BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Reporting Requirements for Sea Otter Interactions With Coastal Pelagic Species Fisheries; Coastal Pelagic Species Fishery Management Plan

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on May 7, 2026, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: Reporting Requirements for Sea Otter Interactions with the Pacific Sardine Fishery; Coastal Pelagic Species Fishery Management Plan.

OMB Control Number: 0648–0566.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: Two respondents.

Average Hours per Response: 0.25 (15 minutes).

Total Annual Burden Hours: Roughly 1 hour.

Needs and Uses: This is a request for renewal of an approved information collection. This collection is necessary under the regulations implementing the Coastal Pelagic Species (CPS) Fishery Management Plan (FMP) at 50 CFR 660.520.

On May 30, 2007, NOAA's National Marine Fisheries Service (NMFS) published a final rule (72 FR 29891) implementing a requirement under the CPS FMP to report any interactions that may occur between a CPS vessel and/or fishing gear and sea otters. In accordance with the regulations implementing the Endangered Species Act (ESA), NMFS initiated an ESA section 7 consultation with the United States Fish and Wildlife Service (USFWS) regarding the effects of implementing the final rule (72 FR 29891), which codified Amendment 11 to the CPS FMP. USFWS determined that formal consultation was necessary on the possible effects to the threatened southern sea otter. USFWS completed a biological opinion for this action and although it was concluded that fishing activities were not likely to jeopardize the continued existence of the southern sea otter, there remained the potential to incidentally take southern sea otters. USFWS determined that certain measures should be put in place to ensure the continued protection of the species, including certain reporting requirements.

Specifically, these reporting requirements are:

(1) If a southern sea otter is entangled in a net, regardless of whether the animal is injured or killed, the vessel operator must report this interaction within 24 hours to the Regional Administrator.

(2) While fishing for CPS, vessel operators must record all observations of otter interactions (defined as otters within encircled nets or coming into contact with nets or vessels, including but not limited to entanglement) with their purse seine net(s) or vessel(s). With the exception of an entanglement, which must be initially reported as described in paragraph (1) of this section, all other observations must be reported within 20 days to the Regional Administrator.

(3) When contacting NMFS after an interaction, vessel operators must provide the location (latitude and longitude) of the interaction and a description of the interaction itself. If available, location information should also include water depth, distance from shore, and relation to port or other landmarks. Descriptive information of the interaction should include whether or not the otters were seen inside or

outside the net; if inside the net, had the net been completely encircled; whether any otters came in contact with either the net or the vessel; the number of otters present; duration of interaction; the otter's behavior during interaction; measures taken to avoid interaction.

Affected Public: Business or other for-profit organizations.

Frequency: As necessary.

Respondent's Obligation: Mandatory.

Legal Authority: 50 CFR 660.520; MSA.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0566.

Sheleen Dumas,

Departmental PRA Compliance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–22–P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC–2009–0092]

Agency Information Collection Activities; Extension of Collection; Standard for the Flammability of Clothing Textiles, 16 CFR Part 1610; Standard for the Flammability of Vinyl Plastic Film, 16 CFR Part 1611

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of information collection; request for comment.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (PRA), the Consumer Product Safety Commission (CPSC or Commission) announces that the Commission has submitted to the Office of Management and Budget (OMB) a request for extension of approval of information collection requirements associated with the Standard for the Flammability of Clothing Textiles and the Standard for the Flammability of Vinyl Plastic Film. OMB previously approved the

collection of information under control number 3041–0024. OMB's most recent extension of approval will expire on October 31, 2026. On June 25, 2026, CPSC published a notice in the **Federal Register** to announce the agency's intention to seek extension of approval of the collection of information. The Commission did not receive any public comments. By publication of this notice, the Commission announces that CPSC has submitted to OMB a request for extension of approval of that collection of information.

DATES: Submit comments on the collection of information by October 28, 2026.

ADDRESSES: Submit comments about this request by email: OIRA_submission@omb.eop.gov or fax: 202–395–3888. Comments by mail should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the CPSC, Office of Management and Budget, Room 10235, 725 17th Street NW, Washington, DC 20503. Written comments that are sent to OMB also should be submitted electronically at <http://www.regulations.gov>, under Docket No. CPSC–2009–0092.

FOR FURTHER INFORMATION CONTACT: Cynthia Gillham, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; (301) 504–7791, or by email to: pra@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Standard for the Flammability of Clothing Textiles, 16 CFR part 1610; Standard for the Flammability of Vinyl Plastic Film, 16 CFR part 1611.

OMB Number: 3041–0024.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers and importers of clothing and fabrics intended for use in clothing, as well as manufacturers and importers of clothing made from vinyl plastic film and vinyl plastic film intended for use in clothing. This also includes downstream distributors and retailers who handle, sell, or further distribute these products, as they may be impacted by recordkeeping requirements and guaranty provisions under the applicable standards.

General Description of Collection: The Safety Standard for Flammability of Clothing Textiles (16 CFR part 1610) addresses the danger of injury and loss of life by prohibiting dangerously flammable textiles and textile products for clothing use from being distributed in United States commerce. The

standard includes methods of testing the flammability of clothing and textiles intended to be used for clothing, establishes three classes of flammability, sets forth the requirements which textiles shall meet to be classified, and warns against the use of those textiles which have burning characteristics unsuitable for clothing.

The Standard for the Flammability of Vinyl Plastic Film (16 CFR part 1611) provides a minimum standard for the flammability of vinyl plastic film for use in wearing apparel. The material covered by the standard is nonrigid, unsupported, vinyl plastic film, including transparent, translucent, and opaque material that is plain, embossed, molded, or otherwise surface treated. This standard prescribes a test to ensure that articles of wearing apparel, and fabrics and film intended for use in wearing apparel, are not dangerously flammable because of rapid and intense burning.

Section 8 of the Flammable Fabrics Act (FFA), 15 U.S.C. 1197, provides that a person who receives a guaranty in good faith that a product complies with an applicable flammability standard is not subject to criminal prosecution for a violation of the FFA resulting from the sale of any product covered by the guaranty. Section 8 of the FFA requires that a guaranty must be based on “reasonable and representative tests.” For both standards, recordkeeping requirements for firms that issue original and continuing guaranties include maintaining records of tests to support the issuance of guaranties and records of any received guaranties for three years, as set forth in 16 CFR 1610.38 and 16 CFR 1611.38. To file a continuing guaranty with the Commission, firms may submit a CPSC form with the Office of the Secretary.¹

In addition, CPSC requires manufacturers and importers of general-use products for which consumer product safety rules apply, such as adult wearing apparel, to certify, in a written General Certificate of Conformity (GCC), also based on testing or a reasonable testing program and supported by the test records, that the products comply with 16 CFR parts 1610 and 1611. The majority of GCC burden is captured in OMB control number 3041–0203, Revisions to 16 CFR part 1110, and the remainder is assumed to be negligible (approaching zero) because it is

essentially similar to issuing a guaratee.

Manufacturers and importers of children's wearing apparel, subject to 16 CFR parts 1610 and 1611, must certify in a children's product certificate (CPC) that the product complies with the applicable standards based on testing by a CPSC-accredited third party conformity assessment body. CPC burden is accounted for under OMB control number 3041–0159, Third Party Testing of Children's Products.

Both standards also include a documentation requirement for shipment of wearing apparel or textile fabrics to be treated to reduce their flammability in accordance with the applicable standards. In addition, importers of such shipments must maintain proof of treatment, provide affidavits to U.S. Customs and Border Protection, and, if required, furnish a performance bond to ensure compliance. CPSC assumes that fewer than 10 shipments for the purpose of finishing or processing are received to the United States annually because finishing treatments are typically conducted abroad. Therefore, there is no burden estimate for such shipments.

Estimated Number of Respondents: CPSC estimates 10,000 firms will conduct the required recordkeeping, and 160 firms will voluntarily file a continuing guaranty with the Commission, annually. Therefore, the total number of respondents is 10,160 firms.

Estimated Time per Response: For recordkeeping, CPSC assumes that each record will take one hour to create and maintain. To file a continuing guaranty, CPSC assumes that each form will take one hour to create and submit. Therefore, the estimated time per response for this collection is two hours.

Total Estimated Annual Burden: For recordkeeping, CPSC assumes that there will be 100,000 responses annually (10,000 firms × 10 fabrics per firm = 100,000 records). CPSC assumes that each record will take one hour to create and maintain, therefore the total burden is approximately 100,000 hours, annually. To file a continuing guaranty, CPSC assumes that there will be 1,600 form submissions annually (160 firms × 10 forms per firm = 1,600 forms). CPSC assumes that each form will take one hour to create and submit, therefore the total burden is approximately 1,600 hours, annually. Accordingly, the total estimated annual burden for the collection is 101,600 hours.

Total Estimated Annual Cost to Respondents: At an average hourly wage rate of \$80.04 (U.S. Bureau of Labor Statistics, “Employer Costs for

¹ Continuing Guaranty Under the Flammable Fabrics Act for Filing with the U.S. Consumer Product Safety Commission: <https://www.cpsc.gov/Regulations-Laws-Standards/Statutes/Flammable-Fabrics-Act/Frequently-Asked-Questions-for-Continuing-Guaranties-under-the-Flammable-Fabrics-Act-and-Filed-with-the-Commission>.

Employee Compensation,” December 2025, Table 4, Total compensation of all management, professional, and related occupations in goods-producing industries: https://www.bls.gov/news.release/archives/eccec_03202026.htm), the total cost for the collection of information is approximately \$8.1 million, annually (101,600 hours × \$80.04 per hour = \$8,132,064).

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355–01–P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC–2011–0014]

Agency Information Collection Activities; Extension of Collection; Comment Request; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of information collection; request for comment.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (PRA), the Consumer Product Safety Commission (CPSC or Commission) requests comments on a proposed extension of approval of a generic clearance for the collection of qualitative feedback on agency service delivery. The Office of Management and Budget (OMB) previously approved the collection of information under control number 3041–0148. OMB’s most recent extension of approval will expire on December 31, 2026. The Commission will consider all comments received in response to this notice before requesting an extension of this collection of information from OMB.

DATES: Submit comments on the collection of information by November 27, 2026.

ADDRESSES: You may submit comments, identified by Docket No. CPSC–2011–0014, within 60 days of publication of this notice by any of the following methods:

Electronic Submissions: Submit electronic comments to the Federal eRulemaking Portal at: <https://www.regulations.gov>. Follow the instructions for submitting comments. Do not submit the following through this website: confidential business information, trade secret information, or other sensitive or protected information that you do not want to be available to the public. The Commission typically does not accept comments submitted by email, except as described below.

Instructions: All submissions received must include the agency name and docket number for this notice. CPSC may post all comments without change, including any personal identifiers, contact information, or other personal information provided, to: <https://www.regulations.gov>. If you wish to submit confidential business information, trade secret information, or other sensitive or protected information that you do not want to be available to the public, you may submit such comments by email to cpsc-os@cpsc.gov.

Docket: For access to the docket to read background documents or comments received, go to: <https://www.regulations.gov>, insert docket number CPSC–2011–0014.

FOR FURTHER INFORMATION CONTACT: Cynthia Gillham, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; (301) 504–7791, or by email to: pra@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

OMB Number: 3041–0148.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Individuals and households, businesses and organizations, state, local, or tribal government.

General Description of Collection: Executive Order 12862 (Sept. 11, 1993) directs Federal agencies such as CPSC to provide service to the public that matches or exceeds the best service available in the private sector. To that end, CPSC seeks to renew OMB approval of a generic clearance to collect qualitative feedback on CPSC’s service delivery. Qualitative feedback means information that provides useful insights on perceptions and opinions. This does not include statistical surveys that yield quantitative results that can be generalized to the population of study. This collection of information is necessary to enable CPSC to garner customer and stakeholder feedback in an efficient, timely manner, in accordance with CPSC’s commitment to improving service delivery.

This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations; provide an early warning of issues with service; and help focus attention on areas where communication, training, or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between CPSC and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Estimated Burden: CPSC will use a variety of instruments and platforms to collect information from respondents. CPSC estimates the burden of the collection of information is as follows:

ESTIMATED ANNUAL REPORTING BURDEN

Type of collection	Number of respondents	Annual frequency per response	Hours per response	Total hours
Qualitative Surveys (3)	600	1	.25	150
Focus Groups	200	1	4	800
Customer Satisfaction Surveys (3)	600	1	.25	150
Usability Tests	200	1	.5	100
Online Complaint Forms	2,500	1	.25	625

Based on the above numbers, the total estimated burden for qualitative surveys, focus groups, customer

satisfaction surveys, usability tests and complaint forms combined is 1,825 hours annually. Thus, assuming an

hourly rate of \$49.32 (U.S. Bureau of Labor Statistics, “Employer Costs for Employee Compensation,” All Civilian
