Information Collection; Federal Acquisition Regulation Part 11 Requirements

AGENCY: Office of Federal Procurement Policy (OFPP), Office of Management and Budget (OMB); Department of Defense (DOD); General Services Administration (GSA); and National Aeronautics and Space Administration (NASA).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and OMB regulations, OFPP, DoD, GSA, and NASA invite the public to comment on an extension concerning certain Federal Acquisition Regulation (FAR) part 11 requirements. OFPP, DoD, GSA, and NASA invite comments on: whether the proposed collection of information is necessary for the proper performance of the functions of Federal Government acquisitions, including whether the information will have practical utility; the accuracy of the estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology. OMB has approved this information collection for use through January 31, 2027. OFPP, DoD, GSA, and NASA propose that OMB extend its approval for use for three additional years beyond the current expiration date.

DATES: OFPP, DoD, GSA, and NASA will consider all comments received by December 1, 2026.

ADDRESSES: OFPP, DoD, GSA, and NASA invite interested persons to submit comments on this collection through <https://www.regulations.gov> and follow the instructions on the site. This website provides the ability to type short comments directly into the comment field or attach a file for lengthier comments. If there are difficulties submitting comments, contact the GSA Regulatory Secretariat Division at 202-501-4755 or GSARegSec@gsa.gov.

Instructions: All items submitted must cite OMB Control No. 9000-0153, Federal Acquisition Regulation Part 11 Requirements. Comments received generally will be posted without change to <https://www.regulations.gov>, including any personal and/or business confidential information provided. To confirm receipt of your comment(s), please check www.regulations.gov, approximately two-to-three days after submission to verify posting.

B. Need and Uses

This clearance covers the information that offerors or contractors must submit to comply with the following FAR requirements:

- FAR 52.211-7, Alternatives to Government-Unique Standards. This solicitation provision permits offerors to propose alternatives to Government-unique standards in response to Government solicitations. When an offeror proposes a voluntary consensus standard as an alternative to a Government-unique standard included in a solicitation, the offeror must furnish data and/or information regarding the alternative in sufficient detail for the Government to determine if it meets the Government's requirements. This provision is prescribed in FAR 11.107 for use when a solicitation uses Government-unique standards and the agency uses the transaction-based reporting method to report its use of voluntary consensus standards to the National Institutes of Standards and Technology (NIST). This provision is optional for use if an agency uses the categorical method to report to NIST. In accordance with OMB Circular A-119, Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities, and section 12(d) of the National Technology Transfer and Advancement Act of 1995 (Pub. L. 104-113, 15 U.S.C. 272 note), agencies must use voluntary consensus standards, when they exist, in lieu of Government-unique standards, except where inconsistent with law or otherwise impractical. The information collected from offerors will be used by Federal agencies to determine if voluntary consensus standards will satisfy the Government's needs for a particular solicitation.

- FAR 52.211-8, Time of Delivery; and 52.211-9, Desired and Required Time of Delivery. These time of delivery clauses may be used by contracting officers to set forth a required delivery schedule and to allow offerors to propose an alternative delivery schedule. Contracting officers use the collected information to ensure supplies or services are obtained in a timely manner.

C. Annual Burden

Respondents: 1,377.

Total Annual Responses: 1,377.

9000–0037, Presolicitation Notice and Response.

B. Need and Uses

This clearance covers the information that offerors must submit to comply with the following Federal Acquisition Regulation (FAR) requirements:

- *FAR 14.205*. For sealed bidding, presolicitation notices briefly describe requirements and provide other essential information to enable potential bidders to determine whether they have an interest in the invitation and if appropriate, respond by communicating their interest in receiving the invitation for bid.

- *FAR 15.201(c)*. For contracting by negotiation, presolicitation notices provide a means of early exchanges of information about future acquisitions between Government and industry, to which potential offerors may respond with feedback concerning acquisition strategy, terms and conditions, and any other concerns or questions.

- *FAR 36.213–2*. For construction contracts, presolicitation notices are required for construction requirements in excess of the simplified acquisition threshold to communicate essential information on the requirements, to which potential bidders may respond by

communicating their interest in receiving the invitation for bid.

Presolicitation notices are used by the Government to inform, and, where specified, solicit a response from potential offerors or bidders. The primary purposes of the notices are to improve small business access to acquisition information and enhance competition by identifying contracting and subcontracting opportunities.

The contracting officer will use the information as follows:

- For sealed bidding, to include interested bidders in the distribution of the invitations for bids; and
- For contracting by negotiation, to consider the industry feedback in shaping the acquisition strategy.

C. Annual Burden

Respondents: 143,218.

Total Annual Responses: 429,654.
