Village of Saranac Lake; Notice of Intent To Prepare an Environmental Assessment

On September 30, 2025, the Village of Saranac Lake filed an application to relicense the 200-kilowatt Lake Flower Dam Hydroelectric Project No. 8369. The project is located on the Saranac River in Franklin and Essex Counties, New York.

In accordance with the Commission's regulations, on June 26, 2026, Commission staff issued a notice that the project was ready for environmental analysis (REA notice). Based on the information in the record, including comments filed on the REA notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an environmental assessment (EA) on the application to relicense the project.¹

The EA will be issued and circulated for review by all interested parties. All
