

securities markets. Further, the Exchange understands that the other SROs intend to file proposed rule changes to ensure a consistent resumption time at 4:00 a.m. or later ET across markets. Thus, the proposed rule change will help to ensure consistency across market centers without implicating any competitive issues.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act⁹ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁰

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or

- Send an email to rule-comments@sec.gov. Please include file number SR-PEARL-2026-39 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090. All submissions should refer to file number SR-PEARL-2026-39. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-PEARL-2026-39 and should be submitted on or before October 9, 2026.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹

Sherry R. Haywood,
Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-106356; File No. SR-NYSE-2026-41]

Self-Regulatory Organizations; New York Stock Exchange LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Rule 7.18 Regarding Trading Halts

September 15, 2026.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 ("Act")² and Rule 19b-4 thereunder,³ notice is hereby given that on September 1, 2026, New York Stock Exchange LLC ("NYSE" or the "Exchange") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared

by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rule 7.18 ("Trading Halts") to set forth specific requirements for halting and resuming trading in a security that is subject to certain corporate actions. The proposed rule change is available on the Exchange's website at www.nyse.com and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

New York Stock Exchange LLC ("NYSE" or the "Exchange") proposes to amend Rule 7.18 ("Trading Halts") to set forth specific requirements for halting and resuming trading in a security that is subject to certain corporate actions.

In conjunction with the industry's plans for the introduction of trading 23 hours a day, 5 days a week ("23/5 Trading"), the Exchange's affiliate exchange, NYSE Arca, Inc. ("NYSE Arca"), filed with the Commission a proposal to amend its rules to set forth specific requirements for halting trading in a security for which the Exchange is the Primary Listing Market that is subject to certain issuer-related corporate actions and for resuming trading in that security using a Trading Halt Auction. NYSE Arca explained that the proposal would expand on the framework already in place with respect to its authority to declare a mandatory regulatory halt in advance of a reverse stock split, thereby providing greater transparency and clarity with respect to the situations in which trading certain

¹⁰ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

¹¹ 17 CFR 200.30-3(a)(12).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b-4.

securities subject to issuer-related corporate actions will be halted and the process through which that halt will be implemented and terminated. On July 8, 2026, the Commission published a notice of filing and immediate effectiveness of NYSE Arca's proposal.⁴

The Exchange now proposes to make the same changes to its own rules. The Exchange understands that the other Primary Listing Markets also plan to implement substantially identical versions of this rule to ensure consistent treatment of corporate actions across the market.

Background

In 2024, the Commission noticed for immediate effectiveness the Exchange's filing establishing the Exchange's authority to declare a mandatory regulatory halt in a security for which the Exchange is the Primary Listing Market when that security is subject to a reverse stock split.⁵ Specifically, the Exchange proposed halting such a security before the end of post-market trading on other markets on the day immediately before the effective date of a reverse stock split, with trading to resume with a Trading Halt Auction after 9:30 a.m. Eastern Time ("ET") on the next trading day, at the start of the Exchange's Core Trading Session.⁶ The Exchange noted that because it processes reverse stock splits overnight, having the security reopen for trading on other markets at 4:00 a.m. ET raised the "potential for errors resulting in a material effect on the market resulting from market participants' processing of the reverse stock split, including incorrect adjustment or entry of orders."⁷ The Exchange explained that this concern could be rectified by imposing a trading halt, "which would

prohibit pre-market trading immediately after a reverse stock split" and open trading in such securities with a Trading Halt Auction after 9:30 a.m., at the start of the Exchange's Core Trading Session.⁸ The Exchange further noted that imposing such a trading halt and deferring the opening of the security until after 9:30 a.m. ET would "allow the Exchange and market participants to better detect any errors or problems with orders for the security resulting from the reverse stock split before trading in the security begins and thereby avoid any material effect on the market."⁹ In approving the substantively identical proposal of another market, the Commission noted that the proposal was "designed to promote fair and orderly trading on the Exchange by reducing the potential for order entry or other system-related errors associated with a reverse stock split in a security for which [the Exchange] is the Primary Listing Market."¹⁰

With the launch of 23/5 Trading later this year, the concerns that led the Exchange to adopt a regulatory halt framework for reverse stock splits will likewise arise with respect to a broader set of corporate actions. Although the Exchange does not currently plan to extend its own trading hours, the Exchange is a Primary Listing Market whose listed securities may trade on any venue, including NYSE Arca and other exchanges that opt to offer 23/5 Trading. Under the current market structure, the Exchange processes corporate action-related changes and updates for its listed securities during overnight hours. Other market participants, including broker-dealers, likewise use that overnight period to process corporate action-related information and adjust quotes, orders, and related instructions accordingly.

Under 23/5 Trading, however, trading in the Exchange's listed securities will resume on other markets at 9:00 p.m., only one hour after the close of trading at 8:00 p.m. Consequently, there will no longer be a substantial non-trading window during which the Exchange and market participants can process such corporate actions without potentially impacting overnight trading on other markets. These corporate actions require coordinated updates across Exchange

and market-participant systems—including adjustments to orders, quotes, and related instructions—to ensure orderly trading and accurate pricing and execution in the affected security. With only a one-hour pause between trading days, neither the Exchange nor other market participants would have sufficient time to process and incorporate corporate action-related information—such as adjustments to systems, orders, quotes, and related instructions—without the risk that trading could occur in the affected security based on incomplete or inconsistent information. In short, the continued trading of securities undergoing such corporate actions could potentially result in price dislocations, investor confusion, erroneous executions, and general operational risk.

To address these concerns, the Exchange proposes to implement substantially the same changes that the Commission recently noticed for immediate effectiveness on NYSE Arca. The Exchange proposes to build on the framework established under Rule 7.18 for reverse stock splits by extending that rule's mandatory regulatory halt requirement to additional corporate actions that, much like reverse stock splits, require a clearly defined and transparent pause in trading to permit coordinated processing. As proposed, under 23/5 Trading, if a security is affected by any of the corporate actions enumerated in the proposal, the Exchange would implement a mandatory regulatory halt¹¹ in that security before the start of overnight trading on other markets at 9:00 p.m. ET, and trading would resume with a Trading Halt Auction after 9:30 a.m. ET. The Exchange believes these changes would provide important operational safeguards by ensuring that both the Exchange and market participants have adequate time to process such corporate actions in a nearly continuous trading environment, thereby preserving a protection that has historically been implicit in a market structure with limited trading hours.

Proposed Rule Change

Implicit in Rule 7.18 is the recognition that certain corporate actions—such as reverse stock splits—require a clearly defined and transparent pause in trading to permit their coordinated processing and thereby avoid the risks associated with concurrent trading in the affected

⁴ See Securities Exchange Release No. 105862 (July 8, 2026), 91 FR 42999 (July 13, 2026) (SR-NYSEARCA-2026-71) (Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend Rule 7.18—E Regarding Regulatory Halts for Corporate Actions and Issuer-Related Events).

⁵ See Securities Exchange Act Release No. 99974 (April 17, 2024), 89 FR 30415 (April 23, 2024) (SR-NYSE-2024-22) (Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend Rule 123D) ("Reverse Stock Split Proposal").

⁶ The Exchange noted in its filing that its affiliates NYSE American LLC and NYSE Arca, Inc. had filed similar rule changes proposing to re-open a security subject to a reverse stock split trading halt with a Trading Halt Auction at 9:00 a.m., during those exchanges' Early Trading Sessions. The Exchange explained that because it does not have an early trading session for securities for which it is the Primary Listing Market, it instead proposed that a security for which the Exchange is the Primary Listing Market that is subject to a reverse stock split trading halt would re-open with a Trading Halt Auction after 9:30 a.m., at the start of the Exchange's Core Trading Session. See Reverse Stock Split Proposal, *supra* note 5, at 30416 n.10.

¹⁰ See Securities Exchange Act Release No. 98878 (November 7, 2023), 88 FR 78081 (November 14, 2023) SR-NASDAQ-2023-036) (Notice of Filing of Amendment No. 1 and Order Granting Accelerated Approval of Proposed Change, as Modified by Amendment No. 1, Relating to Nasdaq Rules 4120 and 4753).

¹¹ Notification of the declaration and termination of the proposed regulatory halt would be provided in accordance with Rule 7.18.

security while that processing is underway. The same principle applies to the categories of corporate actions addressed in this proposal, particularly in the context of nearly continuous trading.

In the context of 23/5 Trading, the Exchange has determined—based on discussions both internal and with industry participants, including the other Primary Listing Markets—that, similar to reverse stock splits, certain other corporate actions require a clearly defined and transparent pause in trading to facilitate their coordinated processing by the Exchange and other market participants before orderly trading may resume in the affected security.

Specifically, the Exchange believes that the following issuer-related corporate actions are analogous to reverse stock splits with respect to processing requirements and thus warrant analogous treatment with respect to their categorization and regulatory response: (1) changes in trading symbol; (2) changes in CUSIP number; (3) dividends equal to at least 25% of the Official Closing Price;¹² (4) stock splits (including forward and reverse stock splits); (5) De-SPAC transactions; (6) spin-off transactions; (7) security-type changes; (8) mergers or similar mandatory exchanges of shares; and (9) any other corporate action or issuer-related event not enumerated above, for which the Exchange determines that a regulatory halt is appropriate for the maintenance of fair and orderly markets, the protection of investors, or otherwise in the public interest, as described below. Like reverse stock splits, these corporate actions all involve non-discretionary changes to core security characteristics that require synchronized updates across Exchange and market-participant systems.

Accordingly, the Exchange proposes to amend Rule 7.18 and make certain conforming changes to incorporate such corporate actions into the regulatory framework established for corporate actions consisting of reverse stock splits, as follows.

The Exchange proposes to amend Rule 7.18(b)(1)(A)(iii) to extend the current reverse stock split regulatory halt framework to the categories of other corporate actions discussed above that, in addition to reverse stock splits, would be subject to the mandatory regulatory requirements of that rule. The Exchange accordingly proposes to delete the current text of Rule 7.18(b)(1)(A)(iii)

and replace it with revised text stating that the Exchange will declare a Regulatory Halt:

for a security for which the Exchange is the Primary Listing Market that is the subject of an issuer corporate action or other issuer-related event referenced below after the end of post-market trading on other markets and before 9:00 p.m. ET on the day immediately preceding the market effective date of such issuer corporate action or issuer-related event (“Corporate Action Halt”). A security subject to an issuer corporate action or issuer event-related Regulatory Halt pursuant to this rule will resume trading with a Trading Halt Auction after 9:30 a.m. ET on the market effective date of such corporate action or issuer-related event.

The Exchange proposes to further amend Rule 7.18(b)(1)(A)(iii) to provide that “[f]or purposes of this rule, the following shall be deemed corporate actions or issuer-related events subject to the mandatory Regulatory Halt provisions of this rule,” followed by the nine categories of corporate actions discussed above that would be subject to a mandatory regulatory halt under that provision. As proposed, the nine categories of enumerated corporate actions subject to a mandatory regulatory halt would consist of the following corporate actions: (1) trading symbol changes;¹³ (2) changes in CUSIP;¹⁴ (3) dividends equal to at least 25% of the Official Closing Price;¹⁵ (4) forward (and reverse) stock splits;¹⁶ (5)

¹³ As proposed, Rule 7.18(b)(1)(A)(iii)(1) would define changes to any “Trading Symbol” as “a change in the issuer’s trading symbol.”

¹⁴ As proposed, Rule 7.18(b)(1)(A)(iii)(2) would define changes in “CUSIP” as “[a] change in the issuer’s Committee on Uniform Securities Identification Procedures (“CUSIP”).”

¹⁵ As proposed, Rule 7.18(b)(1)(A)(iii)(3) would define “Dividend” transactions as “[s]tock dividends, whether payable in cash, stock, or another security of the issuer (or a subsidiary or other affiliate of the issuer), or any combination thereof, other than stock splits or similar adjustments described in paragraph (4), where the Exchange determines that such dividend has an aggregate value per share that is equal to at least 25% of the Official Closing Price of the affected security on the date immediately preceding the ex-date of such dividend; provided, however, that if no such Official Closing Price is available, the Exchange shall use the most recent available Official Closing Price for such shares (or other securities).”

¹⁶ As proposed, Rule 7.18(b)(1)(A)(iii)(4) would define “Forward, Reverse Stock Splits” as “[a]ny stock split or similar adjustment that affects the number of outstanding shares of an issuer or changes the relative equity ownership of holders of such shares, including any forward or reverse stock split, subdivision, reclassification, or combination of shares, or any similar transaction that has the effect of adjusting the number of outstanding shares or the relative equity ownership of holders, whether effected pursuant to a fixed or variable exchange ratio or otherwise, and whether occurring as a stand-alone action or in conjunction with any other corporate action or issuer-related event.”

de-SPAC transactions;¹⁷ (6) spin-off transactions;¹⁸ (7) security-type changes;¹⁹ (8) mergers/mandatory exchanges;²⁰ and (9) other corporate actions or issuer-related events not specifically enumerated in (1)–(8) above as more particularly described below.²¹

Specifically, proposed Rule 7.18(b)(1)(A)(iii)(9) would require the Exchange to declare a regulatory halt for any other corporate action or issuer-related event not enumerated in (1)–(8) above for which the Exchange determines, based on the totality of the circumstances and any information available to it, including without limitation information obtained from the issuer, that a regulatory halt is necessary or appropriate for the maintenance of fair and orderly markets, the protection of investors, or otherwise in the public interest.

This residual provision is designed to capture issuer-related corporate actions that, while not enumerated in Rule 7.18(b)(1)(A)(iii)(1)–(8), raise operational or market-integrity concerns comparable to those actions. Once the Exchange determines that such a corporate action warrants a Regulatory Halt based on its application of the

¹⁷ As proposed, Rule 7.18(b)(1)(A)(iii)(5) would define a “De-SPAC” transaction as “[a]ny De-SPAC transaction, as that term is defined in Item 1601(a) of Regulation S-K.”

¹⁸ As proposed, Rule 7.18(b)(1)(A)(iii)(6) would define a “Spin-off” transactions as “[a]ny transaction in which an issuer distributes to its security holders, on a pro rata basis, (i) equity securities of a subsidiary or other business that is separated into a new or existing standalone issuer; or (ii) any different class of securities.”

¹⁹ As proposed, Rule 7.18(b)(1)(A)(iii)(7) would define a “Security Type Change” as “[a]ny change in the form, type, class, or designation of a listed security, including, without limitation, (i) American Depositary Receipts or American Depositary Shares (“ADR”/“ADS”) to ordinary shares (and ordinary shares to ADR/ADS); (ii) conversions between ordinary shares and common stock (in either direction); and (iii) similar transactions.”

²⁰ As proposed, Rule 7.18(b)(1)(A)(iii)(8) would define a “Merger/Mandatory Exchange” as “[a]ny merger, consolidation, statutory share exchange, or similar business combination or corporate action that results in the affected security being mandatorily exchanged, converted, redeemed, or cancelled for cash, securities, or other consideration (including an exchange into securities of a successor issuer); provided, however, that this paragraph (8) does not include transactions that solely effect a change in the issuer’s (company) name without a mandatory exchange of the affected security.”

²¹ As proposed, Rule 7.18(b)(1)(A)(iii)(9) would define any “Other Corporate Action or Issuer-Related Event” as “[a]ny other corporate action or issuer-related event not enumerated in (1)–(8) above for which the Exchange determines, based on the totality of the circumstances and any information available to it, including without limitation information obtained from the issuer, that a Regulatory Halt is necessary or appropriate for the maintenance of fair and orderly markets, the protection of investors, or otherwise in the public interest.”

¹² The term “Official Closing Price” is defined in Rule 1.1(u).

standards in Rule 7.18(b)(1)(A)(iii)(9), implementation of the regulatory halt would be required.²² Accordingly, the provision is intended to promote consistent regulatory treatment across comparable corporate actions and to preserve transparency and uniformity in the application of the proposed framework in a 23/5 Trading environment.

Timing of Corporate Action Regulatory Halts

The Exchange proposes that under 23/5 Trading, the mandatory regulatory halts described above in proposed Rule 7.18(b)(1)(A)(iii) would be implemented after the conclusion of post-market trading on other markets and before the start of overnight trading on other markets at 9:00 p.m. ET. This timing differs from the Exchange's current process for reverse stock split regulatory halts, pursuant to which the Exchange implements the mandatory regulatory halt at 7:50 p.m. ET, before the end of post-market trading on other markets, on the day immediately before the reverse split becomes effective. That approach has been feasible in the reverse stock split context, but this proposal would extend the mandatory regulatory halt framework beyond reverse stock splits to a broader set of corporate actions that, although differing in form, share the need for coordinated systems and reference-data updates before trading may resume in an orderly manner. Because some of those actions may involve entirely new symbols or CUSIPs that would not yet exist at 7:50 p.m. ET on the prior trading day, the Exchange does not believe that the current reverse stock split timing can practicably be applied across the full set of covered corporate actions. The Exchange therefore believes it is reasonable, in the context of 23/5 Trading, to adopt a single, uniform implementation time for all halts under proposed Rule 7.18(b)(1)(A)(iii)—after the end of post-market trading on other markets and before overnight trading begins on other markets at 9:00 p.m. ET—which would facilitate consistent treatment of covered corporate actions and enable the halts to be implemented through an automated process.²³ This

timing would apply to each of the corporate actions addressed in this filing, as well as to the Exchange's existing reverse stock split regulatory halt. The proposed change to the timing for the implementation of the reverse stock split regulatory halt is therefore conforming in nature, as it is intended only to align that halt with the trading session structure under 23/5 Trading.

Resumption of Trading After Corporate Action-Related Regulatory Halts

The Exchange proposes to amend Rule 7.18(b)(5)(B)(iii) to provide that under 23/5 Trading, trading in a security halted pursuant to proposed Rule 7.18(b)(1)(A)(iii) would resume “with a Trading Halt Auction after 9:30 a.m. ET on the market effective date of such corporate action or issuer-related event.”²⁴ This is identical to the Exchange's current process with respect to reverse stock split regulatory halts, where the Exchange resumes trading with a Trading Halt Auction after 9:30 a.m. ET on the effective date of the reverse stock split. This proposal is designed to promote uniformity and transparency with respect to the resumption of trading in securities subject to a corporate actions-related regulatory halt under proposed Rule 7.18(b)(1)(A)(iii).

In sum, the corporate actions addressed in this proposal raise operational and market integrity concerns in a 23/5 Trading environment that mirror the concerns addressed by the Commission in approving the Exchange's Reverse Stock Split Proposal. Under 23/5 Trading, the Exchange will no longer have a substantial non-trading window during which it and other market participants can process these corporate actions before trading resumes. With only one hour between trading days, neither the

notification, market notice, and public dissemination mechanisms. Under the Exchange's existing listing and related rules and/or procedures, listed issuers are required in various circumstances to provide the Exchange advance notice of corporate actions and to publicly disclose such events before they become effective. In addition, the Exchange's established corporate action processing and market notification procedures generally result in the Exchange receiving notice of, and disseminating information concerning, other covered corporate actions sufficiently in advance of their effectiveness to support the orderly implementation of the proposed halt process. Accordingly, the Exchange believes that ATSS and other market participants would have adequate advance awareness of the types of corporate actions addressed by this proposal to make informed business decisions with respect to the affected securities, and that proposed Rule 7.18(b)(1)(A)(iii) thus provides a transparent and appropriate mechanism for addressing such corporate actions in a 23/5 Trading environment.

²⁴ See proposed Rule 7.18(b)(5)(B)(iii).

Exchange nor other market participants would have sufficient time to process and incorporate corporate action-related information, resulting in a risk of price dislocations, investor confusion, erroneous executions, and broader operational issues. The Exchange believes that extending its reverse stock split regulatory framework to the additional corporate actions described herein would appropriately preserve, in a 23/5 Trading environment, the safeguard implicit in the current market structure—specifically, the overnight pause in trading that allows for coordinated processing and related systems and reference-data updates. Accordingly, the proposal would promote fair and orderly trading, mitigate operational risk, and help ensure that trading resumes only after those updates have been completed.

Implementation

The Exchange understands that the other Primary Listing Exchanges plan to implement substantially identical versions of this rule to ensure consistent treatment of corporate actions across the market. The Exchange proposes that the changes in this proposal and in the other Primary Listing Exchanges' similar filings would become operative at the commencement of 23/5 Trading.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,²⁵ in general, and furthers the objectives of Section 6(b)(5) of the Act,²⁶ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest. The Exchange believes that the proposed rules will provide greater transparency and clarity with respect to the situations in which trading will be halted due to certain corporate actions and the process through which that halt will be implemented and terminated, as discussed below.

The Exchange believes that extending the reverse stock split regulatory halt framework to the additional, analogous corporate actions addressed in this proposal would promote free and open trade, protect investors, and serve the public interest by helping to ensure fair and orderly markets. Specifically, the proposal would preserve and apply an established, transparent framework for pausing and resuming trading in

²² Such determination would be made by the Exchange's senior trading and regulatory officials in advance of the corporate action effective date.

²³ See Exchange proposed Rule 7.18(b)(1)(A)(iii). Shifting the implementation time for such regulatory halts from 7:50 p.m. to before 9:00 p.m. would not have a material effect on market participants. The Exchange notes that market participants, including alternative trading systems (“ATSS”), would have advance notice of the types of issuer corporate actions addressed in this proposal through the Exchange's existing issuer

²⁵ 15 U.S.C. 78f(b).

²⁶ 15 U.S.C. 78f(b)(5).

securities subject to reverse stock splits to certain corporate actions with analogous processing requirements, so that trading in an affected security does not occur before the corporate action has been processed and the related systems and reference-data updates have been completed and applied across the market.

With respect to the specific categories of corporate actions addressed in this proposal, the Exchange believes that it is reasonable and appropriate to extend the regulatory halt framework applicable to reverse stock splits to certain categories of corporate actions with analogous processing requirements, as more specifically described above. Like reverse stock splits, these corporate actions all involve non-discretionary changes to core security characteristics that require synchronized updates across Exchange and market-participant systems.

Under the current market structure, an overnight pause in trading has historically provided a defined non-trading window during which the Exchange and other market participants have sufficient time to process such corporate actions in an orderly and coordinated manner prior to the resumption of trading. But in the 23/5 Trading environment, with only one hour of non-trading time between trading days, there is a substantial chance that trading in an impacted security could occur based on incomplete, inconsistent, or partially updated information, giving rise to pricing anomalies, investor confusion, erroneous executions, and heightened operational risk. The Exchange believes the proposed approach promotes fair and orderly markets by helping to ensure that trading resumes only once systems and reference data concerning these corporate actions have been fully and consistently updated across the marketplace.

With respect to the mandatory regulatory halts specifically enumerated in proposed Rule 7.18(b)(1)(A)(iii)(1)–(8), if the corporate action falls within the categories enumerated in the rule, the Exchange will not have discretion about whether to declare a trading halt in the affected security.

In addition, proposed Rule 7.18(b)(1)(A)(iii)(9) is intended to operate as a residual provision covering issuer-related corporate actions not enumerated in Rule 7.18(b)(1)(A)(iii)(1)–(8) that nonetheless raise operational or market-integrity concerns comparable to those presented by the enumerated actions. Under that provision, when the Exchange determines, based on the totality of the circumstances and the

information available to it, including information obtained from the issuer, that it is necessary or appropriate for the maintenance of fair and orderly markets, the protection of investors, or otherwise in the public interest, it would be required to declare a regulatory halt in that security. Once the Exchange makes that determination, the regulatory halt would be mandatory, thereby avoiding ad hoc treatment once the applicable standard has been met. In that respect, proposed Rule 7.18(b)(1)(A)(iii)(9) serves as a narrow residual mechanism designed to promote consistent regulatory treatment across comparable corporate actions and to preserve transparency and uniformity in the application of proposed Rule 7.18(b)(1)(A)(iii) in a 23/5 Trading environment by requiring the Exchange to declare a regulatory halt in such cases. The Exchange therefore believes that it is reasonable and appropriate to extend its authority to declare a regulatory halt in this instance.

In all cases under proposed Rule 7.18(b)(1)(A)(iii), a mandatory regulatory halt in the affected security would be implemented after the conclusion of post-market trading on other markets and before the start of overnight trading on other markets at 9:00 p.m. ET on the date immediately preceding the market-effective date of the corporate action.

The Exchange also believes it is reasonable and appropriate to use a Trading Halt Auction under Rule 7.35 to re-open trading in a security that is subject to a regulatory halt pursuant to this proposal because it is consistent with the process that the Exchange currently uses to re-open a security after a reverse stock split regulatory halt, and the operational complexity and processing demands associated with such corporate actions are comparable to those involved regarding reverse stock splits. Furthermore, using a Trading Halt Auction to re-open trading after the regulatory halts addressed in this proposal is consistent with the process that is typically used by the Exchange when re-opening a security that has been halted under Rule 7.18. Applying a uniform, previously approved framework enhances transparency and predictability for issuers, investors, and market participants.

The Exchange's proposal to make conforming changes to its existing reverse stock split regulatory halt structure to harmonize the halt time with the time proposed in this filing is reasonable and would promote transparency and predictability for issuers, investors, and market

participants. As described above, the current practice of implementing a mandatory regulatory halt for a security undergoing a reverse stock split at 7:50 p.m. ET has been feasible in the reverse stock split context, but this proposal would extend the mandatory regulatory halt framework beyond reverse stock splits to a broader set of corporate actions that, although differing in form, share the need for coordinated systems and reference-data updates before trading may resume in an orderly manner. Because some of those actions may involve entirely new symbols or CUSIPs that would not yet exist at 7:50 p.m. ET on the prior trading day, the Exchange does not believe that the current reverse stock split timing can practicably be applied across the full set of covered corporate actions. The Exchange therefore believes it is reasonable, in the context of 23/5 Trading, to adopt a single, uniform implementation time for all halts under proposed Rule 7.18(b)(1)(A)(iii)—after the end of post-market trading on other markets and before overnight trading begins on other markets at 9:00 p.m. ET—which would facilitate consistent treatment of comparable corporate actions, enhance transparency and predictability for issuers, investors, and market participants, and support the orderly and automated implementation of such halts. The Exchange also believes that the proposal is consistent with Section 6(b)(5) of the Act because the Exchange's existing issuer notification, market notice, and public dissemination mechanisms generally provide market participants with advance awareness of the types of corporate actions addressed herein, thereby supporting the orderly implementation of the proposed halt process and helping to protect investors and the public interest.

The Exchange believes that resuming trading in the corporate action-impacted securities addressed in this proposal with a Trading Halt Auction after 9:30 a.m. ET, just as it currently does for reverse stock split halts, would remove impediments to and perfect the mechanism of a free and open market and a national market system by creating uniformity and transparency with respect to the re-opening times for securities subject to a corporate actions-related regulatory halt under proposed Rule 7.18(b)(1)(A)(iii).

The Exchange notes that these timing harmonization changes are purely conforming and that, by aligning the reverse stock split provisions with the corporate action-related halts described in this filing, the proposal promotes a consistent and harmonized rule

structure, enhances transparency and predictability for issuers, investors, and market participants, and reduces the potential for confusion.

Overall, establishing mandatory trading halts for securities that are subject to the corporate actions addressed in this filing and resuming trading thereafter promotes fair and orderly markets and the protection of investors, because it allows the Exchange to protect the broader interests of the national market system and addresses potential concerns that system errors may affect immediate trading in those securities. The Exchange believes that with the advent of 23/5 Trading, the proposed rules will help the Exchange reduce the potential for errors resulting in a material effect on the market resulting from the challenge of processing such corporate actions with only a one-hour non-trading window between trading days. As discussed above, in a 23/5 Trading environment, overnight trading on other markets will begin only one hour after trading closes on the Exchange, meaning that there will no longer be a substantial overnight period during which the Exchange can process corporate actions of the type addressed in this proposal. By extending the existing reverse stock split regulatory halt framework to those categories of corporate actions, the proposal is designed to preserve the safeguards currently afforded by that overnight pause.

For these reasons, the Exchange believes that the proposed rule change is designed to remove impediments to and perfect the mechanism of a free and open market and a national market system by mitigating operational and market integrity risks that would otherwise arise in a nearly continuous trading environment. By helping to ensure that trading resumes only after corporate action processing has been completed in an orderly and coordinated manner, the proposed rule change promotes just and equitable principles of trade and protects investors and the public interest, consistent with Sections 6(b) and 6(b)(5) of the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes the proposal will not impose a burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because the proposed rule change is designed to protect investors and facilitate a fair and orderly market, which are both important purposes of the Act. To the extent that there is any impact on

intermarket competition, it is incidental to these objectives.

Rather, the proposed changes will promote competition by ensuring that trading in corporate action-affected securities resumes only when the Exchange has processed corporate actions in a coordinated manner across Exchange and market participants' systems, consistent with its obligations as a Primary Listing Market, thereby avoiding concurrent trading and potential confusion with respect to the affected securities while such corporate action processing is underway. In addition, the Exchange believes that the proposal does not impose any burden on competition because it applies equally to all issuers and market participants. The proposal builds on an established, uniform, and transparent framework governing the timing of trading halts and resumptions in trading in connection with certain corporate actions and is designed to address operational and market-integrity concerns, rather than competitive considerations. In substance, the proposal preserves an operational safeguard implicit in the current market structure and adapts that safeguard to a nearly continuous trading environment by extending the well-established reverse stock split framework to analogous corporate actions. By helping to ensure that trading resumes only after systems and reference data have been updated in a coordinated manner, the proposal promotes fair and orderly markets and enhances, rather than burdens, competition.

The Exchange does not believe that the proposed rule change imposes a burden on intra-market competition because the provisions apply to all market participants and issuers equally. In addition, information regarding the halting and resumption of trading will be disseminated using several freely accessible sources to ensure the widespread availability of that information.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become

operative for 30 days after the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act²⁷ and subparagraph (f)(6) of Rule 19b-4 thereunder.²⁸

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)²⁹ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-NYSE-2026-41 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.
- All submissions should refer to file number SR-NYSE-2026-41. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should

²⁷ 15 U.S.C. 78s(b)(3)(A)(iii).

²⁸ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

²⁹ 15 U.S.C. 78s(b)(2)(B).

submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-NYSE-2026-41 and should be submitted on or before October 9, 2026.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.³⁰

Sherry R. Haywood,
Assistant Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-106384; File No. SR-CboeEDGX-2026-057]

Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Exchange Rules 11.1, 11.6, 11.7, and 11.8 To Add a New Time-in-Force Designation Known as “Regular ‘til Post Market”

September 15, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on September 9, 2026, Cboe EDGX Exchange, Inc. (the “Exchange” or “EDGX”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

Cboe EDGX Exchange, Inc. (“EDGX” or the “Exchange”) proposes to amend Exchange Rules 11.1, 11.6, 11.7, and 11.8 to add a new Time-in-Force (“TIF”) designation known as “Regular ‘til Post Market” (“RTP”). The Exchange also proposes to amend Rule 11.8(c) and Rule 11.8(d) to include references to “Regular Hours Only” (“RHO”) where it has been erroneously excluded from certain rule text. The Exchange has designated the proposed rule change as noncontroversial and provided the

Commission with the notice required by Rule 19b-4(f)(6)(iii) under the Act.³ The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Commission’s website (<https://www.sec.gov/rules/sro.shtml>), the Exchange’s website (https://www.cboe.com/us/equities/regulation/rule_filings/edgx/), and at the principal office of the Exchange.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule 11.6(q) (“Time-in-Force”) to add a new TIF designation known as “Regular ‘til Post Market” or “RTP.” As proposed, an RTP order would be a limit order designated for execution during both Regular Trading Hours⁴ and the Post-Closing Session,⁵ with any unexecuted portion expiring at the end of the Post-Closing Session. In connection with the introduction of the RTP TIF, the Exchange also proposes conforming amendments to Rules 11.1, 11.7, and 11.8 to reflect the availability of the RTP TIF across the Exchange’s order handling, order type, and opening process rules.

Currently, Rule 11.6(q) provides Users⁶ with the following TIF options

³ 17 CFR 240.19b-4(f)(6)(iii).

⁴ See Exchange Rule 1.5(y). The term “Regular Trading Hours” means the time between 9:30 a.m. and 4:00 p.m. Eastern Time.

⁵ See Exchange Rule 1.5(r). The Post-Closing Session on EDGX means the time between 4:00 p.m. and 8:00 p.m. Eastern Time.

⁶ See Exchange Rule 1.5(ee). “User” is defined as “any Member or Sponsored Participant who is authorized to obtain access to the System pursuant to Rule 11.3.” The “System” is “the electronic communications and trading facility designated by the Board through which securities orders of Users are consolidated for ranking, execution and, when applicable, routing away.” See Exchange Rule 1.5(cc). The term “Member” means any registered broker or dealer that has been admitted to

membership in the Exchange. See Exchange Rule 1.5(n).

for order entry.⁷ An “Immediate-or-Cancel” (“IOC”) order⁸ is an instruction the User may attach to an order stating the order is to be executed in whole or in part as soon as such order is received. Any unexecuted portion of an IOC order is cancelled. A “Day” order⁹ is an instruction the User may attach to an order stating that an order to buy or sell which, if not executed, expires at the end of Regular Trading Hours. A “Fill-or-Kill” (“FOK”) order¹⁰ is an instruction the User may attach to an order stating that the order is to be executed in its entirety as soon as it is received and, if not so executed, cancelled. A “Good ‘til Day” (“GTD”) order¹¹ is an instruction the User may attach to an order specifying the time of day at which the order expires. Any unexecuted portion of an order with a TIF instruction of GTD will be cancelled at the expiration of the User’s specified time, which can be no later than the close of the Post-Closing Session. A “Good ‘til Extended Day” (“GTX”) order¹² is an instruction the User may attach to an order to buy or sell which, if not executed, will be cancelled by the close of the Post-Closing Session. A “Regular Hours Only” (“RHO”) order¹³ is an instruction a User may attach to an order designating it for execution only during Regular Trading Hours, which includes the Opening Process and Re-Opening Process¹⁴ following a halt suspension or pause. A “Pre-Opening Session Plus” (“PRE”) order¹⁵ is a limit order designated for execution during the Pre-Opening Session¹⁶ and Regular Trading Hours. Any portion not executed expires at the end of Regular Trading Hours. A “Pre-Opening Session ‘til Extended Day” (“PTX”) order¹⁷ is a limit order designated for execution during the Pre-Opening Session, Regular Trading Hours, and the Post-Closing Session. Any portion not executed expires at the end of the Post-Closing Session. A “Pre-Opening Session ‘til Day” (“PTD”) order¹⁸ is a limit order designated for execution during the Pre-Opening Session, Regular Trading

membership in the Exchange. See Exchange Rule 1.5(n).

⁷ See Exchange Rule 11.6(q).

⁸ See Exchange Rule 11.6(q)(1).

⁹ See Exchange Rule 11.6(q)(2).
