Comments

A 60-day Notice requesting public comment on this information collection was published in the **Federal Register** on July 20, 2026, at 91 FR 45267. The comment period ended September 18, 2026. Three comments were received in response to that notice. All three expressed support of PVSA generally and two expressly stated their strong support of the proposal to renew the information collection. One stated that the 20-minute requirement represents the minimum administrative input necessary to collect verifiable volunteer hours and represents an efficient and well-calibrated requirement to give certifying entities sufficient structure to log and confirm service hours. Another stated their support for renewing the current information collection without creating additional administrative burdens and while continuing to modernize the program through online tools to improve the experience for participating organizations. In response, AmeriCorps is continuing to review how online tools could be employed. The third commenter encouraged the Agency to consider several renovations to the PVSA program overall, which the Agency will consider and will account for any implications on the information collection that may result.

Title; Associated Form; and OMB Number: Post-Election Voting Survey of State Election Officials; OMB Control Number 0704-0643.

Needs and Uses: The primary objective of the Post-Election Voting Survey of State Election Officials, conducted on behalf of the Federal Voting Assistance Program (FVAP), is to gather feedback from the State Election

This customer service focused survey will help FVAP understand how it can best engage election officials and identify areas where its processes can be improved. This ongoing evaluation will help determine the extent to which FVAP is achieving its mission and what actions FVAP might be able to take in the future to improve its products and services. Conducting this research will help FVAP meet its federal and congressional mandates in terms of ensuring that UOCAVA voters are receiving adequate support from state officials in the registration and voting process for federal elections. The data obtained through this study is also intended to provide insights into existing barriers to UOCAVA voting and recommendations for addressing these challenges. To obtain the necessary information, the Post-Election Voting Survey of State Election Officials project will use data collected from the population of SEOs from all 50 U.S. States, the District of Columbia, and the four U.S. territories covered under UOCAVA: Puerto Rico, Guam, American Samoa, and the U.S. Virgin Islands.
