Comments

A 60-day Notice requesting public comment on this information collection was published in the **Federal Register** on July 20, 2026, at 91 FR 45267. The comment period ended September 18, 2026. Three comments were received in response to that notice. All three expressed support of PVSA generally and two expressly stated their strong support of the proposal to renew the information collection. One stated that the 20-minute requirement represents the minimum administrative input necessary to collect verifiable volunteer hours and represents an efficient and well-calibrated requirement to give certifying entities sufficient structure to log and confirm service hours. Another stated their support for renewing the current information collection without creating additional administrative burdens and while continuing to modernize the program through online tools to improve the experience for participating organizations. In response, AmeriCorps is continuing to review how online tools could be employed. The third commenter encouraged the Agency to consider several renovations to the PVSA program overall, which the Agency will consider and will account for any implications on the information collection that may result.
