(d)(2) would provide that upon receipt of an ISO during the Early Trading Session,¹⁴ Pre-Opening Session,¹⁵ or After Hours
