

by the permit will be conducted in compliance with the rules and regulations of the Commission, that safety questions will be satisfactorily resolved by the completion of construction, and that, taking into consideration siting criteria, the proposed facility can be constructed and operated at the proposed location without undue risk to public health and safety, subject to the conditions listed in the CP. Furthermore, the NRC found that the licensee, TVA, is technically and financially qualified to construct the facility, and that issuance of the CP will not be inimical to the common defense and security or to the health and safety of the public. The NRC further found that the conditions in the early site permit (ESP-006), with the exception of those listed in the CP, had

been met. Finally, the NRC found that issuance of the CP was in accordance with subpart A, “National Environmental Policy Act—Regulations Implementing Section 102(2),” of 10 CFR part 51, “Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions,” and that all applicable requirements had been satisfied.

Accordingly, the immediately effective CP was issued on September 28, 2026.

II. Further Information

The NRC staff prepared a Safety Evaluation (SE) and Supplemental Environmental Impact Statement (SEIS) which document the staff’s evaluation of the CP application and its findings. The NRC staff also prepared the ROD

that incorporates by reference the materials contained in the SEIS. In accordance with 10 CFR 2.390, “Public inspections, exemptions, requests for withholding,” of the NRC’s “Agency Rules of Practice and Procedure,” details with respect to this action, including the SE, SEIS, the ROD, and accompanying documentation included in the CP package, are available online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. From this site, persons can access the NRC’s ADAMS, which provides text and image files of NRC’s public documents.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2026-4159 when contacting the NRC about

the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2026-4159. A copy of the collection of information and related instructions may be obtained without charge by accessing Docket ID NRC-2026-4159 on this website.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin ADAMS Public Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. The supporting statement is available in ADAMS under Accession No. ML26266A265.

- *NRC’s PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern

time (ET), Monday through Friday, except Federal holidays.

- *NRC's Clearance Officer*: A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC's Clearance Officer, Kristen Benney, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-6355; email: Infocollects.Resource@nrc.gov.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2026-4159, in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized as follows.

1. *The title of the information collection*: Information Collections Contained in the Sunset Rule.
2. *OMB approval number*: An OMB control number has not yet been assigned to this proposed information collection.
3. *Type of submission*: New.
4. *The form number, if applicable*: Not applicable.
5. *How often the collection is required or requested*: Annually.
6. *Who will be required or asked to respond*: Reporting requirements will be removed for certain applicants and licensees under 10 CFR parts 34, 35, 36, and 39.

7. *The estimated number of annual responses*: – 34.

8. *The estimated number of annual respondents*: – 34.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request*: – 450.

10. *Abstract*: The NRC is conducting a review and wholesale revision of its regulations in part 10 of title 10 of the Code of Federal Regulations (10 CFR). As part of this initiative, the NRC is proposing to deregulate and sunset regulations throughout 10 CFR, including sections related to the submission of exemption requests. The proposed rulemaking will deregulate multiple 10 CFR requirements and would necessitate changes to information collection. The information collections removed in this final rule would affect certain applicants and licensees under 10 CFR parts 34, 35, 36, and 39.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility? Please explain your answer.
 2. Is the estimate of the burden of the information collection accurate? Please explain your answer.
 3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
 4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?
- Authority*: 42 U.S.C. 2011 *et seq.*

Dated: October 1, 2026.

For the Nuclear Regulatory Commission.

Kristen Benney,

NRC Clearance Officer, Office of the Chief Information Officer.
