

(89 FR 91486) (FRL-9145-02-OCSP)). A summary of the provisions of the regulations for these PBTs is provided in the appendix. This Information Collection Request (ICR) consolidates this ICR (EPA ICR No.2599.04; OMB Control No. 2070-0213) with the rule-related ICR titled “Decabromodiphenyl Ether and Phenol, Isopropylated Phosphae (3:1); Revision to the Regulation of PBT Chemicals under TSCA (Final Rule)” (EPA ICR No. 2779.02; OMB Control No. 2070-0230). This ICR includes the total burden for all five chemicals along with adjustments to the burden estimates resulting from the November 2024 rule. Following approval of this ICR, the rule-related ICR will be discontinued.

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Form number(s): None.

Respondents/affected entities: Entities potentially affected by this ICR include those that manufacture, process, distribute in commerce or use decabromodiphenyl ether (decaBDE), phenol, isopropylated phosphate (3:1) (PIP (3:1)), 2, 4, 6-tris(tert-butyl)phenol (2,4,6-TTBP), pentachlorothiophenol (PCTP), hexachlorobutadiene (HCBD), or products or articles containing these chemicals. North American Industry Classification System (NAICS) codes identified in question 12 of the ICR.

Respondent's obligation to respond: Mandatory per 40 CFR 751.

Estimated number of potential respondents: 26,829.

Frequency of response: On occasion.

Total estimated average number of responses for each respondent: 1.

Total estimated burden: 42,309 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated costs: \$3,874,143 (per year), includes \$0 annualized capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is an increase of 42,255 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This change, which is discussed in more detail in the ICR, reflects the consolidation of the ICR for the 2024 final rule for decaBDE and PIP (3:1) (EPA ICR No. 2779.02; OMB Control No. 2070-0230) with this ICR (EPA ICR No.2599.04; OMB Control No. 2070-0213). This therefore combines the 42,301 burden hours from the previously approved 2024 final rule ICR

(EPA ICR No. 2779.02; OMB Control No. 2070-0230) with the 54 burden hours of the currently approved ICR (EPA ICR No.2599.04; OMB Control No. 2070-0213). The baseline burden estimate is from the currently approved ICR, with adjustments to the burden estimates, including changes in the number of respondents and the number of responses provided by those respondents, to capture changes and updates from the final rule related ICR (OMB Control No. 2070-0230). This change is an adjustment.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: September 3, 2026.

Douglas M. Troutman,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0678; FR ID 366354]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility;

the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written PRA comments should be submitted on or before November 9, 2026. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION: The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

OMB Control No.: 3060-0678.

Title: Part 25 of the Federal Communications Commission's Rules Governing the Licensing of, and Spectrum Usage by Commercial Earth Stations and Space Station.

Form Nos.: FCC Form 312, FCC Form 312-EZ, FCC Form 312-R and Schedules A, B and S.

Type of Review: Revision of a currently approved information collection.

Respondents: Business or other for-profit entities and not-for-profit institutions.

Number of Respondents and

Responses: 4,171 respondents; 4,223 responses.

Estimated Time per Response: 0.5-78 hours per response.

Frequency of Response: On occasion, one time, and annual reporting requirements; third-party disclosure requirements; recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. The Commission has statutory authority for the information collection requirements under 47 U.S.C. 154, 301, 302, 303, 307, 309, 310, 319, 332, 605, and 721.

Total Annual Burden: 37,129 hours.
Annual Cost Burden: \$7,159,040.

Needs and Uses: On August 8, 2025, the Commission released a Second Report and Order, FCC 25–48, IB Docket Nos. 22–411 and 22–271, titled “Expediting Initial Processing of Satellite and Earth Station Applications; Space Innovation.” In this Second Report and Order, the Commission streamlines, simplifies, and modernizes the processing of space and earth station applications. Specifically, the Second Report and Order: (1) adopts a new process by which earth station operators may receive a baseline license without identifying a specific satellite point of communication, and adopts a procedure by which earth station applicants can easily add or remove identified points of communication; (2) expands the list of license modifications that do not require prior authorization; (3) eliminates the requirement to retain paper copies of applications; (4) changes the default *ex parte* status of all space station and earth station applications from “restricted” to “permit-but-disclose;” (5) adopts expanded timeframes to file license renewal applications for earth stations and replacement applications for non-geostationary orbit (NGSO) space stations; (6) provides non-U.S. licensed market access grantees the ability to receive the equivalent of a grant of special temporary authority; and (7) adopts a 30-day shot clock for earth station renewal applications.

The relevant rules for purposes of this revised information collection are §§ 25.110(e), 25.117(i), 25.118(a)(3), 25.118(b)(1), 25.118(b)(2), 25.118(b)(3), 25.118(e)(4), 25.118(h), and 25.137(h).

On May 1, 2026, the Commission released a Report and Order, FCC 26–26, SB Docket No. 25–157, titled “Modernizing Spectrum Sharing for Satellite Broadband.” In this Report and Order the Commission replaced the Equivalent Power Flux Density (EPFD) framework with modern, performance-based geostationary orbit (GSO) protection criteria that take account of the improved spectrum sharing possibilities that modern satellite technology has brought, including through use of adaptive coding and modulation (ACM). As relevant to this information collection, a non-geostationary orbit (NGSO) FSS applicant must either certify that it has completed a coordination agreement with any operational co-frequency GSO satellite network, or submit for Commission approval a compatibility showing which demonstrates by use of a degraded throughput methodology that it will not cause unacceptable interference to any such system with

which coordination has not been completed.

The relevant rules for purposes of this revised information collection are §§ 25.146(a)(3) and 25.289(a)(2).

The new information collection requirements in this collection remove previously required information collections that are no longer considered necessary. In addition, the new information is required to ensure that applicants are meeting the Commission’s rules when they modify their systems without prior approval from the Commission. In addition, the information is required to ensure that the public and the Commission are provided with accurate information about the operations of a system.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1166; FR ID 365865]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written PRA comments should be submitted on or before November 9,

2026. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION: The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

OMB Control Number: 3060–1166.

Title: Section 1.21001, Participation in Competitive Bidding for Support; Section 1.21002, Prohibition of Certain Communications During the Competitive Bidding Process.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities, not-for-profit institutions, and state, local or tribal governments.

Number of Respondents and Responses: 750 respondents and 750 responses.

Estimated Time per Response: 1.5 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection 47 U.S.C. 154, 254 and 303(r).

Total Annual Burden: 1,125 hours.

Total Annual Cost: None.

Needs and Uses: The information required by section 1.21001 of the Commission’s rules that is collected under this information collection is used by the Commission to determine whether applicants are eligible to participate in auctions for Universal Service Fund support. The reports of prohibited communications made or received by an auction applicant required by section 1.21002 of the Commission’s rules that are collected under this information collection enable the Commission to ensure that no bidder gains an unfair advantage over other bidders in its auctions for universal service support and thus enhance the competitiveness and fairness of Commission’s auctions for universal service support.
