

installation and monthly rates when they elect longer commitment terms. Longer-term commitments provide the Exchange with greater certainty regarding use of the specialized infrastructure and shared capacity required to support Liquid-Cooled Cabinets, and the proposed discounts are designed to encourage such commitments while allowing customers to choose the term that best fits their business needs.

The Exchange believes that the proposed fees are equitably allocated and not unfairly discriminatory because they will apply uniformly to all similarly situated customers that elect the same Liquid-Cooled Cabinet and Liquid-Cooled Cabinet Power options in NY11–5. Customers that choose a Nasdaq-provided Liquid-Cooled Cabinet will be assessed the same Nasdaq-provided cabinet installation fee, and customers that choose a customer-provided Liquid-Cooled Cabinet will be assessed the same customer-provided cabinet installation fee. The service is optional, and customers that do not require liquid-cooling functionality may continue to use the Exchange's existing co-location cabinet and power offerings, as applicable.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The proposed fees apply only to an optional premium co-location service. Customers are not required to purchase Liquid-Cooled Cabinet installation, Liquid-Cooled Cabinet Power Installation or Liquid-Cooled Cabinet Power to connect to the Exchange or to receive co-location services, and customers will continue to have existing options for cabinet and power offerings to satisfy their business needs.

The Exchange believes that the proposal may enhance competition by expanding the range of optional co-location services available to customers, including customers that seek infrastructure options designed to support increasingly power-dense equipment. The proposal also gives customers flexibility to choose between a Nasdaq-provided Liquid-Cooled Cabinet and a customer-provided Liquid-Cooled Cabinet based on their business and infrastructure needs. The proposed fee structure reflects the value of the enhanced functionality, specialized infrastructure, customer choice, and dedicated capacity associated with Liquid-Cooled Cabinets,

Liquid-Cooled Cabinet Power Installation and Liquid-Cooled Cabinet Power, and customers remain free to use existing cabinet and power offerings to satisfy their business needs. Accordingly, the Exchange does not believe that the proposal will impose any burden on intermarket or intramarket competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.
