

Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). We are particularly interested in receiving comments on: (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Comments submitted in response to this notice will be included or summarized in our request for Office of Management and Budget (OMB) approval of the relevant information collection. All comments are part of the public record and subject to disclosure. Please do not include any confidential or inappropriate material in your comments.

Title: FMC Assistance Center/Web Portal.

OMB Control Number: 3072-0075 (Expires January 31, 2027).

Form Numbers: FMC-32, FMC-33.

Abstract: Section 17(a) of the Ocean Shipping Reform Act of 2022 requires that the Commission "establish on the public website of the Commission a web page that allows for the submission of comments, complaints, concerns, reports of noncompliance, requests for investigation, and requests for alternative dispute resolution," and that it direct each submission to the appropriate component office of the Commission.

The FMC will implement the web portal available through the agency's website to collect this information from the public. The collected information will be internally routed to the appropriate component office for response. As this collection includes inquiries related to dispute resolution services, it also encompasses Forms FMC-32 (Dispute Resolution Service Request—Cruise) and FMC-33 (Dispute Resolution Service Request—Cargo).

These forms are available within the web portal and at <https://www.fmc.gov/forms-and-applications/>. The burden associated with these forms is included in this collection.

Type of Review: Extension with change.

Current Actions: The estimated burden hours for the collection have remained the same. Minor changes have been made to the FMC-32 and FMC-33 to provide clarification to questions. The 2024 submission included a proposed mockup of the assistance

center within the web portal. The submission to OMB's Office of Information and Regulatory Affairs includes the proposed assistance center within the web portal.

Needs and Uses: The Commission will use the web portal to receive requests from the public and ensure prompt response to the shipping public.

Frequency: This information will be collected when members of the public choose to submit it.

Type of Respondents: Individuals and establishments who wish to ask questions, express concerns, or submit complaints to the Federal Maritime Commission.

Number of Annual Respondents: The Commission estimates an annual respondent universe of 5,000. The Commission further estimates 300 of these responses will require attaching an FMC form related to dispute resolution services (FMC-32 or FMC-33).

Estimated Time Per Response: The time per response is estimated at 6 minutes per response for submissions that do not involve completing the FMC-32 or FMC-33 forms and 20 minutes for responses requiring the forms.

Total Annual Burden: Burden is calculated as $4,700 \times 6 \text{ minutes} = 470 \text{ hours}$ for portal submissions that do not also include a form and $300 \times 20 \text{ minutes} = 100 \text{ hours}$ for submissions that also include either an FMC-32 or FMC-33. Total burden equals 570 hours.

For the Commission.

David Eng,

Secretary.

Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research and Quality, HHS.

ACTION: Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare Research and Quality (AHRQ) to request that the Office of Management and

Budget (OMB) approve the extension without change of the previously approved information collection project “Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery” (0935–0179). This information collection was previously published in the **Federal Register** on July 30, 2026, and allowed 60 days for public comment. AHRQ did not receive any comments. The purpose of this notice is to allow an additional 30 days for public comment.

DATES: Comments on this notice must be received by November 4, 2026.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Copies of the proposed collection plans, data collection instruments, and specific details on the estimated burden can be obtained from the AHRQ Reports Clearance Officer.

FOR FURTHER INFORMATION CONTACT: Margie Shofer, AHRQ Reports Clearance Officer, 301–427–1696 or by email at REPORTSCLEARANCEOFFICER@ahrq.hhs.gov.

SUPPLEMENTARY INFORMATION:

Proposed Project

Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

The information collection activity will garner qualitative customer and stakeholder feedback in an efficient,

timely manner, in accordance with the Administration’s commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communication between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management. The current clearance was approved on November 7, 2023 (OMB Control Number 0935–0179) and will expire on November 30, 2026.

Method of Collection

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: (1) the target population to which generalizations will be made; (2) the

sampling frame; (3) the sample design (including stratification and clustering); (4) the precision requirements or power calculations that justify the proposed sample size; (5) the expected response rate; (6) methods for assessing potential nonresponse bias; (7) the protocols for data collection; (8) and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Estimated Annual Respondent Burden

Exhibit 1 shows the estimated total burden hours for the respondents. Mail surveys are estimated to average 15 minutes, telephone surveys 40 minutes, web-based surveys 10 minutes, focus groups two hours, and in-person interviews are estimated to average 50 minutes. Mail surveys may also be sent to respondents via email and may include a telephone non-response follow-up. Telephone non-response follow-up for mailed surveys does not count as a telephone survey. The total annualized burden hours is estimated to be 1,130 hours.

Exhibit 2 shows the estimated cost burden for the respondents. The total annualized cost burden for the clearance is estimated to be \$75,800. This amount was incorrectly overstated on the 60-day **Federal Register** Notice; the error was due to using the number of respondents vs the number of burden hours for the estimate and estimating the amount for three years of collection versus an annualized amount.

** Adjusted Average Hourly Wage Rate is 200% of the average hourly rate. It is a fully loaded rate that includes the benefit costs of respondents.

Request for Comments

In accordance with the Paperwork Reduction Act, 44 U.S.C. 3501–3520, comments on AHRQ’s information collection are requested with regard to any of the following: (a) whether the proposed collection of information is necessary for the proper performance of AHRQ’s health care research and health care information dissemination functions, including whether the information will have practical utility; (b) the accuracy of AHRQ’s estimate of burden (including hours and costs) of the proposed collection(s) of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information upon the respondents, including the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the Agency’s subsequent request for OMB approval of the proposed information collection. All comments will become a matter of public record.

Dated: September 29, 2026.

AGENCY: Agency for Healthcare Research and Quality, HHS.

ACTION: Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare

Research and Quality (AHRQ) to request that the Office of Management and Budget (OMB) approve the revision of a currently approved information collection project “AHRQ Consumer Assessment of Healthcare Providers and Systems (CAHPS) Database for Health Plans” (OMB No. 0935–0165). This information collection was previously published in the **Federal Register** on July 30, 2028, and allowed 60 days for public comment. AHRQ did not receive any comments. SUPPLEMENTARY INFORMATION:

Background

The CAHPS Health Plan Database consists of data from the AHRQ CAHPS Health Plan Survey. Health plans in the U.S. are asked to voluntarily submit data from the survey to AHRQ, through its contractor, Westat. The CAHPS Health Plan Survey is a tool for collecting standardized information on enrollees’ experiences with health plans and their services. The development of the CAHPS Health Plan Survey began in 1995 in response to requests from health plans, purchasers, and the Centers for

Medicare and Medicaid Services (CMS) to provide comparative data to support public reporting of health plan ratings, health plan accreditation and quality improvement. Since that time, the survey has been refined and updated to reflect field feedback from industry experts; reports from health plan participants, data collection vendors (the organization that helps carry out the technical and operational parts of a survey and database submission), and other users; evidence from cognitive testing and focus groups; and extensive psychometric data analysis. Version 5.0 of the Health Plan Survey was released in 2012. The National Quality Forum endorsed the 5.0 version of the Health Plan Survey in 2015. Version 5.1 was released in 2020 to acknowledge the various ways in which enrollees may receive care: in person, by phone, or by video.

The collection of information for the CAHPS Health Plan Database is being conducted through its contractor, Westat, pursuant to AHRQ’s statutory authority to conduct and support research on health care and systems for the delivery of such care, including activities with respect to the quality, effectiveness, efficiency, appropriateness and value of health care services, quality measurement and development, and database development. See 42 U.S.C. 299a(a)(1), (2), and (8).

Rationale for the Information Collection

The CAHPS Health Plan Database uses data from AHRQ’s standardized CAHPS Health plan survey to provide results to health care purchasers, consumers, regulators and policy makers across the country. Voluntary participants include public and private employers, State Medicaid agencies, Children’s Health Insurance Programs (CHIP), CMS, and individual health plans.
