The CHGME specific report seeks to add an affirmation statement regarding adherence to Centers for Medicaid and Medicare price transparency rules as well as an attestation upon report submission that the CHGME hospital certifies the following:

“I _____ certify that I am authorized to submit this report to HRSA for grant _____, wherein:

- The hospital complies with all applicable federal grants regulations, including 2 CFR part 200.
- The hospital complies with all terms and conditions of the CHGME award.
- The hospital complies with all applicable federal civil rights laws.
- The hospital complies with HIPAA and federal data security requirements.

- The hospital complies with the Centers for Medicare & Medicaid Services Hospital Price Transparency requirements at 45 CFR part 180.”

Need and Proposed Use of the Information: The purpose of the proposed data collection is to continue analysis and reporting of grantee training activities and education, identify details about the practice locations where trainees work after program completion, and report outcomes of funded initiatives. Data collected from these grant programs will also provide a description of the program activities of almost 2,000 reporting grantees to inform policymakers on the barriers, opportunities, and outcomes involved in health care workforce development. The proposed measures focus on four key outcomes:

- (1) increasing the workforce supply of well-educated practitioners in needed professions,
- (2) increasing the number of practitioners that practice in underserved and rural areas,
- (3) enhancing the quality of education, and
- (4) supporting educational infrastructure to increase the capacity to

train more health professionals in high demand areas.

Failure to respond to, or provide accurate information in response to, this collection may result in a reduction in federal funding pursuant to section 340e(b)(3)(A) of the Public Health Service Act (42 U.S.C. 256e(b)(3)(A)).

Likely Respondents: Respondents are grantees of Bureau of Health Workforce health professions grant programs.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Direct Financial Support Program	602	1	602	2.7	1,625.4
Infrastructure Program	159	1	159	4.1	651.9
Multipurpose or Hybrid Program	1,207	1	1,207	2.8	3,379.6
Total	1,968		1,968		5,656.9

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency’s functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
