Federal Register

Vol. 91, No. 191

Monday, October 5, 2026

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF COMMERCE

Census Bureau

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Qualitative Research To Improve 2030 Census Communications

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. This notice allows for 30 days for public comments.

AGENCY: U.S. Census Bureau, Commerce.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before November 4, 2026.

ADDRESSES: Interested persons are invited to submit written comments by email to adrm.pra@census.gov. Please reference "Qualitative Research to Improve 2030 Census Communications" in the subject line of your comments. You may also submit comments, identified by Docket Number USBC-2026-0397, to the Federal e-Rulemaking Portal: <http://www.regulations.gov>. All comments received are part of the public record. No comments will be posted to <http://www.regulations.gov> for public viewing until after the comment period has closed. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily

submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information. You may submit attachments to electronic comments in Microsoft Word, Excel, or Adobe PDF file formats.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or specific questions related to collection activities should be directed to Betsari Otero Class, Survey Statistician, Center for Behavioral Science Methods, by phone at 301-763-2235 or by email to betsari.otero.class@census.gov.

Title: Qualitative Research to Improve 2030 Census Communications.

OMB Control Number: 0607-0725.

Form Number(s): None.

Type of Request: Regular submission.

Number of Respondents: 250 for screening, 50 for interviews.

Average Hours per Response: 10 minutes per response for screening (42 hours), 60 minutes for each interview (50 hours).

Burden Hours: 92 hours.

Needs and Uses: The U.S. Census Bureau plans to conduct additional research under the generic clearance for 2030 Census small-scale testing and updates (OMB number 0607-0725). Staff from the Center for Behavioral Science Methods, in collaboration with decennial census content, language, and communications researchers, seek approval to conduct in-depth, qualitative interviews as part of 2030 Census research. The goal is to gain insights that will help us improve census communications and ultimately to improve the census count.

2030 Census communications research includes ongoing measurement of attitudes toward the Census Bureau and federal surveys by replicating and expanding on the successful Census Barriers, Attitudes and Motivators Study (CBAMS) Survey conducted to inform the 2010 and 2020 Censuses. Tracking and monitoring attitudes toward the decennial census in the intercensal years helps establish a baseline understanding of public opinion as a starting point for messaging, and how public opinion may change as the 2030 Census gets closer. Monitoring opinions and sentiments throughout the decade will allow the Census Bureau to develop a communications campaign that responds to issues or events that might

affect self-response rates in the 2030 Census. The Qualitative Research to Improve 2030 Census Communications project aims to address these issues regarding census communications and the census count.

Qualitative methods such as interviews and participant observation can give insight into issues of census enumeration and census communications. When these and other qualitative methods are used in combination, this type of immersive research approach is particularly useful to learn about populations with different viewpoints.

We will conduct the 50 interviews both virtually and in-person with participants who live across the U.S. and Puerto Rico (in-person interviews may be conducted with eligible participants living in the Washington, DC metro area and Puerto Rico). The interviews will be conducted by Census Bureau staff from the Center for Behavioral Science Methods (CBSM).

The purpose of this research is to complement quantitative research to improve census communications and ultimately the census count by learning more about (a) why some households do not complete the census, and (b) themes that can inform compelling census communications. We plan to conduct this research virtually across the U.S., and in person where possible in areas that were selected in part because they have populations or geographies that are particularly challenging to enumerate, as well as Puerto Rico. We will conduct in-depth qualitative interviews with participants and discuss their living situations, their awareness of and experiences participating in the census, and other census topics. Results of this research will be used to help design communications and advertising messages for the 2030 Census and will ultimately help to improve the 2030 Census count.

Affected Public: Individuals.

Frequency: Once.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Section 141, 182, 191.

Request for Comments: We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have

practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include, or summarize, each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Departmental PRA Compliance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

Certain Corrosion Inhibitors From the People's Republic of China: Final Results of Countervailing Duty Administrative Review; 2024

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that countervailable subsidies were provided to certain producers/exporters of certain corrosion inhibitors (corrosion inhibitors) from the People's Republic of China (China) during the period of review (POR) January 1, 2024, through December 31, 2024.

DATES: Applicable October 2, 2026.

FOR FURTHER INFORMATION CONTACT: Mary Kolberg, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1785.

Background

On May 26, 2026, Commerce published in the **Federal Register** the *Preliminary Results* of this administrative review and invited comments from interested parties.¹ This review covers five producers/exporters of corrosion inhibitors during the POR, including mandatory respondents, Anhui Trust Chem Co., Ltd. (ATC) and Nantong Botao Chemical Co., Ltd. (Botao).²

For a complete description of the events that occurred since the *Preliminary Results*, see the Issues and Decision Memorandum.³ The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS), which is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/frnotices>.

Scope of the Order

The products covered by the *Order* are corrosion inhibitors from China. For a full description of the scope of the *Order*, see the Issues and Decision Memorandum.⁴

Analysis of Comments Received

All issues raised by interested parties in case briefs are addressed in the Issues and Decision Memorandum. The topics discussed and the issue raised by parties to which we responded in the Issues and Decision Memorandum are listed in the appendix to this notice.

Changes Since the Preliminary Results

Based on comments received by an interested party, we made certain changes to the calculations for ATC. For a discussion of these changes, see the Issues and Decision Memorandum.

¹ See *Certain Corrosion Inhibitors from the People's Republic of China: Preliminary Results and Partial Rescission of Countervailing Duty Administration Review; 2024*, 91 FR 30616 (May 26, 2026) (*Preliminary Results*), and accompanying Preliminary Decision Memorandum (PDM).

² See Memorandum, “Certain Corrosion Inhibitors from the People's Republic of China: Respondent Selection,” dated May 29, 2025.

³ See Memorandum, “Issues and Decision Memorandum for the Final Results of the Administrative Review of the Countervailing Duty Order on Certain Corrosion Inhibitors from the People's Republic of China; 2024,” dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

⁴ See *Certain Corrosion Inhibitors from the People's Republic of China: Antidumping Duty and Countervailing Duty Orders*, 86 FR 14869 (March 19, 2021) (*Order*).

Methodology

Commerce conducted this administrative review in accordance with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). For each of the subsidy programs found to be countervailable, we determine that there is a subsidy, *i.e.*, a government-provided financial contribution that gives rise to a benefit to the recipient, and that the subsidy is specific.⁵ For a full description of the methodology underlying Commerce's conclusions, see the Issues and Decision Memorandum.

Companies Not Selected for Individual Review

The statute does not address the establishment of a rate to be applied to companies not selected for individual examination when Commerce limits its examination in an administrative review pursuant to section 777A(e)(2) of the Act. However, Commerce's regulation at 19 CFR 351.109(g) states that Commerce will determine the rate for non-selected companies by applying the methodology in 19 CFR 351.109(f)(1)–(2), which generally parallels the process for determining the all-others rate in an investigation under section 705(c)(5) of the Act. Section 705(c)(5)(A)(i) of the Act and 19 CFR 351.109(f)(1) instruct Commerce, as a general rule, to calculate the all-others rate equal to the weighted average of the countervailable subsidy rates established for exporters and producers individually investigated, excluding any zero or *de minimis* countervailable subsidy rates, and any rates determined entirely on the basis of facts available.

In this administrative review, we are assigning to the companies under review that were not selected for individual examination, a countervailable subsidy rate equal to the weighted average of the countervailable subsidy rates calculated for ATC and Botao, weighted by the mandatory respondents' publicly ranged sales values for the merchandise under consideration, consistent with 19 CFR 351.109(f) and (g).⁶

⁵ See sections 771(5)(B) and (D) of the Act regarding financial contribution; section 771(5)(E) of the Act regarding benefit; and section 771(5A) of the Act regarding specificity.

⁶ With two respondents under examination, Commerce normally calculates: (A) a weighted-average of the estimated subsidy rates calculated for the examined respondents; (B) a simple average of the estimated subsidy rates calculated for the examined respondents; and (C) a weighted-average of the estimated subsidy rates calculated for the examined respondents using each company's publicly-ranged U.S. sales values for the merchandise under consideration. Commerce then compares (B) and (C) to (A) and selects the rate
