

the final results of this review; (2) for previously investigated or reviewed companies not covered by this review but covered in a prior segment of this proceeding, the cash deposit rate will continue to be the company-specific cash deposit rate published for the most recently completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered in this review, a previous review, or the LTFV investigation, but the manufacturer is, then the cash deposit rate will be the rate established for the most recent segment for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 4.37 percent, the all-others rate established in the LTFV investigation.⁷ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order

This notice also serves as a final reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

We are issuing and publishing these final results of review in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.221(b)(5).

Dated: September 1, 2026.

Christopher Abbott,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Northwestern University and Cornell University et. al; Application(s) for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, as amended by Pub. L. 106-36; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States. Further information on the application can be found here: <https://www.trade.gov/sips-florence-frs>.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be postmarked on or before September 24, 2026. Address written comments to Statutory Import Programs Staff, Room 40005, U.S. Department of Commerce, Washington, DC 20230. Please also email a copy of those comments to SIPS-Florence@trade.gov

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE

International Trade Administration

Notice of Scope Ruling Applications Filed in Antidumping and Countervailing Duty Proceedings

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) received scope ruling applications, requesting that scope inquiries be conducted to determine whether identified products are covered by the scope of antidumping duty (AD) and/or countervailing duty (CVD) orders and that Commerce issue scope rulings pursuant to those inquiries. In accordance with Commerce's regulations, we are notifying the public of the filing of the scope ruling applications listed below in the month of July 2026.

DATES: Applicable September 4, 2026.

FOR FURTHER INFORMATION CONTACT: Yasmin Bordas, AD/CVD Operations, Customs Liaison Unit, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, telephone: (202) 482–3813.

SUPPLEMENTARY INFORMATION: Notice of Scope Ruling Applications:

In accordance with 19 CFR 351.225(d)(3), we are notifying the public of the following scope ruling applications related to AD and CVD orders and findings filed in or around the month of July 2026. This notification includes, for each scope application: (1) identification of the AD and/or CVD orders at issue (19 CFR 351.225(c)(1)); (2) concise public descriptions of the products at issue, including the physical characteristics (including chemical, dimensional and technical characteristics) of the products

(19 CFR 351.225(c)(2)(ii)); (3) the countries where the products are produced and the countries from where the products are exported (19 CFR 351.225(c)(2)(i)(B)); (4) the full names of the applicants; and (5) the dates that the scope applications were filed with Commerce and the name of the ACCESS scope segment where the scope applications can be found.¹ This notice does not include applications which have been rejected and not properly resubmitted. The scope ruling applications listed below are available on Commerce's online e-filing and document management system, Antidumping and Countervailing Duty Electronic Service System (ACCESS), at <https://access.trade.gov>.

Scope Ruling Applications

Aluminum Extrusions from the People's Republic of China (China) (A–570–967/C–570–968); LED Tape Light System;² produced in and exported from China and Thailand; submitted by Wangs Alliance Corporation and WAC Lighting (Dongguan) Co., Ltd.; July 8, 2026; ACCESS scope segment “SCO—WAC LED Tape Light System.”

Certain Cold-Drawn Mechanical Tubing of Carbon and Alloy Steel From India and China (A–533–873/A–570–058/C–533–874/C–570–059); Inner Surface Finished Cold-Drawn Mechanical Tubing;³ produced in and

¹ See *Regulations to Improve Administration and Enforcement of Antidumping and Countervailing Duty Laws*, 86 FR 52300, 52316 (September 20, 2021) (*Final Rule*) (“It is our expectation that the **Federal Register** list will include, where appropriate, for each scope application the following data: (1) identification of the AD and/or CVD orders at issue; (2) a concise public summary of the product's description, including the physical characteristics (including chemical, dimensional and technical characteristics) of the product; (3) the country(ies) where the product is produced and the country from where the product is exported; (4) the full name of the applicant; and (5) the date that the scope application was filed with Commerce.”).

² The product is an illumination system, that includes an aluminum channel, LED tape lights, and a power feed unit, for use in architectural and construction projects. The length of the system ranges from 5 feet to 8 feet, the width of the system ranges from 0.5 inches to 1.5 inches, and the depth ranges from 0.3 inch to 0.75 inches.

³ The product is an inner-surface-finished cold-drawn mechanical tubing made of carbon and alloy steel. It is produced by cold drawing and subsequently refined through precision inner-surface finishing processes, including honing or skiving and burnishing. The tubing has a circular cross-section, measures 304.8 millimeters or more in length, and has actual outside diameters of less than 331 millimeters. The honing process uses rotating abrasive stones to remove small amounts of material and create a smoother inner surface and enhanced geometric form. The skiving and burnishing process removes a thin internal layer with a cutting tool and follows with roller burnishing to achieve a polished finish and improved dimensional accuracy. Inner-surface-finished cold-drawn mechanical tubing retains the

exported from China and India; submitted by ArcelorMittal Tubular Products; Michigan Seamless Tube, LLC; PTC Alliance LLC; Webco Industries, Inc.; and Zekelman Industries, Inc.; July 9, 2026; ACCESS scope segment “SCO—Inner Surface Finished CDMT.”

Mattresses from Mexico (A–201–859); polyurethane foams;⁴ produced in and exported from Mexico; submitted by Kuka Sleep, Inc.; July 27, 2026; ACCESS scope segment “SCO—Kuka Sleep Inc.—Foams.”

Notification to Interested Parties

This list of scope ruling applications is not an identification of scope inquiries that have been initiated. In accordance with 19 CFR 351.225(d)(1), if Commerce has not rejected a scope ruling application nor initiated the scope inquiry within 30 days after the filing of the application, the application will be deemed accepted and a scope inquiry will be deemed initiated the following day—day 31.⁵ Commerce's practice generally dictates that where a deadline falls on a weekend, Federal holiday, or other non-business day, the appropriate deadline is the next business day.⁶ Accordingly, if the 30th day after the filing of the application falls on a non-business day, the next business day will be considered the “updated” 30th day, and if the application is not rejected or a scope inquiry initiated by or on that particular business day, the application will be deemed accepted and a scope inquiry will be deemed initiated on the next business day which follows the “updated” 30th day.⁷

In accordance with 19 CFR 351.225(m)(2), if there are companion AD and CVD orders covering the same

same physical, chemical, dimensional, and technical characteristics as other in-scope cold-drawn mechanical tubing.

⁴ The products are polyurethane foams with lengths ranging from 5.5 to 84 inches, with widths from 7 to 79.5 inches; and thicknesses from 0.25 to 4.0 inches.

⁵ In accordance with 19 CFR 351.225(d)(2), within 30 days after the filing of a scope ruling application, if Commerce determines that it intends to address the scope issue raised in the application in another segment of the proceeding (such as a circumvention inquiry under 19 CFR 351.226 or a covered merchandise inquiry under 19 CFR 351.227), it will notify the applicant that it will not initiate a scope inquiry, but will instead determine if the product is covered by the scope at issue in that alternative segment.

⁶ See *Notice of Clarification: Application of “Next Business Day” Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005).

⁷ This structure maintains the intent of the applicable regulation, 19 CFR 351.225(d)(1), to allow day 30 and day 31 to be separate business days.
