BILLING CODE 4410-18-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[NASA Document Number: 26-050]

Name of Information Collection: Proposal Submissions and Awards Management System (ProSAMS) for the NASA Small Business Innovation Research/Small Business Technology Transfer (SBIR/STTR) program Solicitations

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of a new information collection.

SUMMARY: NASA, as part of its continuing effort to reduce paperwork and respondent burden, under the Paperwork Reduction Act (PRA), invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections.

DATES: Comments are due by October 13, 2026.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain.

Find this particular information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the submissions may be obtained from NASA PRA Clearance Officer, Stayce Hoult by emailing hq-ocio-pra-program@mail.nasa.gov, calling (256) 714-8575, or viewing the entire information collection request at www.reginfo.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Small Business Innovation Research (SBIR) program is a highly competitive program that encourages domestic small businesses to engage in Federal Research/Research and Development (R/R&D) that has the potential for commercialization. Through a competitive awards-based program, SBIR enables small businesses to explore their technological potential and provides the incentive to profit from its commercialization. By including qualified small businesses in the nation's R&D arena, high-tech innovation is stimulated, and the United States gains entrepreneurial spirit as it meets its specific research and development needs.

The Small Business Technology Transfer (STTR) is another program that expands funding opportunities in the federal innovation research and development (R&D) arena. Central to the program is an expansion of the public/private sector partnership to include the joint venture opportunities for small businesses and nonprofit research institutions. STTR's most important role is to bridge the gap between the performance of basic science and commercialization of resulting innovations.

NASA is committed to effectively performing the Agency's communication function in accordance with the Space Act Section 203 (a)(3) to "provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof," and to enhance public understanding of, and participation in, the nation's aeronautical and space program in

accordance with the NASA Strategic Plan.

II. Methods of Collection

NASA collects this information electronically.

III. Data

Title: Proposal Submissions and Awards Management System (ProSAMS) for the NASA Small Business Innovation Research/Small Business Technology Transfer (SBIR/STTR) program solicitations.

OMB Number: 2700-xxxx.

Type of review: New Information Collection.

Affected Public: Profit and non-profit businesses or institutions.

Estimated Annual Number of Activities: 2 (registration and proposal submission).

Estimated Number of Respondents per Activity: 2200.

Annual Responses: 2200.

Estimated Time per Response: 16 hours.

Estimated Total Annual Burden Hours: 35200 hours.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection.

They will also become a matter of public record.

Stayce Harris Houlst,

PRA Clearance Officer, National Aeronautics and Space Administration.

BILLING CODE 7510-13-P

NATIONAL TRANSPORTATION SAFETY BOARD

[Docket No.: NTSB-2026-0034]

Office of the Managing Director: Chief Data Officer; Fiscal Year (FY) 2026-2030 Strategic Plan

AGENCY: National Transportation Safety Board (NTSB).

ACTION: Notice of final publication.

SUMMARY: The NTSB announces the availability of the following publication: "NTSB FY 2026-2030 Strategic Plan".

DATES: The plan was published on September 8, 2026.

ADDRESSES: This document may be obtained at the following link: <https://www.nts.gov/about/reports/Documents/FY26-30%20Strategic%20Plan.pdf>.

FOR FURTHER INFORMATION CONTACT: Warren Randolph, Chief Data Officer, strategicplan@ntsb.gov.

SUPPLEMENTARY INFORMATION: On June 10, 2026, the NTSB published a **Federal Register** notice [91 FR 35275] inviting public comments on the development of the NTSB's Strategic Plan for fiscal years 2026-2030. All comments received were reviewed and considered in finalizing the current document.

William T. McMurry, Jr.,
General Counsel.

BILLING CODE 7533-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 52-008; NRC-2008-0476]

Virginia Electric and Power Company, (Doing Business as Dominion Energy Virginia); North Anna Site; Early Site Permit Renewal Application

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: License renewal application; acceptance for docketing; opportunity to request a hearing and petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC or Commission) is

considering an application for the renewal of Early Site Permit (ESP) No. ESP-003, which allows Virginia Electric and Power Company (doing business as Dominion Energy Virginia) to reference ESP-003 in an application for a construction permit (CP) or combined license (COL) at the North Anna ESP site during the period ESP-003 remains valid. The renewed permit, if approved, would extend the expiration date by an additional 20 years beyond the period specified in the current permit. The location for the North Anna ESP site is in Louisa County, Virginia, and the current ESP-003 expires on November 27, 2027. This notice provides the public an opportunity to request a hearing and petition for leave to intervene with respect to the renewal application.

DATES: A request for a hearing or petition for leave to intervene must be filed by November 10, 2026.

ADDRESSES: Please refer to Docket ID NRC-2008-0476 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- **Federal Rulemaking Website:** Go to <https://www.regulations.gov> and search for Docket ID NRC-2008-0476. Address questions about Docket IDs in [Regulations.gov](https://www.regulations.gov) to Bridget Curran; telephone: 301-415-1003; email: Bridget.Curran@nrc.gov. For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- **NRC's Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin ADAMS Public Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. The North Anna Early Site Permit Renewal application and request for exemption is available in ADAMS under Accession No. ML26195A323.

- **NRC's PDR:** The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

- **NRC's Public Website:** The ESP renewal application is available under the NRC's North Anna Early Site Permit public website <https://www.nrc.gov/reactors/new-reactors/large-lwr/esp>.

FOR FURTHER INFORMATION CONTACT:

William (Billy) Gleaves, Office of Advanced Reactors, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-5848; email: Bill.Gleaves@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Discussion

On July 14, 2026, Virginia Electric and Power Company, dba Dominion Energy Virginia (Dominion), filed with the NRC, pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, and part 52 of title 10 of the *Code of Federal Regulations* (10 CFR), "Licenses, Certifications, and Approvals for Nuclear Power Plants," an application to request that the NRC renew ESP-003 for an additional 20 years beyond the current November 27, 2027, expiration date or from the date of issuance, whichever is later.

In the case of the North Anna site, Dominion holds COL NPF-103 for a reactor designated as North Anna, Unit 3. In the renewal application for ESP-003, Dominion notified the NRC of its decision to place COL NPF-103 in deferred status. Dominion also included in its renewal application for ESP-003 a request for an exemption from the subsumption requirements of 10 CFR 52.26(d), "Duration of permit," to provide for the renewal of the ESP in its entirety, rather than renewal of only the portions of ESP-003 not subsumed into NPF-103. Consistent with the Atomic Energy Act of 1954, as amended, and NRC regulations, the NRC is not publishing a notice of opportunity for hearing on the exemption request. A notice of receipt and availability of this renewal application was previously published in the **Federal Register** on August 5, 2026 (91 FR 50560). Identical notices of receipt and availability were published for an additional 3 consecutive weeks thereafter.

The NRC staff has determined that Dominion has submitted sufficient information in accordance with 10 CFR 52.29(a), "Application for Renewal," to bring up to date the information and data contained in the previous ESP application to enable the staff to undertake a review of the ESP renewal application, and that, therefore, the ESP renewal application is acceptable for docketing. The previous ESP application for the North Anna ESP site is available in ADAMS under package Accession No. ML062580096. The
