Amended Final Results of Review

As a result of correcting the ministerial error described above, Commerce determines that the following weighted-average dumping margin exists for the period, May 1, 2023, through April 30, 2024:

Producer or exporter	Weighted-average dumping margin (percent)
OCTAL SAOC FZC	3.02

Disclosure

Commerce intends to disclose the calculations performed in connection with these amended final results of review to the interested parties within five days after the date of any public announcement of the amended final results of review or, if there is no public announcement of the amended final results of review, within five days after the date of publication of this notice in the **Federal Register** in accordance with 19 CFR 351.224(b).

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b)(1), Commerce has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise during the POR. Commerce will instruct CBP to assess antidumping duties on all appropriate entries covered by this review where an importer-specific assessment rate is not zero or *de minimis*.[12]

Pursuant to a refinement to Commerce's assessment practice, where sales of subject merchandise that was produced or exported by OCTAL were not reported in the U.S. sales data, but the merchandise was entered for consumption into the United States during the POR, we will instruct CBP to liquidate any entries of such merchandise at the all-others rate (*i.e.,* 7.62 percent) [13] if there is no rate for the intermediate company(ies) involved in the transaction.[14]

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of this notice of the amended final results of review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.,* within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice in the **Federal Register**, as provided by section 751(a)(2)(C) of the Act: (1) the amended cash deposit rate for OCTAL will be the weighted-average dumping margin in the table above; (2) for merchandise exported by a company that is not under review that has a company-specific cash deposit rate from a completed segment of this proceeding, the cash deposit rate will continue to be the company's cash deposit rate from the most recently completed segment of the proceeding in which the company was under review; (3) if the exporter of the subject merchandise is not covered by this review or a previously completed segment of this proceeding, but the producer of the subject merchandise is/was covered, then the cash deposit rate will be equal to the producer's cash deposit rate from the most recently completed segment of this proceeding in which the producer of the subject merchandise was under review; and (4) if neither the exporter nor the producer of the subject merchandise is covered by this review or a previously completed segment of this proceeding, then the cash deposit rate will be 7.62 percent *ad valorem*,[15] the all-others rate established in the less-than-fair-value investigation in this proceeding. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Order (APO)

This notice serves as the only reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under the APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a violation subject to sanction.

Notification to Interested Parties

We are issuing and publishing these amended final results of review and this notice in accordance with sections 751(h) and 777(i)(1) of the Act, and 19 CFR 351.224(e).

Dated: August 26, 2026.

Christopher Abbott,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Interagency Marine Debris Coordinating Committee Meeting

AGENCY: National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of open meeting.

SUMMARY: Notice is hereby given of a virtual public meeting of the Interagency Marine Debris Coordinating Committee (IMDCC). IMDCC members will discuss Federal marine debris activities, with a particular emphasis on the topics identified in the **SUPPLEMENTARY INFORMATION** section under *Matters to be considered.*

DATES: The virtual public meeting will be held on September 29, 2026, from 2 p.m. to 3 p.m. Eastern Daylight Time (EDT).

ADDRESSES: The meeting will be held virtually using Google Meet. *You can connect to the meeting using the website or phone number provided:*

Meeting link: https://meet.google.com/oag-dhas-pbs

Phone: (US) +1 941–677–2861 PIN: 519 143 635#

Attendance will be limited to the first 500 individuals to join the virtual meeting room. Refer to the IMDCC website at *https://marinedebris.noaa.gov/our-work/IMDCC* for the most up-to-date information on the agenda and how to participate.

FOR FURTHER INFORMATION CONTACT: Tacey Hicks, Executive Secretariat, IMDCC, Marine Debris Program; Phone 707–217–2852; Email *tacey.hicks@noaa.gov* or visit the IMDCC website at *https://marinedebris.noaa.gov/our-work/IMDCC.*

SUPPLEMENTARY INFORMATION: The IMDCC is a multi-agency body responsible for coordinating a comprehensive program of marine debris research and activities among Federal agencies, in cooperation and coordination with non-governmental organizations, industry, academia, States, Tribes, and other nations, as appropriate. Representatives meet to share information, assess and promote best management practices, and coordinate the Federal Government's efforts to address marine debris.

The Marine Debris Act establishes the IMDCC (33 U.S.C. 1954). The IMDCC submits biennial progress reports to Congress with updates on activities, achievements, strategies, and recommendations. NOAA serves as the Chairperson of the IMDCC.

The meeting will be open to public attendance on September 29, 2026, from 2 p.m. to 3 p.m. EDT. There will not be a public comment period. The meeting will not be recorded.

Matters To Be Considered

The open meeting will include a presentation from the Environmental Protection Agency and the NOAA Marine Debris Program on established monitoring protocols including the Escaped Trash Assessment Protocol (ETAP) and the Marine Debris Monitoring and Assessment Project (MDMAP), respectively. The Marine Debris Foundation will also present on relevant programmatic updates. The agenda topics described are subject to change. The latest version of the agenda will be posted at *https://marinedebris.noaa.gov/our-work/IMDCC.*

Special Accommodations

The meeting is accessible to people with disabilities. Closed captioning will be available. Requests for other auxiliary aids should be directed to Tacey Hicks, Executive Secretariat at *tacey.hicks@noaa.gov* or 707–217–2852, by September 21, 2026.

Authority: The Interagency Marine Debris Coordinating Committee (IMDCC) is established by the Marine Debris Act, 33 U.S.C. 1954, as amended.

Sean Corson,

Acting Director, Office of Response and Restoration, National Ocean Service, National Oceanic and Atmospheric Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XF616]

Endangered Species; File No. 21316

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; transfer and issuance of incidental take permit.

SUMMARY: On August 4, 2020, under the Endangered Species Act (ESA), the NMFS issued an incidental take permit (ITP) to Barney Davis, LLC, authorizing take of threatened green sea turtles (*Chelonia mydas;* North Atlantic distinct population segment) and endangered Kemp's ridley sea turtles (*Lepidochelys kempii*) incidental to otherwise lawful activities associated with the operation of the Barney Davis Energy Center (the Center), located in Corpus Christi, TX. Subsequently, CPS Energy acquired ownership and operational control of the Center. Notice is hereby given that NMFS has transferred ITP No. 21316 to CPS Energy.

DATES: This ITP is effective through August 31, 2030.

ADDRESSES: The ITP, conservation plan, and transfer agreement, along with other related documents, are available on the NMFS Office of Protected Resources website at *https://www.fisheries.noaa.gov/action/incidental-take-permit-barney-davis-llc.*

FOR FURTHER INFORMATION CONTACT: NMFS Office of Protected Resources, Kim Corcoran at *kim.corcoran@noaa.gov,* (301) 427–8453, or Celeste Stout at *Celeste.Stout@noaa.gov* or (301) 427–8436.

SUPPLEMENTARY INFORMATION: Section 9 of the ESA and Federal regulations prohibit the 'taking' of a species listed as endangered or threatened. The ESA defines ''take'' to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. NMFS may issue permits, under limited circumstances, to take listed species incidental to, and not the purpose of, otherwise lawful activities. Section 10(a)(1)(B) of the ESA provides a mechanism for authorizing incidental take of listed species. NMFS regulations governing permits for threatened and endangered species are located in 50 CFR 222.307.

Section 222.305(a), as revised, allows for the transferability of permits issued under 50 CFR parts 222, 223, and 224 through a joint submission by the permittee and the proposed transferee provided that NMFS determines in writing that the proposed transferee: (1) meets all qualifications for holding a permit; (2) has provided adequate written assurances that it will provide sufficient funding for the conservation plan or other agreement or plan associated with the permit and will implement the relevant terms and conditions of the permit, including any outstanding minimization and mitigation requirements; and (3) has provided such other information as NMFS determines is relevant to process the transfer.

Background

NMFS issued an ITP to Barney Davis, LLC, on August 4, 2020, for the incidental take of threatened green sea turtles (*Chelonia mydas;* North Atlantic distinct population segment) and endangered Kemp's ridley sea turtles (*Lepidochelys kempii*) during the conduct of otherwise lawful activities associated with the operation of the Center, located in Corpus Christi, TX. The ITP was issued for 10 years and expires on August 31, 2030. Please see the **Federal Register** notification (85 FR 48508, August 11, 2020) for additional details regarding the ITP and the covered activities.

On November 19, 2024, Barney Davis, LLC and CPS Energy submitted a joint request to transfer ITP No. 21316 from Barney Davis, LLC to CPS Energy. This transfer request was due to CPS Energy's acquisition of ownership and operational control of the Center on December 4, 2024. CPS Energy has formally confirmed that it meets all statutory and regulatory qualifications for holding the ITP, as outlined in 50 CFR parts 222. This includes providing written assurance of sufficient funding for the permit's associated Conservation Plan and a commitment to implement the permit's relevant terms and conditions, including any minimization and mitigation requirements, upon acquisition of the Center. NMFS reviewed and accepted the signed
