

(C) Clearing Agency's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were not and are not intended to be solicited with respect to the proposed change and none have been received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) by order approve or disapprove such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

The proposal shall not take effect until all regulatory actions required with respect to the proposal are completed.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-106261; File No. SR-TXSE-2026-024]

Self-Regulatory Organizations; Texas Stock Exchange LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Permit a New Issue ETPs To Commence Trading at the Beginning of the Pre-Market Session

September 2, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on August 31, 2026, Texas Stock Exchange LLC (the "Exchange" or "TXSE") filed with the Securities and Exchange Commission ("Commission") a proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing with the Securities and Exchange Commission ("Commission") a proposed rule change to amend Rule 11.022 to permit a New Issue ETP, as defined below, to commence trading at the beginning of the Pre-Market Session³ unless its issuer elects to have the security participate in an IPO Auction. The text of the proposed rule change is available on the Commission's website (<https://www.sec.gov/rules/sro.shtml>) at the

www.sec.gov/rules/sro.shtml) at the Exchange's website (<https://www.txse.com/regulations/rules-filings>), and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule 11.022(d)(2)(E) to provide that a New Issue ETP will commence trading at the beginning of the Pre-Market Session unless its issuer elects to have the security participate in an IPO Auction. The Exchange also proposes: (i) to add a definition of "New Issue ETP" in Rule 11.022(a); and (ii) to make non-substantive conforming changes to Rule 11.022(d)(2)(E) by creating subsections (i) and (ii) to delineate the IPO Auction and Halt Auction price determinations. The proposal is modeled on Cboe BZX Exchange, Inc. ("BZX") functionality that permits a New Issue ETP to commence trading in the early trading session⁴ and adopts the same policy default as The Nasdaq Stock Market LLC ("Nasdaq") for new ETPs: commencement of trading at the beginning of the pre-market session unless the issuer elects a delayed IPO-style process.⁵

Current functionality provides that a newly listed ETP will begin trading pursuant to an IPO Auction for ETPs under Rule 11.022(d). The Exchange is proposing to adopt new Rule 11.022(d)(2)(E)(i)(a) which provides that

⁵ See Securities Exchange Act Release No. 103085 (May 20, 2025), 90 FR 22424 (May 27, 2025) (SR-Nasdaq-2025-011) (order approving optional Initial ETP Open process) (the "Nasdaq Approval Order").

³ See Rule 1.005(v).

a New Issue ETP will commence trading at the beginning of the Pre-Market Session unless the issuer elects to have the security participate in an IPO Auction. For a New Issue ETP that commences trading in the Pre-Market Session, the TXSE Official Opening Price determined pursuant to Rule 11.022(b)(2)(B) will also constitute the TXSE Official IPO Opening Price.

The Exchange proposes to define the term “New Issue ETP” as “a security listed on the Exchange pursuant to Chapter 17 that is eligible to participate in an IPO Auction pursuant to Rule 11.022(d).”

Finally, the Exchange proposes to bifurcate Rule 11.022(d)(2)(E) into subsections (i) and (ii) to delineate more clearly the determination of the IPO Auction price and the Halt Auction price. Proposed Rule 11.022(d)(2)(E)(i) retains the existing IPO Auction price-determination standard, including the issuing-price tie breaker, and provides that the IPO Auction price will be the TXSE Official IPO Opening Price. Proposed Rule 11.022(d)(2)(E)(ii) retains the existing Halt Auction price-determination standard, including the Final Last Sale Eligible Trade tie breaker. These changes are non-substantive and reorganize existing rule text for clarity and readability.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.⁶ Specifically, the Exchange believes the proposed rule change is consistent with the objectives of Section 6(b)(5)⁷ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5) requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

In particular, the proposed rule change will remove impediments to and

perfect the mechanism of a free and open market and national market system and will benefit investors by providing market participants with additional opportunities to source and access liquidity for their orders in new issue ETPs on the Exchange. The proposal responds to feedback from ETP issuers that earlier trading opportunities may be desirable for certain new issue ETPs. The Exchange believes that an issuer is best situated to decide whether its New Issue ETP should commence trading in the Pre-Market Session or through the IPO Auction. The proposal will not alter the operation of the Pre-Market Session; it will permit a New Issue ETP to begin trading at 8:00 a.m. ET in the same manner as other TXSE-Listed Securities eligible to trade during that session. The proposal also preserves the IPO Auction as an issuer-elected alternative for an issuer that prefers that process.

The Exchange believes that proposed rule change raises no novel issues because the proposed treatment is consistent with the Commission-approved functionality of Nasdaq and BZX that permits new issue ETPs to commence trading in an early or pre-market session or to use an issuer-selected delayed opening process.⁸

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed rule change will impose any burden on intra-market competition that is not necessary or appropriate because all New Issue ETPs will be subject to the same default commencement of trading in the Pre-Market Session and the same issuer election to use the IPO Auction. The Exchange also does not believe that the proposed rule change will impose any burden on intermarket competition; rather, it may promote competition by allowing TXSE to offer functionality comparable to that available on Nasdaq and BZX.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(iii)⁹ of the Act and Rule 19b-4(f)(6)¹⁰ thereunder in that it effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative prior to 30 days after the date of filing. However, Rule 19b-4(f)(6)(iii),¹¹ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay. The Exchange states that waiver of the operative delay will allow it to promptly offer the option for a New Issue ETP to commence trading at the beginning of the Pre-Market Session. The Exchange states that proposal will permit investors to trade certain new issue ETPs earlier in the day, while preserving the IPO Auction as an issuer-elected alternative for an issuer that prefers that process. The Exchange also states that it believes that the proposal raises no new or novel regulatory issues.¹² For the foregoing reasons, the Commission finds that waiver of the operative delay is consistent with the protection of investors and the public interest. Accordingly, the Commission hereby waives the operative delay and designates the proposal operative upon filing.¹³

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the

⁹ 15 U.S.C. 78s(b)(3)(A)(iii).

¹⁰ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires the Exchange to give the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

¹¹ 17 CFR 240.19b-4(f)(6)(iii).

¹² See BZX Filing, supra note 4, at 7–9.

¹³ For purposes only of waiving the 30-day operative delay, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposal is consistent with the Act. Comments may be submitted by any of the following methods:

[OMB Control No. 3235-0272]

Agency Information Collection Activities; Proposed Collection; Comment Request; Extension: Rule 11a-2

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("SEC" or "Commission") is soliciting comments on the proposed collection of information discussed below.

Rule 11a-2 (17 CFR 270.11a-2) under the Investment Company Act of 1940 (15 U.S.C. 80a-1 *et seq.*) permits certain registered insurance company separate accounts, subject to certain conditions, to make exchange offers without prior approval by the Commission of the terms of those offers. Rule 11a-2 requires disclosure, in certain registration statements filed pursuant to the Securities Act of 1933 (15 U.S.C. 77a *et seq.*) of any administrative fee or sales load imposed in connection with an exchange offer.

The Commission staff estimates that 656 registrants are governed by Rule 11a-2. Based on this estimate, the total annual burden hours associated with the rule is estimated to be 656 hours. The estimated burden hours associated with rule 11a-2 has decreased by 1 hour from the current allocation of 657 hours. The decrease is due to a decrease in the number of registrants. The estimated external cost associated with this collection of information continues to be \$0. The Commission includes the estimated burden of complying with the information collection required by Rule 11a-2 in the total number of burden hours estimated for completing the relevant registration statements and reports the burden of Rule 11a-2 in the separate Paperwork Reduction Act ("PRA") submissions for those registration statements (see the separate PRA submissions for Form N-3 (17 CFR 274.11b), Form N-4 (17 CFR 274.11c) and Form N-6 (17 CFR 274.11d). The Commission is requesting a burden of one hour for Rule 11a-2 for administrative purposes.

The estimate of average burden hours is made solely for the purposes of the PRA and is not derived from a comprehensive or even a representative survey or study of the costs of

Commission rules or forms. The information collection requirements imposed by Rule 11a-2 are mandatory. Responses to the collection of information will not be kept confidential.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number.

Written comments are invited on: (a) whether this proposed collection of information is necessary for the proper performance of the functions of the SEC, including whether the information will have practical utility; (b) the accuracy of the SEC's estimate of the burden imposed by the proposed collection of information, including the validity of the methodology and the assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated, electronic collection techniques or other forms of information technology.

Please direct your written comments on this 60-Day Collection Notice to Austin Gerig, Director/Chief Data Officer, Securities and Exchange Commission, c/o Tanya Ruttenberg via email to PaperworkReductionAct@sec.gov by November 9, 2026.

Dated: September 3, 2026.
