

determination by Commerce that imports of rebar from Algeria were being sold in the LTFV within the meaning of section 733(b) of the Act (19 U.S.C. 1673b(b)). Commerce's preliminary determinations with respect to rebar from Bulgaria, Egypt, and Vietnam alleged to be sold in the United States at less than fair value and with respect to rebar alleged to be subsidized by the Governments of Algeria, Egypt, and Vietnam were pending at that time. Notice of the scheduling of the final phase of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of December 30, 2025 (90 FR 61166). All persons who requested the opportunity were permitted to participate.

The investigation schedules became staggered when Commerce did not postpone the determinations for investigations on rebar from Algeria and reached an earlier antidumping duty determination (91 FR 11035, March 6, 2026) and countervailing duty determination (91 FR 14808, March 27, 2026). On April 17, the Commission issued a final affirmative determination in its antidumping duty investigation of rebar from Algeria (91 FR 21510, April 22, 2026). The Commission closed its countervailing duty investigation of rebar from Algeria (91 FR 29504, May 20, 2026) because USTR had advised the Commission of its determination that Algeria is not a Subsidies Agreement country.

Following notification of a final determination by Commerce that imports of rebar from Egypt and Vietnam were subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and imports of rebar from Bulgaria, Egypt, and Vietnam were being sold at LTFV within the meaning of section 735(a) of the Act (19 U.S.C. 1673d(a)), notice of the supplemental scheduling of the final phase of the Commission's countervailing duty and antidumping duty investigations were given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of August 6, 2026 (91 FR 50893, August 6, 2026).

The Commission made these determinations pursuant to § 735(b) of the Act (19 U.S.C. 1673d(b)). It completed and filed its determinations in these investigations on September 11, 2026. The views of the Commission are contained in USITC Publication 5786

(September 2026), entitled Steel Concrete Reinforcing Bar from Bulgaria, Egypt, and Vietnam: *Investigation Nos. 701-TA-769-770 and 731-TA-1752-1754 (Final)*.

By order of the Commission.

Issued: September 11, 2026.

Lisa Barton,

Secretary to the Commission.

Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Cleanup, and Liability Act

On September 10, 2026, the Department of Justice lodged a proposed

consent decree with the United States District Court for the District of New Jersey in the lawsuit entitled *United States v. Environmental Resource Holdings, LLC*, Civil Action No. 2:26-cv-11675.

The United States filed this lawsuit on behalf of the Environmental Protection Agency (“EPA”) under the Comprehensive Environmental Response, Cleanup, and Liability Act, 42 U.S.C. 9601 *et seq.* In its complaint, the United States seeks the performance of initial remedial work for Operable Units 2 and 4 of the Diamond Alkali Superfund Site in New Jersey. The proposed consent decree requires the defendant to perform this work, which includes construction of an upland processing facility and several upland support facilities that would enable dredging and capping work in the Lower Passaic River. The construction includes a facility to handle sediment dredged from the river before it is sent for off-site disposal. The upland support facilities would provide land and infrastructure needed to support future in-river construction work. The defendant will also sample the lower 8.3 miles of the river to establish a baseline and reimburse EPA for future oversight costs related to this work.
