OMB Control No. 1513–0142

Title: CBMA Imports Refund Program—Foreign Producer Registration and Assignment System, and CBMA Importer Refund Claims System.

Abstract: The IRC at 26 U.S.C. 5001, 5041, and 5051 imposes Federal excise tax on, respectively, distilled spirits, wine, and beer produced in or imported into the United States, while certain quantities of those products are eligible for lower excise taxes under the Craft Beverage Modernization Act (CBMA). For imported products, rather than receiving CBMA tax benefits at the time of entry, U.S. alcohol beverage importers are required to pay the full excise tax rate to U.S. Customs and Border Protection and then subsequently submit refund claims to TTB to receive their assigned CBMA tax benefits. Under the IRC at 26 U.S.C. 5001(c), 5041(c), and 5051(a), a U.S. importer will only be eligible for CBMA tax benefits if a foreign producer has elected to assign, and the importer has elected to receive, such benefits in accordance with regulations and procedures issued by the Secretary. Finally, under 26 U.S.C. 6038E, foreign producers electing to make such assignments are required to provide the information the Secretary requires by regulation, including ownership information relating to such producers. Under those IRC authorities, the TTB regulations in 27 CFR part 27 establish procedures for foreign producers to assign CBMA tax benefits to U.S. importers, and for U.S. importers to receive those assignments and submit their CBMA tax benefit refund claims to TTB. This information collection is required to ensure that the IRC provisions regarding CBMA tax benefit refund claims for U.S. alcohol importers are appropriately applied, including for confirming an importer's eligibility for a refund.

Current Actions: There are no program changes at this time, and TTB is submitting it for extension purposes only. As for adjustments, due to changes in agency estimates, TTB is decreasing the estimated number of annual respondents, responses, and burden hours for this information collection,

but is increasing its estimated average number of annual responses per respondent.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses and other for-profits.

Estimated Annual Burden

- *Number of Respondents:* 12,000.
- *Average Responses per Respondent:* 2.75.
- *Number of Responses:* 33,000.
- *Average Per-response Burden:* 2 hours.
- *Total Burden:* 66,000 hours.

OMB Control No. 1513–0143

Title: Combined Alcohol Excise Tax Returns and Operations Reports—Pilot Test.

TTB Form Numbers: TTB F 5130.Pilot–A and TTB F 5130.Pilot–B. *Abstract:* Under the IRC at 26 U.S.C. 5061, the Federal excise tax on distilled spirits, wine, and beer is collected on the basis of a return which taxpayers file on a semi-monthly, quarterly, or annual basis, depending on the amount of their annual tax liability. In addition, under the IRC at 26 U.S.C. 5207, 5367, and 5415, taxpayers for distilled spirits, wine, and beer respectively, must furnish operations reports as the Secretary prescribes by regulation. Under those IRC authorities, the TTB regulations in 27 CFR chapter I currently require alcohol excise taxpayers to report their excise tax liability using form TTB F 5000.24, Excise Tax Return, approved under OMB No. 1513–0083, while those taxpayers separately file operations reports using various forms approved under various OMB control numbers to account for their production, removals, losses, and certain other matters that affect their excise tax liability. As part of TTB's efforts to lower respondent burden, the Bureau is developing combined tax returns and simplified operations report for each alcohol beverage commodity and intends to pilot their use with its taxpayers. Under this pilot, alcohol excise taxpayers will submit a letterhead application to join the pilot program as an alternative to filing their current tax return and operations reports under existing regulatory requirements. Once approved, taxpayers participating in the pilot program will file their combined alcohol excise return and simplified operations report under the due dates currently applicable to their excise tax returns. The collected information allows TTB to identify the excise taxpayer, the amount of taxes due, and the amount of payments made, as well

as operational activities that affect the amount of alcohol excise taxes due, while reducing the overall burden of filing separate tax returns and operations reports.

Current Actions: TTB is currently piloting a combined excise tax return and operations report forms for brewers. There are no program changes or adjustments associated with this collection, and TTB is submitting it for extension purposes only.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses or other for-profits.

Estimated Annual Burden

- *Number of Respondents:* 10,000.
- *Average Responses per Respondent:* 5.8.
- *Number of Responses:* 58,000.
- *Average Per-response Burden:* 1.0 hour.
- *Total Burden:* 58,000 hours.
