Title 49 U.S.C. 44705 is the specific statute governing air carrier operating certificates. It tells the FAA when an air carrier certificate shall be issued: after investigation, when the applicant is properly and adequately equipped and capable of operating safely. It also specifies what the certificate must contain.

The FAA will use the information it collects and reviews to ensure compliance and adherence to regulations and, if necessary, to take enforcement action on violators of the regulations.
