SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Manufactured Home Construction and Safety Standards Act Park Model RV Exemption Notice.

OMB Approval Number: 2502–0616.

OMB Expiration Date: January 1, 2027.

Type of Request: Renewal of a currently approved collection.

Form Number: None.

Description of the need for the information and proposed use: For recreational vehicles that are exempt from HUD regulation as manufactured homes, HUD requires certification with either the American National Standards Institute's (ANSI) standard for Park Model Recreational Vehicles (PMRV), A119.5–15 or the National Fire Protection Association's NFPA 1192, Standard on Recreational Vehicles, 2015 Edition. PMRVs built to ANSI A119.5–15 may exceed the RV exemption's 400 square foot threshold, a manufacturer must post notice in the home that the structure is only designed for recreational purposes and is not designed as a primary residence or for permanent occupancy. The Recreation Vehicle Industry Association's (RVIA) current seal does not satisfy HUD's standard for the manufacturer's notice. HUD requirements provide specifics regarding the content and prominence of the notice and which requires the notice to be prominently displayed in the unit and delivered to the consumer before the sale transaction is complete, regardless of whether the transaction occurs online or in-person. PMRV manufacturers will satisfy this requirement with two printed sheets of paper per PMRV: One in the kitchen, and one delivered to the consumer before the transaction.

Respondents: Business or other for-profit.

Estimated Number of Respondents: 26.

Estimated Number of Responses: 4,659 per annum.

Frequency of Response: Approx. 179.
Average Hours per Response: 20 seconds.

Total Estimated Burden: 26 hours.

SUPPLEMENTARY INFORMATION:

Proposed Action

We, the U.S. Fish and Wildlife Service (Service), have received an application from Cornerstone Communities, LLC (applicant) for a 10-year incidental take permit (ITP) for one covered species pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The application addresses the potential “take” of the threatened coastal California gnatcatcher (gnatcatcher; *Polioptila californica californica*) associated with the construction of the Woodward 46 Specific Plan Project, in the City of San Marcos, San Diego County, California. In support of the application, the applicant prepared a draft HCP pursuant to section 10(a)(1)(B) of the ESA. The proposed action consists of the Service’s issuance of an ITP and implementation of the proposed HCP.

Our Preliminary Determination

The Service has made a preliminary determination that the Service’s issuance of the proposed ITP would individually and cumulatively have a minor effect on the gnatcatcher and the human environment. Therefore, we have preliminarily determined that the proposed action may qualify for application of a categorical exclusion pursuant to the National Environmental Policy (NEPA; 42 U.S.C. 4321 *et seq.*), the Department of the Interior’s (DOI) NEPA regulations, and the DOI Departmental Handbook (516 DM 1).
