Petition for Exemption

Docket No.: FAA-2026-9274.

Petitioner: Aviation Technician Education Council.

Section of 14 CFR Affected: § 65.75(c).

Description of Relief Sought: The Aviation Technician Education Council (ATEC) seeks an exemption from § 65.75(c) to permit ATEC individual members who have earned the ATEC General Aviation Maintenance Credential (the "Credential") to take the FAA Aviation Mechanic General written knowledge test within 12 months of receiving the Credential. The Credential is awarded to students who (1) complete the Choose Aerospace Aviation Maintenance Curriculum, (2) receive an endorsement from their instructor verifying satisfactory performance and readiness, and (3) pass a comprehensive, proctored examination assessing mastery of the General knowledge elements.

The petitioner asks the FAA to permit a Credential holder to present an unexpired, authenticated ATEC Credential as evidence of eligibility to take the mechanic general written test. This would allow students completing the Choose Aerospace Curriculum, at an organization that does not hold an FAA part 147 aviation maintenance technician school (AMTS) certificate, to take the mechanic general written test without (1) meeting the applicable

experience requirements of § 65.77 or (2) presenting an authenticated document from a certificated AMTS that demonstrates satisfactory completion of the general portion of an AMTS' curriculum.
