The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Human remains representing at least 10 individuals have been identified. The nine associated funerary objects include a mortuary pole, bentwood box fragments, blanket fragments, beads,

metal, abalone shell, bird down, cordage, and cedar bark. The mortuary pole was collected in approximately 1895 from John Brady's homestead residence in the City and Borough of Sitka, Alaska, and placed in the Sheldon Jackson Museum. Human remains and associated funerary objects may or may not be original to the pole, all of which likely originated from the village site of Krugloi Point on the southern tip of Halleck Island.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains and associated funerary objects described in this notice.

Determinations

The Tongass National Forest has determined that:

- The human remains described in this notice represent the physical remains of 10 individuals of Native American ancestry.
- The nine objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a connection between the human remains and associated funerary objects described in this notice and the Sitka Tribe of Alaska.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains and associated funerary objects described in this notice to a requestor may occur on or after October 16, 2026. If competing requests for repatriation are received, the Tongass National Forest must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not

competing requests. The Tongass National Forest is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Notice of Intended Repatriation: Gilcrease Museum, Tulsa, OK

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Gilcrease Museum intends to repatriate certain cultural items that meet the definition of objects of cultural patrimony and that have a cultural affiliation with the Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the cultural items in this notice may occur on or after October 16, 2026.

ADDRESSES: Send additional, written requests for repatriation of the cultural items in this notice to Laura Bryant, Gilcrease Museum, 1400 N Gilcrease Museum Road, Tulsa, OK 74127, email laura-bryant@utulsa.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Gilcrease Museum, and additional information on the determinations in this notice, including the results of consultation, can be found in the summary or related records. Abstract of Information Available

A total of two cultural items have been requested for repatriation. The two objects of cultural patrimony are baskets (TL2026.11.50 and 71.721). One basket

is identified as a Tubatulabal bottleneck olla and was donated to Gilcrease in 2026 by Alan and Berte Hirschfield, who were collectors from Wyoming. They likely acquired this basket in the late 20th century from an auction house or trading post. The presence of any potentially hazardous substances is unknown. The other basket is also identified as Tubatulabal and from the Kern River circa 1890. In 1995, Bob Lengacher donated the basket to Gilcrease; the basket was collected in California by Lengacher's aunt in the early 20th century.

Determinations

The Gilcrease Museum has determined that:

- The two objects of cultural patrimony described in this notice have ongoing historical, traditional, or cultural importance central to the Native American group, including any constituent sub-group (such as a band, clan, lineage, ceremonial society, or other subdivision), according to the Native American traditional knowledge of an Indian Tribe or Native Hawaiian organization.
- There is a connection between the cultural items described in this notice and the Tejon Indian Tribe.

The Gilcrease Museum is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and to any other consulting parties.
