II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized as follows.

2. *OMB approval number:* An OMB control number has not yet been assigned to this proposed information collection.
3. *Type of submission:* New.
4. *The form number, if applicable:* Not applicable.
5. *How often the collection is required or requested:* Annually.
6. *Who will be required or asked to respond:* Reporting requirements will be removed for certain applicants and licensees under 10 CFR parts 34, 35, 36, and 39.

7. *The estimated number of annual responses:* – 34.

8. *The estimated number of annual respondents:* – 34.

As part of this initiative, the NRC is proposing to deregulate and sunset regulations throughout 10 CFR, including sections related to the submission of exemption requests. The proposed rulemaking will deregulate multiple 10 CFR requirements and would necessitate changes to information collection. The information collections removed in this final rule would affect certain applicants and licensees under 10 CFR parts 34, 35, 36, and 39.

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility? Please explain your answer.
 2. Is the estimate of the burden of the information collection accurate? Please explain your answer.
 3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
 4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?
