Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

l. *Description of Request:* Due to unusually low precipitation and river flow, the licensee proposes to temporarily amend the minimum flow requirements at the Comerford Development to preserve the depleted storage capacity of its upstream Moore reservoir, which may prevent future flow reductions if conditions worsen. With the proposed modification to operations at the Comerford Development, the minimum flow would be decreased from 818 cubic feet per second (cfs), if before October 1, or from 1,145 cfs, if on or after October 1, to 600 cfs, from the date when the Moore reservoir drops two feet below its historic minimum operating level and upstream flow forecasts are below the required minimum flow, through December 31, 2026. The licensee would increase flows from the Comerford Development to 1,145 cfs prior to December 31, 2026, should natural stream flow increase the elevation of Moore reservoir to 805 feet mean sea level. The licensee is also proposing to modify the way inflow is measured at the McIndoes development while minimum flow from Comerford is reduced by holding the McIndoes reservoir elevation constant during the reduced flow period. This method would not change or affect flows below the McIndoes development.

m. *Locations of the Application:* This filing may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/>

n. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

o. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214, respectively. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding.
