

circumstances. In compliance with OMB Circular A-45 (Revised), Rental and Construction of Government Housing, a review of private rental market housing rates is required at least once every 5 years to ensure that the rental, utility charges, and charges for related services to occupants of Government Furnished Housing (GFH) are comparable to corresponding charges in the private sector. To avoid unnecessary duplication and inconsistent rental rates, the Department of the Interior, Office of the Secretary, Interior Business Center (on behalf of the Office of Acquisition and Property Management), conducts housing surveys in support of employee housing management programs for the Departments of the Interior (DOI), Agriculture, Commerce, Homeland Security, Justice, Transportation, Health and Human Services, Veterans Affairs, and other agencies. In this survey, two collection forms are used for rental unit data: OS-2000 covering "Houses-Apartments-Mobile Homes," and OS-2001 covering "Trailer Spaces."

Respondents are typically property management companies or significant property owners in specific communities and are contacted by email or telephone. They may provide the rental unit information requested in OS-2000 and OS-2001 verbally, update rental data collected during a previous survey, enhance/complete rental data gathered from published sources, or provide lists of rental units they manage.

This collection of information provides data that is essential for DOI and the other Federal agencies to manage GFH in accordance with the requirements of OMB Circular A-45 (Revised). If this information were not collected from the public, DOI and the other Federal agencies providing GFH would be required to use professional real estate appraisals of private market rental costs, again, in accordance with OMB Circular A-45, but at an increased cost to the taxpayer.

Title of Collection: Private Rental Survey.

OMB Control Number: 1084-0033.

Form Number: OS-2000 and OS-2001.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Businesses and other for-profit institutions.

Total Estimated Number of Annual Respondents: 1,883.

Total Estimated Number of Annual Responses: OS-2000: 3,180; OS-2001: 359; Total: 3,539.

Estimated Completion Time per Response: 6 minutes for OS-2000 and 4 minutes for OS-2001.

Total Estimated Number of Annual Burden Hours: 342 hours.

Respondent's Obligation: Voluntary.

Frequency of Collection: Once per respondent every fourth year. Three or four of 16 total survey regions are surveyed every year. Therefore, a respondent or business may potentially be surveyed every fourth year if the exact same unit is surveyed again four years later. In addition, if an individual respondent or business is a significant rental property manager or rental property owner in the community, they may provide multiple responses in the same survey. Approximately 63% of respondents furnish more than one rental unit (OS-2000 and OS-2001). About 60% of respondents validate published data (tax records, advertisement, etc.), 30% update their previous survey data, and 10% furnish a new OS-2000 or OS-2001. Participation is optional.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Jeffrey Parrillo,

Departmental Information Collection Clearance Officer.

BILLING CODE 4334-63-P

DEPARTMENT OF THE INTERIOR

Bureau of Safety and Environmental Enforcement

[Docket ID BSEE-2026-0298; EEEE500000-256E1700D2-ET1SF0000.EAQ000; OMB Control Number 1014-0022]

Agency Information Collection Activities; General

AGENCY: Bureau of Safety and Environmental Enforcement, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Bureau of Safety and Environmental Enforcement (BSEE) proposes to renew an information collection.

DATES: Interested persons are invited to submit comments on or before December 4, 2026.

ADDRESSES: Send your comments on this information collection request (ICR) by either of the following methods listed below:

- Electronically go to <http://www.regulations.gov>. In the Search box, enter BSEE-2026-0298 then click search. Follow the instructions to submit public comments and view all related materials. We will post all comments.

- Email Kelly.Odom@bsee.gov or mail or hand-carry comments to the Department of the Interior; Bureau of Safety and Environmental Enforcement; Regulations and Standards Branch; ATTN: Kelly Odom; 45600 Woodland Road, Sterling, VA 20166. Please reference OMB Control Number 1014-0022 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Kelly Odom by email at Kelly.Odom@bsee.gov or by telephone at (703) 787-1775. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct, or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The BSEE uses the information collected under the Subpart A regulations to ensure that operations on the OCS are carried out in a safe and pollution-free manner, do not interfere with the rights of other users on the OCS, and balance the protection and development of OCS resources. Specifically, we use the information collected to:

- Review records of formal crane operator and rigger training, crane operator qualifications, crane inspections, testing, and maintenance to ensure that lessees/operators perform operations in a safe and workmanlike manner and that equipment is maintained in a safe condition. The BSEE also uses the information to make certain that all new and existing cranes installed on OCS fixed platforms must be equipped with anti-two block safety devices, and to assure that uniform methods are employed by lessees for load testing of cranes.

- Review welding plans, procedures, and records to ensure that welding is conducted in a safe and workmanlike manner by trained and experienced personnel.

- Provide lessees/operators greater flexibility to comply with regulatory requirements through approval of alternative equipment or procedures and departures to regulations if they demonstrate equal or better compliance

with the appropriate performance standards.

- Ensure that injection of gas promotes conservation of natural resources and prevents waste.

- Record the agent and local agent empowered to receive notices and comply with regulatory orders issued.

- Provide for orderly development of leases using information to determine the appropriateness of lessee/operator requests for suspension of operations, including production.

- Improve safety and environmental protection on the OCS through collection and analysis of accident reports to ascertain the cause of the accidents and to determine ways to prevent recurrences.

- Ascertain when the lease ceases production or when the last well ceases production in order to determine the 180th day after the date of completion of the last production. The BSEE will use this information to efficiently maintain the lessee/operator lease status.

- Allow lessees/operators who exhibit unacceptable performance an incremental approach to improving their overall performance prior to a final decision to disqualify a lessee/operator or to pursue debarment proceedings through the execution of a performance improvement plan (PIP). The Subpart A regulations do not address the actual process that we will follow in pursuing the disqualification of operators under §§ 250.135 and 250.136; however, our internal enforcement procedures include allowing such operators to demonstrate a commitment to acceptable performance by the submission of a PIP.

We will not be making any changes to the forms this renewal cycle.

The BSEE forms use and information consists of the following:

Form BSEE-0132, Hurricane and Tropical Storm Evacuation and Production Curtailment Statistics (GOMR)

- Be informed when there could be a major disruption in the availability and supply of natural gas and oil due to natural occurrences/hurricanes, to advise the U.S. Coast Guard (USCG) in case of the need to rescue offshore workers in distress, to monitor damage to offshore platforms and drilling rigs, and to advise the news media and interested public entities when production is shut-in and when resumed. The Gulf of Mexico OCS Region (GOMR) uses Form BSEE-0132, Hurricane and Tropical Storm Evacuation and Production Curtailment Statistics, for respondents to report

evacuation statistics when necessary. This form requires the respondent to submit general information such as company name, contact, date, time, telephone number, as well as number of platforms and drilling rigs evacuated and not evacuated. We also require production shut-in statistics for oil (BOPD) and gas (MMSCFD).

Form BSEE-0143, Facility/Equipment Damage Report

- Assists lessees, lease operators, and pipeline right-of-way holders when reporting damage by a hurricane, earthquake, or other natural phenomenon. They are required to submit an initial damage report to the Regional Supervisor within 48 hours after completing the initial evaluation of the damage and then, subsequent reports, monthly and immediately, whenever information changes until the damaged structure or equipment is returned to service. Information on the form includes—instructions, general information, a description of the damage, an initial damage assessment, production rate at time of shut-in (BPD and/or MMCFPD), cumulative production shut-in (BPD and/or MMCFPD), and estimated time to return to service (in days).

Form BSEE-1832, Notification of Incident(s) of Noncompliance

- Determine that respondents have corrected all Incident(s) of Noncompliance (INCs), identified during inspections. Everything on the INC form is filled out by a BSEE inspector/representative. The only thing industry does with this form is sign the document upon receipt and respond to BSEE when each INC has been corrected, no later than 14 days from the date of issuance.

Title of Collection: 30 CFR part 250, subpart A, General.

OMB Control Number: 1014-0022.

Form Number: Form BSEE-0132, Hurricane and Tropical Storm Evacuation and Production Curtailment Statistics (GOMR), Form BSEE-0143, Facility/Equipment Damage Report, and Form BSEE-1832, Notification of Incident(s) of Noncompliance.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public:

Potential respondents include Federal OCS oil, gas, and sulfur lessees and/or operators and holders of pipeline rights-of-way.

Total Estimated Number of Annual Respondents: Currently there are approximately 555 Federal OCS oil, gas, and sulfur lessees and holders of pipeline rights-of-way. Not all the

potential respondents will submit information in any given year, and some may submit multiple times.

Total Estimated Number of Annual Responses: 22,294.

Estimated Completion Time per Response: Varies from 30 minutes to 106 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 102,221.

Respondent's Obligation: Most responses are mandatory, while others are required to obtain or retain benefits, or voluntary.

Frequency of Collection: Submissions are generally on occasion, daily, monthly, and vary by section.

Total Estimated Annual Nonhour Burden Cost: \$246,268.

An agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Kirk Malstrom,

Chief, Regulations and Standards Branch.

BILLING CODE 4310-VH-P

DEPARTMENT OF THE INTERIOR

Bureau of Safety and Environmental Enforcement

[Docket ID BSEE-2026-0265; EEEE500000-256E1700D2-ET1SF0000.EAQ000; OMB Control Number 1014-0019]

Agency Information Collection Activities; Oil and Gas Production Requirements

AGENCY: Bureau of Safety and Environmental Enforcement, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Bureau of Safety and Environmental Enforcement (BSEE) proposes to renew an information collection.

DATES: Interested persons are invited to submit comments on or before December 4, 2026.

ADDRESSES: Send your comments on this information collection request (ICR) by either of the following methods listed below:

- Electronically go to <http://www.regulations.gov>. In the Search box, enter BSEE-2026-0265 then click search. Follow the instructions to submit public comments and view all

related materials. We will post all comments.

- Email Kelly.Odom@bsee.gov or mail or hand-carry comments to the Department of the Interior; Bureau of Safety and Environmental Enforcement; Regulations and Standards Branch; ATTN: Kelly Odom; 45600 Woodland Road, Sterling, VA 20166. Please reference OMB Control Number 1014-0019 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Kelly Odom by email at Kelly.Odom@bsee.gov or by telephone at (703) 787-1775.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct, or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number,

email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The regulations at 30 CFR part 250, subpart K, concern Oil and Gas Production Requirements (including the associated forms) and are the subject of this collection. This request also covers any related Notices to Lessees and Operators (NTLs) that BSEE issues to clarify, supplement, or provide additional guidance on some aspects of our regulations. The information collected under Subpart K is used in our efforts to conserve natural resources, prevent waste, and protect correlative rights, including the Government's royalty interest. Specifically, BSEE uses the information to:

- Evaluate requests to burn liquid hydrocarbons and vent and flare gas to ensure that these requests are appropriate;
- Determine if a maximum production or efficient rate is required; and,
- Review applications for downhole commingling to ensure that action does not result in harm to ultimate recovery.

The forms used in this ICR are:

Form BSEE-0126, Well Potential Test Report

BSEE uses this information for reservoir, reserves, and conservation analyses, including the determination of maximum production rates (MPRs) when necessary for certain oil and gas completions. This requirement implements the conservation provisions of the OCS Lands Act and 30 CFR 250. The information obtained from the well potential test is essential to determine if an MPR is necessary for a well and to establish the appropriate rate. It is not possible to specify an MPR in the absence of information about the production rate capability (potential) of the well. The form asks for, in either fill in the blanks or check marks:

- General information about the well and the company;
- Pertinent information relating to the well test; and
- 24-hour rates pertaining to test production.

Form BSEE-0128, Semiannual Well Test Report

BSEE uses this information to evaluate the results of well tests to
