Additional Information

In order to receive notification of the issuance of the EA and to keep track of formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This service provides automatic notification of filings made to subscribed dockets, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502-6595 or *OPP@ferc.gov*.

Additional information about the Project is available from the FERC website (www.ferc.gov). Using the “eLibrary” link, select “General Search” from the eLibrary menu, enter the selected date range and “Docket Number” excluding the last three digits (*i.e.*, CP03-75), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at *FERCOnlineSupport@ferc.gov*. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Transwestern Pipeline Company, LLC; Notice of Availability of the Environmental Assessment for the Proposed Green Chile Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Green Chile Project, proposed by Transwestern Pipeline Company, LLC (Transwestern) in the above-referenced docket.¹ Transwestern requests authorization to construct and operate a 17.77-mile-long, 24-inch-diameter natural gas transmission pipeline, metering facilities, and appurtenances in Doña Ana County, New Mexico.

Any person wishing to comment on the EA may do so. To ensure consideration of your comments on the proposal prior to making a decision on

the project, it is important that the Commission receive your comments on or before 5:00 p.m. Eastern Time on October 5, 2026. Instructions for filing comments are provided on page 3.

FERC is the lead federal agency for authorizing interstate natural gas transmission facilities under the Natural Gas Act of 1938 (NGA) and the lead federal agency for preparation of the EA. The EA assesses the potential environmental effects of the Green Chile Project in accordance with the requirements of the National Environmental Policy Act (NEPA)² and the Commission's implementing regulations.³ The principal purposes of the EA are to: identify and assess the potential effects on the natural and human environment; describe and evaluate reasonable alternatives; identify and recommend mitigation measures; and facilitate public involvement in the environmental review process. The EA concludes that approval of the proposed project would not constitute a major federal action significantly affecting the quality of the human environment.

The U.S. Bureau of Land Management (BLM) participated as a cooperating agency in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis. Specifically, the BLM provided input on the conclusions and recommendations presented in the EA. Additionally, the BLM previously prepared an EA (DOI-BLM-NM-2026-0023-EA) with a Decision Record issued via U.S. Department of Interior Secretarial approval dated May 1, 2026.⁴

The EA addresses the potential environmental effects of the construction and operation of the following facilities associated with the Green Chile Project:

- approximately 17.77 miles of 24-inch-diameter natural gas transmission pipeline; and
- meter & regulator facilities and other appurtenances.

The Commission mailed a copy of the *Notice of Availability* of the EA to federal, state, and local government representatives and agencies; elected officials; Native American tribes;
