Notification of Fees for Seafood Inspection Services

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of fee schedule.

SUMMARY: The NMFS Seafood Inspection Program (SIP) is notifying program participants that its fee schedule for fiscal year 2027 will remain as established on November 1, 2022.

DATES: The fee schedule applies to services rendered as of October 1, 2026, until notified otherwise.

FOR FURTHER INFORMATION CONTACT:

Jenny Stephenson, Office of International Affairs, Trade, and Commerce, 301–427–8307 or at jenny.stephenson@noaa.gov.

SUPPLEMENTARY INFORMATION: NMFS operates a fee-for-service SIP under the authorities of the Agricultural Marketing Act of 1946, as amended, the Fish and Wildlife Act of 1956, and the Reorganization Plan No. 4 of 1970. The regulations implementing the SIP are contained in 50 CFR part 260. The SIP offers inspection, grading, and certification services, including the use

of official quality grade marks which indicate that specific products have been federally inspected. Those wishing to participate in the program must request the services and submit specific compliance information. Since 1992, NMFS implemented inspection services based on guidelines recommended by the National Academy of Sciences, known as Hazard Analysis Critical Control Point (HACCP).

Under the implementing regulations for the SIP, fees are reviewed at least annually to ascertain that the hourly fees charged are adequate to recover the costs of the services rendered. Any necessary adjustments to fees are made in accordance with the requirements of 50 CFR 260.30. This **Federal Register** notice serves to inform program participants of the fee schedule, which remains unchanged.

SIP costs used for the calculation of user fees include all relevant direct and indirect costs to the program, and applicable administrative overhead and surcharges. SIP fees must be set to promote full cost recovery of the program absent other appropriations.

SIP costs include all field operations, program administrative overhead, and management, and include expenses for labor for inspectors, facilities, information technology infrastructure, and other operational costs. SIP fees are set to recover those costs based on revenue projections from expected billable service hours and the number of certificates requests. Forecasts of demand for services use historical data on actual billed services that are adjusted annually for inflation, known events that might affect the predicted output of billable services, and seasonality of when forecasted services will take place throughout the year.

NMFS will assess its fees as outlined in this notice, which will apply until notified otherwise. Fees will be charged to contract and non-contract customers requesting services as listed below. The cost of other applicable services rendered will be recovered through fee collection using the base rate of \$238 per hour.

Fees and Charges for the U.S. Department of Commerce Seafood Inspection Program

The per hour fees and charges for fishery products inspection services are not being revised and will remain as established on November 1, 2022 for fiscal year 2027 and will be assessed as follows. Any travel associated with a billable service will be an additional charge.
