

Clearance of a Renewed Approval of Information Collection: International Role of the Federal Aviation Administration

Form Numbers: FAA Form 1240–6.

Type of Review: Clearance of a renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on July 7, 2026 (91 FR 41729). 49 U.S.C. 40104 requires “the Administrator to promote and achieve global improvements in the safety, efficiency, and environmental effect of air travel by engaging with foreign counterparts, in the International Civil Aviation Organization (ICAO) and its subsidiary organizations, and other international organizations and fora, and with the private sector.” The statute further requires the Administrator to engage bilaterally and multilaterally on an ongoing basis to bolster international collaboration and to harmonize international aviation safety requirements, and to expand the technical assistance provided by the FAA in support of enhancing international aviation safety.

This information collection specifically facilitates work and training arrangements with foreign counterparts, ICAO and its subsidiary organizations, other international organizations and fora, and with private entities around the world; it identifies opportunities and unexpected changes; and it ultimately contributes to the fulfillment of the FAA’s mission to provide the safest, most efficient aerospace system in the world.

Foreign affairs specialists assigned to the FAA Office of International Affairs will collect information from respondents (foreign counterparts, ICAO and its subsidiary organizations, other international organizations and fora, or from private foreign entities) verbally, in-person or telephonically, or in writing via letter, email, or other electronic means.

Respondents: Information is collected from approximately 195 affected entities. Respondents are representatives from the FAA’s counterpart Civil Aviation Authorities and other aviation-related international organizations.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: 0.5 hours (rounded up from 0.4103).

Estimated Total Annual Burden: 80 hours.

D. Privacy Act

In accordance with 49 U.S.C. 31315(b)(6), DOT solicits comments from the public on the exemption request. DOT posts these comments, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice DOT/ALL–14 FDMS (Federal Docket Management System), which can be reviewed under the “Department Wide System of Records Notices” link at <https://www.transportation.gov/individuals/privacy/privacy-act-system-records-notices>. The comments are posted without edit and are searchable by the name of the submitter.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315(b) to grant exemptions from the FMCSRs. FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including the applicant’s safety analysis. The Agency must provide an opportunity for public comment on the request.

The Agency reviews the application, safety analyses, and public comments submitted and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level of safety that would be achieved absent such exemption, pursuant to the standard set forth 49 U.S.C. 31315(b)(1). The Agency must publish its decision in the **Federal Register** (49 CFR 381.315(b)). If granted, the notice will identify the regulatory provision from which the applicant will be exempt, the effective period, and all terms and conditions of the exemption (49 CFR 381.315(c)(1)). If the exemption is denied, the notice will explain the reason for the denial (49 CFR 381.315(c)(2)). The exemption may be renewed (49 CFR 381.300(b)). FMCSA grants medical exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver’s medical certification.

III. Background

The physical qualification standard for drivers regarding seizures and loss of consciousness provides that a person is physically qualified to drive a CMV if that person has “no established medical history or clinical diagnosis of epilepsy

or any other condition which is likely to cause the loss of consciousness or any loss of ability to control” a CMV (49 CFR 391.41(b)(8)). To assist in applying this standard, FMCSA publishes guidance for medical examiners (ME) in the form of medical advisory criteria in Appendix A to 49 CFR part 391.¹ In 2007, FMCSA published recommendations from a Medical Expert Panel (MEP) that FMCSA tasked to review the existing seizure disorder guidelines for MEs.² The MEP performed a comprehensive, systematic literature review, including evidence available at the time. The MEP issued recommended criteria to evaluate whether an individual with a history of epilepsy, a single unprovoked seizure, or a provoked seizure should be allowed to drive a CMV.

On January 15, 2013, FMCSA began granting exemptions, on a case-by-case basis, to individual drivers from the physical qualification standard regarding seizures and loss of consciousness in 49 CFR 391.41(b)(8) (78 FR 3069). The Agency considers the medical advisory criteria, the 2007 MEP recommendations, any public comments received, and each individual’s medical information and driving record in deciding whether to grant the exemption.

The seven individuals listed in this notice have requested an exemption from the epilepsy and seizure disorders prohibition in 49 CFR 391.41(b)(8). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by statute.
