

national estimates of crop and livestock production, prices, and disposition; as well as economic statistics, environmental statistics related to agriculture and to conduct the Census of Agriculture.

The Agricultural Prices surveys provide data on the prices received by farmers and prices paid by them for production goods and services. NASS estimates based on these surveys are used as a Principal Economic Indicator of the United States. These price estimates are also used to compute Parity Prices in accordance with requirements of the Agricultural Adjustment Act of 1938 as amended (Title III, Subtitle A, Section 301(a)). In addition, price data are used by the Federal Crop Insurance Corporation to help determine payment rates, program option levels, and disaster programs.

Authority: These data will be collected under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–113) and Office of Management and Budget regulations at 5 CFR part 1320.

All NASS employees and NASS contractors must also fully comply with all provisions of the Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2018, Title III of Public Law 115–435, codified in 44 U.S.C. Ch. 35. CIPSEA supports NASS’s pledge of confidentiality to all respondents and facilitates the agency’s efforts to reduce burden by supporting statistical activities of collaborative agencies through designation of NASS agents, subject to the limitations and penalties described in CIPSEA.

Estimate of Burden: Public reporting burden for this information collection is based on more than 30 individual surveys with expected responses of 5–20 minutes and frequency of 1–12 times per year. Estimated number of responses per respondent is approximately 4.1 times per year.

Respondents: Farmers and farm-related businesses.

Estimated Number of Respondents: 40,000.

Estimated Total Annual Burden on Respondents: 26,000 hours.

Comments: Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological, or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC.
Jody R. McDaniel,
Associate Administrator.

BILLING CODE 3410–20–P

CIVIL RIGHTS COLD CASE RECORDS REVIEW BOARD

[Agency Docket Number: CRCCRRB–2026–0019–N]

Notice of Formal Determination on Records Release

AGENCY: Civil Rights Cold Case Records Review Board.
ACTION: Notice.

SUMMARY: The Civil Rights Cold Case Records Review Board received 5,412 pages of records from the National Archives and Records Administration (NARA) related to four civil rights cold case incidents to which the Review Board assigned the unique identifiers 2023–002–004, 2024–003–012, 2024–003–054, and 2024–003–057. The agencies proposed 1,436 postponements including postponements of sealed federal grand jury information in the records. On September 4, 2026, the Review Board met and approved 1,431 postponements and determined that 4,001 pages in full and 103 pages in part should be publicly disclosed in the Civil Rights Cold Case Records Collection. The Review Board will request that the Attorney General petition the relevant court to unseal federal grand jury information in the records for incident 2023–002–004. By issuing this notice, the Review Board complies with the Civil Rights Cold Case Records Collection Act of 2018 that requires the Review Board to publish in the **Federal Register** its determinations on the disclosure or postponement of records in the Collection no more than 14 days after the date of its decision.

FOR FURTHER INFORMATION CONTACT: Stephannie Oriabure, Chief of Staff, Civil Rights Cold Case Records Review Board, 1800 F Street NW, Washington, DC 20405, (771) 221–0014, *info@coldcaserecords.gov*.
SUPPLEMENTARY INFORMATION:

Incident identifier	Postponement identifier	Review board decision
2023–002–004	2025–NARA–02–1029 through 2025–NARA–02–2169	Approve.
2023–002–004	2025–NARA–02–2170 and 2025–NARA–02–2171	Reject.
2023–002–004	2025–NARA–02–2172 through 2025–NARA–02–2251	Approve.
2024–003–012	2025–NARA–03–0938 through 2025–NARA–03–0940	Approve.
2024–003–012	2025–NARA–03–0941 through 2025–NARA–03–0943	Reject.
2024–003–054	2024–NARA–03–1558 through 2024–NARA–03–1764	Approve.

Authority: Public Law 115–426, 132 Stat. 5489 (44 U.S.C. 2107).

Dated: September 9, 2026.

Stephannie Oriabure,
Chief of Staff.

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

[Docket No.: 260902-0004]

Proposed Voluntary Product Standard PS 2-25, Performance Standard for Wood Structural Panels

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice of availability; request for comments.

SUMMARY: The National Institute of Standards and Technology (NIST) is distributing for public comment a proposed revision of Voluntary Product Standard PS 2-25, *Performance Standard for Wood Structural Panels*. The revisions to the standard were coordinated by the APA—The Engineered Wood Association, (formally known as the American Plywood Association), prepared by the Standard Review Committee, and approved by the PS 2 Standing Committee. The proposed standard would establish the physical properties and structural performance criteria for assessing the acceptability of wood structural panels primarily used for construction sheathing and single floor applications and provide a basis for common understanding among the manufacturers, distributors, and users of these products. Interested parties are invited to review the proposed standard and submit comments to NIST.

DATES: Written comments regarding the proposed revision, PS 2-25, *Performance Standard for Wood Structural Panels*, should be submitted to the Standards Coordination Office, NIST, no later than October 13, 2026. Written comments should be submitted according to the instructions in the **ADDRESSES** section below. Submissions received after that date may not be considered.

ADDRESSES: An electronic copy (an Adobe Acrobat File) of the proposed standard, PS 2-25, *Performance Standard for Wood Structural Panels*, can be obtained at the following website <https://www.nist.gov/standardsgov/voluntary-product-standards-program>. This site also includes an electronic copy of PS 2-18 (the existing standard). Written comments on the proposed revision should be submitted to

Nathalie Rioux, Standards Coordination Office, NIST, 100 Bureau Drive, Stop 2100, Gaithersburg, MD 20899-2100. Electronic comments may be submitted to standards@nist.gov.

Instructions: Attachments will be accepted in plain text, Microsoft Word, or Adobe PDF formats. Comments containing references, studies, research, and other empirical data that are not widely published should include copies of, or electronic links to, the referenced materials.

All submissions, including attachments and other supporting materials, will become part of the public record and subject to public disclosure. All comments responding to this document will be a matter of public record. Relevant comments will generally be available during and after the comment period closes on NIST's website at <https://www.nist.gov/standardsgov/voluntary-product-standards-program>. NIST will not accept comments accompanied by a request that part or all of the material be treated confidentially because of its business proprietary nature or for any other reason.

Therefore, commenters should not submit confidential business information or otherwise sensitive, protected, or personal information, such as account numbers, Social Security numbers, or any other information they do not wish to be posted publicly (*e.g.*, personal or confidential business information).

FOR FURTHER INFORMATION CONTACT: Nathalie Rioux, Standards Coordination Office, National Institute of Standards and Technology, telephone: (240) 751-6225; email: standards@nist.gov.

SUPPLEMENTARY INFORMATION: Proposed Voluntary Product Standard PS 2-25, *Performance Standard for Wood Structural Panels*, would establish requirements, for those who choose to adhere to the standard, for structural panels. This standard would establish the performance requirements regarding adhesive bond performance, panel construction and workmanship, dimensions and tolerances, and moisture content of wood structural panels intended for construction sheathing and single floor end uses as well as the certification and marking requirements for panels.

The proposed revision of the standard has been developed and is being processed in accordance with 15 CFR part 10, *Procedures for the Development of Voluntary Product Standards*. The Standing Committee for PS 2-25 is responsible for maintaining, revising, and interpreting the standard and

comprises producers, distributors, users, and others with an interest in the standard.

After reviewing the standard, the Committee determined that updates were needed to reflect current industry practices. The Committee held meetings to review the standard and make needed changes.

The PS 2 Standing Committee voted on the revision, and it was approved by 100% of the eighteen voting members. The Committee submitted a report to NIST with the voting results and the draft revised standard. NIST has determined that the revised standard should be issued for public comment. Section C5 of PS 2-25 contains a summary of significant changes.

Proposed Voluntary Product Standard PS 2-25, *Performance Standard for Wood Structural Panels*, revises PS 2-18 and includes the following changes:

1. Added definitions of Lot, Span Rating, and Veneer.
2. Added Bending Strength information in 6.4.2.1.
3. Added 3/8 Category 24/0 in Table 4.
4. Updated Figure 6 to fix the conversion of units; updated Figure 7 to fix “mm” that was cutoff in the image; updated Flowchart in Appendix B by changing Small Bending to Small Static Bending.
5. Updated test procedure for Static Bending Stiffness capacity by updating what each term in the equation refers to.
6. Updated Section 8 Marking and Certification by adding a subsection on Accredited Certification Agency; revising Qualified Inspection and Testing Agency subsection and adding a subsection on Accredited Inspection Agency and a subsection on Accredited Testing Laboratory; adding a subsection on Outsourcing (Subcontracting).
7. Added Section 9 on Quality Assurance Requirements which included adding the following subsections Manufacturing Quality Program, Inspection and Test Program, Sampling and Corrective Action.

The Standing Committee for PS 2-25 and NIST propose to revise the standard accordingly after reviewing public comments. NIST will publish a notice advising the public when PS 2-25 has been finalized.

Alicia Chambers,

NIST Executive Secretariat.
