[Investigation Nos. 701–TA–653 and 731–TA–1527 (Review)]

### Standard Steel Welded Wire Mesh From Mexico; Determinations

On the basis of the record <sup>1</sup> developed in the subject five-year reviews, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that revocation of the antidumping and countervailing duty orders on standard steel welded wire mesh from Mexico would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.<sup>2</sup>

### Background

The Commission instituted these reviews on March 2, 2026 (91 FR 10136) and determined on June 5, 2026, that it would conduct expedited reviews (91 FR 39632, June 30, 2026).<sup>3</sup>

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on September 21, 2026. The views of the Commission are contained in USITC Publication 5791

<sup>1</sup> The record is defined in § 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).

<sup>2</sup> Chairman Brett W. Doyle and Commissioners Jason E. Kearns, Peter-Anthony Pappas, Bart Thanhauser, and David Foley Jr. voted in the affirmative. Commissioner Samuel T. Negatu did not participate.

<sup>3</sup> Commissioners David S. Johanson, Jason E. Kearns, and Amy A. Karpel concluded that the domestic interested party group responses were adequate, the respondent interested party group responses were inadequate, and there were no other circumstances that would warrant conducting full reviews. Chairman Brett W. Doyle and Commissioners Peter-Anthony Pappas, Bart Thanhauser, David Foley Jr., and Samuel T. Negatu, who were not yet members of the Commission, did not participate in the adequacy votes.
