

Respondents/affected entities: Semiconductor manufacturing facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart BBBBBB).

Estimated number of respondents: One (total).

Frequency of response: Initially, semiannually.

Total estimated burden: 41 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$6,220 (per year), which includes \$550 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in burden from the most recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Second, the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup or operation and maintenance (O&M) costs.

Deputy Director, Data and Enterprise Programs Division.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; EPA Program Information on Source Water Protection (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), EPA Program Information on Source Water Protection (EPA ICR Number 1816.09, OMB Control Number 2040-0197) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently

approved through September 30, 2026. Public comments were previously requested via the **Federal Register** on July 9, 2026, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before October 26, 2026.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OW-2026-4852 to EPA online using www.regulations.gov (our preferred method), by email to OW-Docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through September 30, 2026. An agency may not conduct, or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on July 9, 2026 during a 60-day comment period (91 FR 42440). This notice allows an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West,

Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: EPA is collecting data from the states on their advancement toward substantial implementation of source water protection strategies for all community water systems (CWSs). EPA and states use this voluntary collection of data to track and understand the progress toward increasing the percentage of CWSs (and the populations they serve) where risk is minimized through source water protection. Source water protection data that states submit directly to the Safe Drinking Water Information System is accessible to the public via EPA's website at: <https://www.epa.gov/ground-water-and-drinking-water/safe-drinking-water-information-system-sdwis-federal-reporting>. Availability of this information, together with source water and demographic indicators that are publicly available via EPA's Drinking Water Mapping Application to Protect Source Waters on EPA's website at: <https://www.epa.gov/sourcewaterprotection/drinking-water-mapping-application-protect-source-waters-dwmaps>, empowers communities to include these considerations in their own analyses and outreach efforts.

Form Numbers: None.

Respondents/affected entities: 51.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 51 (total).

Frequency of response: Annual.

Total estimated burden: 102 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$6,608 (per year), which includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is decrease of 186 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is anticipated because all states will report source water protection data directly to the Safe Drinking Water Information System, decreasing the previous burden of reporting information to EPA Regional contacts via email. Additionally, state databases are fully developed and tracking is routine,

which EPA expects will minimize hourly burden and cost for states.

SUPPLEMENTARY INFORMATION:

Proposal to renew the following currently approved collection of information:

1. **Title:** Summary of Deposits.
OMB Number: 3064–0061.
Affected Public: FDIC-insured depository institutions.
Burden Estimate:

SUMMARY OF ESTIMATED ANNUAL BURDEN

[OMB No. 3064–0061]

Information collection (IC) (obligation to respond)	Type of burden (frequency of response)	Number of respondents	Number of responses per respondent	Average time per response (HH:MM)	Annual burden (hours)
1. Summary of Deposits, 12 CFR 304.3(c) (Mandatory)	Reporting (Annual)	3,651	1	03:00	10,953
Total Annual Burden (Hours)					10,953

Source: FDIC.

General Description of Collection: The Summary of Deposits (SOD) is the annual survey of branch office deposits as of June 30 for all FDIC-insured institutions, including insured U.S. branches of foreign banks. All FDIC-insured institutions that operate a main office and one or more branch locations (including limited service drive-thru locations) as of June 30 each year are required to file the SOD Survey. Insured branches of foreign banks are also required to file. All data collected on the SOD submission are available to the public. The survey data provides a basis for measuring the competitive impact of bank mergers and has additional use in research on banking. There is no change in the substance or methodology of this information collection. The change in burden is due solely to a decrease of 657 in the estimated number of respondents, from 11,610 annual respondents in the currently approved information collection to the current estimate of 10,953.

Request for Comment

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the FDIC’s functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
