

on the American lobster resource. The regulations implementing the FMP in the EEZ are specified at 50 CFR part 697.

This collection of information is being conducted to help mitigate the economic burden of scheduled trap allocation reductions in Lobster Conservation Management Areas 2 and 3 on Federal lobster permit holders through the Annual Lobster Trap Transfer Program, which allows all qualified Federal lobster permit holders to buy and sell trap allocation from Areas 2, 3, or Outer Cape Cod. NMFS collects application forms from Lobster permit holders who wish to transfer trap allocation from these areas during a 2-month period (from August 1 through September 30) each year. The revised allocations resulting from the transfers become effective for each participating lobster permit at the start of the following Federal lobster fishing year, on May 1. Both the seller and buyer of the traps are required to sign the application form, date the document, and clearly show that the seller has sufficient allocation to transfer and that the buyer has sufficient room under the applicable trap cap.
