Type of Review: Reinstatement with change of a previously approved collection.

Abstract: The collection of this information is authorized by Title 38 United States Code (U.S.C.) Section 7403, which provides that appointments of Title 38 positions will be made only after qualifications have been satisfactorily verified in accordance with regulations prescribed by the Secretary. Occupations listed in 38 U.S.C. 7401(1) and 7401(3) are appointed at a grade and step rate or an assignment based on careful evaluation of the trainee’s education and experience. Title 38 U.S.C. 7302 requires VA to assist in the training of health professionals for the agency’s own needs and for those of the nation. All health position trainee applicants must provide information concerning their background, training, and education, as well as previously held licenses/registrations, to determine if they meet requirements.

VA Form 10–2850d is used to collect appropriate information to support the qualifications for each trainee participating in accredited educational programs with VA. Trainee applicants participating in accredited educational programs must complete and submit the 10–2850d form.

VA Form 10–2850e is the pre-employment reference form used to

elicit information concerning the prior education and/or performance of the Title 38 trainee applicant. The information provided is used to determine if the applicant meets the requirements for employment. VA sends the 10–2850e form to the educational institutions, organizations, and individuals indicated by the applicant on the employment application form.

The forms have been updated with required PRA language. There is a decrease in the total estimated number of responses and burden hours for this collection based upon program data since the last PRA clearance, including the discontinuance and removal of three forms. This information collection is only for VA health position trainee applicants.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Title: Copayment Exemption for Indian Veterans—Documentation of Indian or Urban Indian Status, VA Form 10–334.

OMB Control Number: 2900–0920.
<https://www.reginfo.gov/public/do/PRASearch>.

Type of Review: Reinstatement with change of a previously approved collection.

Abstract: VA previously amended its medical regulations to implement a statute exempting Indian and urban Indian veterans from copays for the receipt of hospital care or medical services under laws administered by VA. Public Law (PL) 116–315, sec. 3002 of the Johnny Isakson and David P. Roe, M.D. Veterans Health Care and Benefits Improvement Act of 2020 (signed

January 5, 2021) amended section 1730A of title 38 U.S.C. to eliminate copays for the receipt of hospital care or medical services under laws administered by VA for veterans who are either Indian or urban Indian, as those terms are defined in section 4 of the Indian Health Care Improvement Act. Section 4 is codified at 25 U.S.C. 1603, and the definitions for Indian and urban Indian are located in paragraphs 13 and 28, respectively, of section 1603.

To demonstrate that a veteran meets the definition of Indian or urban Indian, as defined in 25 U.S.C. 1603(13) or (28), VA may ask the veteran to submit documentation to VA. The veteran should use VA Form 10–334 as a cover sheet for submission of documentation requested by VA. There is a decrease in the estimated annual respondents and burden hours based upon data since the last PRA clearance.

Title: Foreign Medical Program (FMP) Veteran and Provider Forms (VA Forms 10–488, 10–489 and 10–7959f–2).

OMB Control Number: 2900–0648.

<https://www.reginfo.gov/public/do/PRASearch> (Once at this link, you can enter the OMB Control Number to find the historical versions of this Information Collection).

Type of Review: Revision of a currently approved collection.

Abstract: The Foreign Medical Program (FMP) is a federal health benefits program for Veterans, which is administered by the Department of Veterans Affairs (VA) Veterans Health Administration (VHA). FMP is a Fee for Service (indemnity plan) program and provides payment/reimbursement for VA adjudicated service-connected conditions. Title 38 U.S.C. 1724 and 38 CFR 17.35 authorize VA to provide

coverage for a Veteran with a service-connected disability when the Veteran is residing or traveling overseas. Title 31 U.S.C. 3332 and 31 CFR 210 establish requirements for direct deposits of Federal payments. The information collected in the forms allows VA to expedite claim payments via direct deposit, which will alleviate delays in payment being received by both the Veteran and provider, prevent payment information from being lost, and ensure a secure payment methodology.

VA is introducing two new forms for this collection—VA Form 10–488 will be used by Veterans and VA Form 10–489 will be used by providers to register for direct deposit payment/reimbursement for foreign medical services. VA Form 10–7959f–1 is discontinued and removed from this collection because 10–488 replaces it as the registration form for Veterans. VA Form 10–7959f–2 will continue to be used as a cover sheet for submitting claims to FMP. The 10–7959f–2 form streamlines the claims submission process for claimants and providers while also reducing the time spent by VA on processing FMP claims.

a. VA Form 10–488—International Direct Deposit Enrollment (Veteran): This form collects relevant information that is used to register Veterans in the FMP who have service-connected disabilities and are living or traveling overseas.

b. VA Form 10–489—Foreign Medical Provider—International Direct Deposit Enrollment: This form collects relevant direct deposit enrollment information from the provider, which is used to pay for medical services rendered to eligible Veterans while they are overseas.

c. VA Form 10–7959f–2—Foreign Medical Program Claim Cover Sheet: This form is used for submitting claims for payment or reimbursement of medical expenses related to Veterans who are overseas and have a service-connected disability. The form outlines the basic information necessary for the consideration of claims and processing of payments.
