Abstract of Information Available

A total of 40 lots of cultural items have been requested for repatriation. The 40 lots of unassociated funerary objects are lithic material, ground stone, ceramics, charcoal, soil samples, shell, faunal material, and historic material. These items have been identified as cultural items under NAGPRA based on tribal consultations, previous NAGPRA summaries from other museums, and historical records of the excavations. The items were collected in Minnesota, Yellow Medicine County, by the Anthropology Department of the University of Minnesota in the 1940's. Additionally, some of the items were donated to the University in 1970 by a local collector. The University of Minnesota records indicate no known hazardous substances.

Determinations

The University of Minnesota has determined that:

- The 40 lots of unassociated funerary objects described in this notice are reasonably believed to have been placed intentionally with or near human remains, and are connected, either at the time of death or later as part of the death rite or ceremony of a Native American culture according to the Native American traditional knowledge of a lineal descendant, Indian Tribe, or Native Hawaiian organization. The unassociated funerary objects have been identified by a preponderance of the evidence as related to human remains, specific individuals, or families, or removed from a specific burial site or burial area of an individual or individuals with cultural affiliation to an Indian Tribe or Native Hawaiian organization.

- There is a connection between the cultural items described in this notice and the Upper Sioux Community, Minnesota.

Requests for Repatriation

Additional, written requests for repatriation of the cultural items in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by

a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.
