

employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes applications by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding. In the second notice, the agency provides a final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including ITSNA, which details the NRTL's scope of recognition. These pages are available from the OSHA website at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

II. General Background on the Application

ITSNA submitted an application to OSHA for expansion of the NRTL scope of recognition on July 29, 2025 (OSHA–2007–0039–0079), requesting the addition of one standard to the NRTL scope of recognition. OSHA staff performed a detailed analysis of the application packet and reviewed other pertinent information. OSHA did not perform an on-site review in response to this application. OSHA staff has preliminarily determined that OSHA should grant the application for test standard expansion.

Table 1, below, lists the appropriate test standard found in ITSNA's application for expansion for testing and certification of products under the NRTL Program.

TABLE 1—PROPOSED APPROPRIATE TEST STANDARD FOR INCLUSION IN ITSNA'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 3100	ANSI/CAN/UL Automated Mobile Platforms (AMPs).

III. Preliminary Findings on the Application

ITSNA submitted an acceptable application for expansion of the scope of recognition. OSHA's review of the application files and pertinent documentation indicates that ITSNA has met the requirements prescribed by 29 CFR 1910.7 for expanding the recognition to include the addition of

one test standard for NRTL testing and certification listed in Table 1. This preliminary finding does not constitute an interim or temporary approval of ITSNA's application.

OSHA seeks comment on this preliminary determination.

IV. Public Participation

OSHA welcomes public comment as to whether ITSNA meets the requirements of 29 CFR 1910.7 for expansion of recognition as a NRTL. Comments should consist of pertinent written documents and exhibits.

Commenters needing more time to comment must submit a request in writing, stating the reasons for the request by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer time period. OSHA may deny a request for an extension if it is not adequately justified.

To review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor. These materials also are generally available online at <https://www.regulations.gov> under Docket No. OSHA–2007–0039 (for further information, see the “*Docket*” heading in the section of this notice titled **ADDRESSES**).

OSHA staff will review all comments to the docket submitted in a timely manner. After addressing the issues raised by these comments, staff will make a recommendation to the Assistant Secretary of Labor for Occupational Safety and Health on whether to grant ITSNA's application for expansion of the scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of the final decision in the **Federal Register**.

SUPPLEMENTARY INFORMATION:

I. Abstract

The NASA Small Business Supplier Development Program (formerly known as the NASA Mentor-Protégé Program) is authorized by the U.S. Small Business Administration in accordance with 15 U.S.C. 657r and 13 CFR 125.10. The purpose of the Program is to provide incentives to NASA prime contractors (mentors) to assist small businesses and other protégés to enhance their capabilities and increase their participation in NASA, other Government, and in commercial contracts and subcontracts. Under the Program, mentor-protégé agreements specify the assistance to be provided by the mentor and agreement milestones, as well as reporting requirements for the

mentor and protégé firm. This information collection (*i.e.*, application and reports submitted pursuant to mentor-protégé agreements) is required by NASA to monitor the performance and progress of both the mentor and the protégé in this developmental assistance program.

NASA is committed to effectively performing the Agency’s communication function in accordance with Section 203(a)(3) of the National Aeronautics and Space Act of 1958 (as amended) dictates that NASA “provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof”, and to enhance public understanding of, and participation in, the nation’s aeronautical and space program.
