

Any associated form(s) for this collection may be located within this same electronic docket and downloaded for review/testing. Follow the instructions at <https://www.regulations.gov> for submitting comments. Please submit comments on any given form identified by docket number, form number, and title.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Department of War Education Activity (Executive Services Division), ATTN: James Revell, 4800 Mark Center Drive, Alexandria, VA 22350 or call at (571) 372-5821.

SUPPLEMENTARY INFORMATION: Title; Associated Form; and OMB Number: Department of War Education Activity (DoWEA) Employment Opportunities for Educators; DoWEA Forms 5010, 5011, and 5013; OMB Control Number 0704-0370.

Needs and Uses: The information collection requirement is necessary to obtain information on prospective applicants for educator positions with the Department of War Education Activity. The information is used to verify employment history of educator applicants and to determine creditable previous experience for pay-setting purposes on candidates selected for positions. In addition, the information is used to ensure that those individuals selected for employment with the Department of War Education Activity possess the abilities which give promise of outstanding success under the unusual circumstances they will find working abroad. Completion of all forms is entirely voluntary.

Affected Public: Individuals and households.

Annual Burden Hours: 6,930.

Number of Respondents: 23,100.

Responses per Respondent: 1.

Annual Responses: 23,100.

Average Burden per Response: 18 minutes.

Frequency: On occasion.

The primary objective of the information collection is to screen applicants for educational qualification and employment eligibility, to obtain pertinent evaluation information about an applicant to assist management in making a hiring decision, and to obtain applicant consent to obtain personal information from former employer about applicants' employment. The forms associated with this data collection include: (1) Department of War Education Activity Supplemental Application for Overseas Employment

(DoWEA Form 5010). The primary objective of this voluntary form is to ascertain applicants' eligibility for educator positions. (2) Department of War Education Activity Professional Evaluation (DoWEA Form 5011). This form is provided to officials who served in managerial and supervisory positions above the applicant as a means of verifying abilities and qualifications of applicants for educator positions. (3) Department of War Education Activity Verification of Professional Educator Employment for Salary Rating Purposes (DoWEA Form 5013). The purpose of this voluntary form is to verify employment history of educator applicants and to determine creditable previous experience for pay-setting purposes. The paper forms and electronic data systems containing the sponsor and dependent personally identifiable information are secured in accordance with the requirements of Federal law and DoW regulations.

Dated: August 31, 2026.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 6001-FR-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP26-34-000; Docket No. CP26-35-000]

Forza Pipeline LLC; Notice of Availability of the Environmental Assessment for the Proposed Forza Pipeline Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Forza Pipeline Project (Project), proposed by Forza Pipeline LLC (Forza) and Bull Run Pipeline LLC (Bull Run) in the above-referenced dockets.¹ Forza requests authorization to construct and operate a new interstate natural gas pipeline (Line FZA-A) and certain other facilities located in New Mexico and Texas. The Project would provide up to 750,000 dekatherms per day (Dth/d) of firm interstate natural gas transportation service from the Delaware Basin production areas in southeastern New Mexico to multiple delivery points at or

near the Waha Hub in Texas. Forza also requests authorization to enter into a lease agreement pursuant to which Forza would lease 750,000 Dth/d of natural gas transportation from Bull Run.

Any person wishing to comment on the EA may do so. To ensure consideration of your comments on the proposal prior to making a decision on the Project, it is important that the Commission receive your comments on or before 5:00 p.m. Eastern Time on September 28, 2026. Instructions for filing comments are provided on page 3.

FERC is the lead federal agency for authorizing interstate natural gas transmission facilities under the Natural Gas Act of 1938 and the lead federal agency for preparation of the EA. The EA assesses the potential environmental effects of the Forza Pipeline Project in accordance with the requirements of the National Environmental Policy Act (NEPA)² and the Commission's implementing regulations.³ The principal purposes of the EA are to: identify and assess the potential effects on the natural and human environment; describe and evaluate reasonable alternatives; identify and recommend mitigation measures; and facilitate public involvement in the environmental review process. The EA concludes that approval of the proposed Project would not constitute a major federal action significantly affecting the quality of the human environment.

The U.S. Bureau of Land Management (BLM) participated as a cooperating agency in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis. The BLM will adopt and use the EA to support its decision-making process regarding whether to issue a right-of-way grant for the portion of the project located on BLM-administered land. Although the cooperating agency provided input to the conclusions and recommendations presented in the EA, the agency will present its own conclusions and recommendations in its respective Records of Decision for the Project.

The EA addresses the potential environmental effects of the construction and operation of the following Project facilities:

² National Environmental Policy Act of 1969, as amended (Public Law [Pub. L.] 91-190, Title 42 United States Code 4321-4347, as amended by Pub. L. 94-52, July 3, 1975; Pub. L. 94-83, August 9, 1975; Pub. L. 97-258, 4(b), September 13, 1982; Pub. L. 118-5, June 3, 2023; Pub. L. 119-21, July 4, 2025).

³ Title 18 Code of Federal Regulations Part 380.

¹ For tracking purposes under the National Environmental Policy Act, the unique identification number for documents relating to this environmental review is EAXX-019-20-000-1771401929.

- installation of Line FZA–A, a new 35.9-mile-long, 36-inch-diameter natural gas pipeline beginning in Lea County, New Mexico and terminating in Winkler County, Texas;

- construction of a new meter station (the Desert Ram Junction) in Lea County, New Mexico, including the installation of a new riser;

- installation of a new mainline valve along the proposed Line FZA–A pipeline in Loving County, Texas; and
- installation of a new riser at the existing Wildcat Junction site in Winkler County, Texas.

The Commission mailed a copy of the *Notice of Availability* of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the Project area. The EA is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environmental-environmental-documents>). In addition, the EA may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>), select "General Search" and enter the docket number in the "Docket Number" field, excluding the last three digits (*i.e.*, CP26–34 or –35). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659.

The EA is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Under section 7(c) of the Natural Gas Act, the Commission determines whether interstate natural gas transportation facilities are in the public convenience and necessity and, if so, grants a Certificate of Public Convenience and Necessity to construct and operate them. The Commission bases its decisions on both economic issues, including need, and environmental effects.

Your comments should focus on the EA's disclosure and discussion of potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental effects. The more specific your comments, the more useful they will be. For your

convenience, there are three methods you can use to file your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208–3676 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's website (www.ferc.gov) under the link to FERC Online. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's website (www.ferc.gov) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the project docket number (CP26–34–000 or CP26–35–000) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

Filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. At this point in this proceeding, the timeframe for filing timely intervention requests has expired. Any person seeking to become a party to the proceeding must file a motion to intervene out-of-time pursuant to Rule 214(b)(3) and (d) of the Commission's Rules of Practice and Procedures (Title 18 Code of Federal Regulations, Part 385.214(b)(3) and (d)) and show good cause why the time limitation should be waived. Motions to intervene are more fully described at <https://www.ferc.gov/how-intervene>.

For public inquiries and assistance with making filings such as interventions, comments, or requests for

rehearing, contact the Office of Public Participation at (202) 502–6595 or OPP@ferc.gov. Additional information about the Project is available from the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Combined Notice of Filings #1

Take notice that the Commission received the following Accounting Request filings:

Docket Numbers: AC26–98–000.

Applicants: Duke Energy Indiana, LLC.

Description: Duke Energy Indiana, LLC submits final accounting entries re a jurisdictional transfer transaction consummated on 03/04/2026 between Duke Energy Indiana, LLC and In Solar I, LLC.

Filed Date: 8/27/26.

Accession Number: 20260827–5221.

Comment Date: 5 p.m. ET 9/17/26.

Take notice that the Commission received the following Electric Corporate filings:

Docket Numbers: EC26–99–000.

Applicants: Horizon Merger Sub, Inc., The AES Corporation, EQT AB, Qatar Investment Authority.

Description: Supplement to 05/21/2026, Joint Application for Authorization Under Section 203 of the Federal Power Act of Horizon Merger Sub, Inc., et al.

Filed Date: 8/21/26.

Accession Number: 20260821–5339.

Comment Date: 5 p.m. ET 9/4/26.
