BILLING CODE 4167-05-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Center for Advancing Translational Sciences; Notice of Public Online Roundtable

ACTION: Notice; announcement of public forum.

SUMMARY: The National Center for Advancing Translational Sciences (NCATS) will host a public online roundtable to share the latest updates on how NCATS is advancing translational science research and provide an opportunity for an interactive discussion with NCATS director Dr. Joni Rutter.

DATES: The public online forum will be available on October 9, 2026, from 12:00 p.m. to 1:00 p.m. EDT.

ADDRESSES: The public forum will be held online, at <https://teams.microsoft.com/meet/254720356527980?p=p25BdPepvAOddo3GEA> on the date indicated above.

FOR FURTHER INFORMATION CONTACT: Christopher Maurer, Management Analyst, National Center for Advancing Translational Sciences, NIH, christopher.maurer2@nih.gov or 301-827-7280 OR Brittany Gibbons, Health Specialist, National Center for Advancing Translational Sciences, NIH, brittany.gibbons@nih.gov or 240-401-8298.

SUPPLEMENTARY INFORMATION: The roundtable will also invite public discussion of proposed organizational changes at NCATS, including abolishing the Office of Drug Development Partnership Programs and the Office of Translational Medicine, revising the functional statement of the Office of Special Initiatives, and renaming the Chemical Genomics Branch as the Translational Models Branch. These changes are intended to consolidate program components within the NCATS Office of the Director and align one of the Center's intramural research branches with efforts to create non-animal models of disease. During the online forum, members of the public will be able to review the proposed changes and submit comments.

The NIH Reform Act of 2006 (42 U.S.C.281 (d)(4)) requires public notice

of proposed reorganization plans. This announcement and the public forum serve as that notice.

Dated: September 2, 2026.

Joni L. Rutter,

*Director, National Center for Advancing
Translational Sciences.*

BILLING CODE 4167-05-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

**[Docket ID FEMA-2026-0002; Internal
Agency Docket No. FEMA-B-2632]**

Proposed Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: Comments are to be submitted on or before December 9, 2026.

ADDRESSES: The Preliminary FIRM, and where applicable, the FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

You may submit comments, identified by Docket No. FEMA-B-2632, to David N. Bascom, Acting Director, Engineering and Modeling Division, Federal Insurance Directorate, Resilience, FEMA, 400 C Street SW, Washington, DC 20472, or (email) david.bascom@fema.dhs.gov.

FOR FURTHER INFORMATION CONTACT:

David N. Bascom, Acting Director, Engineering and Modeling Division, Federal Insurance Directorate, Resilience, FEMA, 400 C Street SW, Washington, DC 20472, or (email) david.bascom@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an
