AGCC concept as described in the RFI? How can these challenges and barriers be mitigated? What actions and resources can the Federal government provide to help mitigate these barriers? Please consider factors such as:

a. Technical feasibility, including proximity, construction, and other technical feasibility considerations and/or limitations of colocating utilities in the transportation ROW and/or of colocating multiple utilities within an underground tunnel (channel) or above ground in the outer limits of the ROW.

b. Safety during construction, operations, and maintenance.

c. Siting, planning, and permitting.

d. Funding and financing, design, development, construction, operations, and maintenance.

e. Construction timeliness.

f. Federal and State regulations and policies.

g. Community engagement and acceptance.

h. Market limitations.

2. What can be done to minimize challenges and complexities or maximize opportunities for projects that cross jurisdictional borders? Please consider factors such as:

a. Revenue sharing across transportation and utility jurisdictions.

b. Financial and operational liability across transportation and utility jurisdictions.

c. Utility service across transportation utility jurisdictions.

d. Interstate cooperation and coordination.

e. Laws, regulation, and utility accommodation policies.

3. What are challenges, complexities, opportunities, and recommendations related to the proposed voluntary AGCC P3 model described in this RFI? How can the Federal government support procurement in this context? In your response, consider the template P3 Term Sheet developed by the Build America Bureau [*https://www.transportation.gov/grants/agcc/p3-term-sheet-example*]. This document is intended solely for illustrative purposes and does not constitute prescriptive guidance or requirements from the U.S. Department of Transportation.

4. What forms of technical assistance or support would help ROW owners, utilities, and project developers more effectively deploy AGCC corridors? Specifically consider the types of support that would be most helpful from the Federal interagency task force, considering the anticipated support described in this RFI.

5. Please comment on the approach to designate AGCCs described in this RFI. What are the potential positive and negative impacts of such an approach? How could this process be altered or improved?

6. Would the AGCC model accelerate deployment of power and communications infrastructure versus traditional greenfield projects? What are the potential regional economic and industrial development impacts of the AGCC model compared to traditional greenfield projects?

7. A goal of AGCC is to leverage opportunities to co-develop utility projects in support of increased affordability for utility ratepayers. AGCC seeks to catalyze opportunities for diverse, least-cost, least-risk resources which will not unnecessarily increase utility rates. Are there design elements of AGCC that are important to consider to ensure success of this goal?

VI. Disclaimer

This is solely a request for information; DOT is not accepting expressions of interest in response to this RFI. DOT may or may not elect to issue an RFEI in the future based on or related to the content and responses to this RFI. Respondents may respond to as many or as few questions or topics as they wish. DOT will not respond to individual submissions or publish a compendium of responses. DOT may request clarification of responses to this RFI through direct contact with respondents. Any information obtained as a result of this RFI is intended to be used by the Government on a non-attribution basis for planning and strategy development. Responses to this RFI will be treated as information only. Responses to this RFI do not bind DOT to any further actions related to these topics.

VII. Confidential Business Information

Because information received in response to this RFI may be used to structure future programs and/or be made available to the public, respondents are strongly advised NOT to include any information in their responses that might be considered business sensitive, proprietary, or otherwise confidential. If a respondent chooses to submit business sensitive, proprietary, or otherwise confidential information, it must be clearly and conspicuously marked as such in the response. Failure to comply with these marking requirements may result in the disclosure of the unmarked information under the Freedom of Information Act or otherwise. The U.S. Federal Government is not liable for the disclosure or use of unmarked information and may use or disclose such information for any purpose.

Signed in Washington, DC, on September 8, 2026.

Morteza Farajian,

Executive Director, Build America Bureau.

BILLING CODE 4810–AL–C

DEPARTMENT OF TREASURY

Office of Inspector General

Senior Executive Service Performance Review Board Membership

AGENCY: Office of Inspector General, Department of the Treasury (TOIG).

ACTION: Notice.

SUMMARY: The Treasury Office of Inspector General (TOIG) announces the appointment of persons to serve as members of its Performance Review Board (PRB). The purpose of the PRB is to provide fair and impartial review of annual SES performance appraisals; to make recommendations to appointing officials regarding acceptance or modification of performance ratings; and to make recommendations for performance-based awards and performance-based pay increases.

ADDRESSES: Treasury Office of Inspector General, 850 15th Street NW, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Anthony Cameron, Human Resources Specialist at 202.961.1040.

SUPPLEMENTARY INFORMATION: The membership of the TOIG's PRB is as follows:

Francine Hines
Rob Johnston
Nancy LaMana
Jason Williams

(Authority: 5 U.S.C. 4314(c)(4).)

Nancy N. Osborn,

Human Resources Director, TOIG, Federal Register Certifying Officer.
