

Committee Act (FACA). 46 U.S.C. 70112(b)(7). See 5 U.S.C. 1001–1014. The AMSCs assist the FMSC in the development, review, update, and implementation of the Area Maritime Security Plan (AMSP) for their area of responsibility. The responsibilities of the AMSCs may include, but are not limited to, the following:

- (1) Identifying critical port infrastructure and operations;
- (2) Identifying risks (threats, vulnerabilities, and consequences);
- (3) Determining mitigation strategies and implementation methods;
- (4) Developing strategies to facilitate the recovery of the Maritime Transportation System after a Transportation Security Incident;
- (5) Developing and describing the process to continually evaluate overall port security by considering consequences and vulnerabilities, how they may change over time, and what additional mitigation strategies can be applied; and
- (6) Providing advice to and assisting the FMSC in developing and maintaining the AMSP.

AMSC Membership

Members of the AMSC should have at least five years of experience related to maritime or port security operations. We are seeking to fill one (1) Sub-Committee vacancy with this solicitation: an Executive Board member to serve as Vice-Chairperson. The position will serve concurrently as a member of the Eastern Great Lakes AMSC when convened by the FMSC.

Applicants may be required to pass an appropriate security background check prior to appointment to the Committee. The member's term of office will be for five years; however, a member is eligible to serve additional terms of office. Members will not receive any salary or other compensation for their service on an AMSC. In accordance with 33 CFR 103.305, members may be selected from Federal, Territorial, or Tribal governments; State government and political subdivisions of the State; local public safety, crisis management, and emergency response agencies; law enforcement and security organizations; maritime industry, including labor; other port stakeholders having a special competence in maritime security; and port stakeholders affected by security practices and policies.

The Department of Homeland Security does not discriminate in selection of committee members on the basis of race, color, religion, sex, national origin, political affiliation, sexual orientation, gender identity, marital status, disability, and genetic information, age, membership in an employee organization, or any other

non-merit factor. The Department of Homeland Security strives to achieve a widely diverse candidate pool for all of its recruitment actions.

Request for Applications

Those seeking membership are not required to submit formal applications to the local Captain of the Port. Because we have an obligation to ensure that a specific number of members have the prerequisite maritime security experience, however, we encourage the submission of resumes highlighting experience in the maritime and security industries.

Matthew J. Walter,

Captain, U.S. Coast Guard, Captain of the Port & Federal Maritime Security Coordinator, Eastern Great Lakes.

BILLING CODE 9110–04–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID: FEMA–2026–0166; OMB No. 1660–0008]

Agency Information Collection Activities: Submission for OMB Review, Comment Request; Elevation Certificate/Floodproofing Certificate.

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: 30-Day Notice of Extension and Request for Comments.

SUMMARY: The Federal Emergency Management Agency (FEMA) will submit the information collection abstracted below to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995. FEMA invites the general public to take this opportunity to comment on an extension of a currently approved information collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, this notice seeks comments concerning the National Flood Insurance Program's (NFIP) Elevation Certificate and Floodproofing Certificate.

DATES: Comments must be submitted on or before November 6, 2026.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/

PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection should be made to Director, Information Management Division, 500 C Street SW, Washington, DC 20472, email address: FEMA-Information-Collections-Management@fema.dhs.gov or John Hintermister, Branch Chief, Underwriting, Resilience, at 202–679–5992, and john.hintermister@fema.dhs.gov.

SUPPLEMENTARY INFORMATION:

Communities participating in the NFIP are required to adopt a floodplain management ordinance that meets or exceeds the minimum floodplain management standards of the NFIP. In accordance with FEMA's minimum floodplain management standards, communities must require that all new construction and substantial improvement of residential structures and non-residential structures have the lowest floor (including basement) elevated to above the base flood elevation subject to 44 CFR 60.3(c)(2) and (3); unless, for residential structures, the community is granted an exception by FEMA for the allowance of basements under 44 CFR 60.6(b) or (c). New construction and substantial improvement of non-residential structures can also be floodproofed. This means that, together with attendant utility and sanitary facilities, they are designed such that below the base flood level the structure is watertight, with walls substantially impermeable to the passage of water and with structural components having the capability to resist hydrostatic and hydrodynamic loads and effects of buoyancy, per 44 CFR 60.3(c)(3)(ii).

Use of the Elevation Certificate and Floodproofing Certificate each serve as a method for a community to document building compliance with these requirements. FEMA also gives NFIP policyholders the option to submit an Elevation Certificate for the purpose of providing elevation information for use in premium rating in lieu of FEMA-sourced elevation information and for the purpose of demonstrating eligibility for the Machinery & Equipment premium discount.

This proposed information collection previously published in the **Federal Register** on June 1, 2026, at 91 FR 32408 with a 60-day public comment period and FEMA received five public comments. One was from Association of

State Floodplain Managers (ASFPM), two from the City of Tucson, one from an insurance agent, and one from an anonymous commenter related to this information collection. Many ASFPM and City of Tucson comments suggested allowing extra space for comments; providing additional wording for clarification; industry standard wording; and adjusting electronic form capabilities to adjust for capacity and to use with other programs. The anonymous commenter was concerned about the use of waivers, and development in flood prone areas. The comment from the insurance agent was in reference to slab on grade construction on the Elevation Certificate (EC) form.

The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.

Collection of Information

Title: Elevation Certificate/
Floodproofing Certificate.

Type of Information Collection:
Extension of a currently approved information collection.

OMB Number: 1660-0008.

FEMA Forms: FEMA Form FF-206-FY-22-152 (formerly 086-0-33), Elevation Certificate; FEMA Form FF-206-FY-22-153 (formerly 086-0-34), Floodproofing Certificate.

Abstract: The Elevation Certificate and Floodproofing Certificate are to determine a building's compliance with local floodplain management provisions and, in conjunction with the Flood Insurance Application, to document elevations in support of flood insurance premiums or discounts that align with the building's risk of damage from flooding. Respondents are primarily surveyors, architects, or engineers; individual property owners may opt to complete specified portions of the Elevation Certificate.

Affected Public: Individuals or Households, and Businesses or other For-Profit.

Estimated Number of Respondents: 3,517.

Estimated Number of Responses: 3,517.

Estimated Total Annual Burden Hours: 12,735.

Estimated Total Annual Respondent Cost: \$714,083.

Estimated Respondents' Operation and Maintenance Costs: \$0.

Estimated Respondents' Capital and Start-Up Costs: \$0.

Estimated Total Annual Cost to the Federal Government: \$37,415.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the Agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Nigel S. Allicock,

Records Management Branch Chief, Office of the Chief Administrative Officer, Mission Support, Federal Emergency Management Agency, Department of Homeland Security.

BILLING CODE 9111-52-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-HQ-OC-2026-4027;
FXGO166009OC000-267-FF09X00000]

Hunting and Shooting Sports Conservation and Access Council; Request for Nominations

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: The U.S. Department of the Interior (DOI) is seeking member nominations to the Hunting and Shooting Sports Conservation and Access Council (Council). Individuals who submitted a cover letter and resume in response to the April 21, 2026, request for nominations do not need to resubmit for this request. The Council will provide recommendations to the Federal Government, through the Secretary of the Interior and the Secretary of Agriculture, regarding the establishment and implementation of existing and proposed policies and authorities with regard to wildlife and habitat conservation endeavors that benefit wildlife resources; encourage partnership among the public, sporting conservation organizations, and Federal, State, Tribal, and Territorial

governments; benefit hunting and the shooting sports; and increase public access to hunting and the shooting sports.

DATES: Nominations for the Council must be submitted no later than October 22, 2026.

ADDRESSES: You may submit nominations via email to doug_hobbs@fws.gov.

FOR FURTHER INFORMATION CONTACT: Douglas Hobbs, by telephone at (703) 358-2336, or by email at doug_hobbs@fws.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The Council is established under the authority of the Secretary of the Interior and regulated by the Federal Advisory Committee Act (FACA), as amended (5 U.S.C. Ch. 10). The Council's duties are strictly advisory and consist of, but are not limited to,

(a) Assessing the implementation of current and future Executive Orders, Secretary's Orders, Secretarial memos, and Director's Orders that pertain to the objective of the Council, and providing recommendations to enhance and expand their implementation;

(b) Conducting a review of public lands to identify any areas currently unreachable or unavailable for public hunting opportunities and recommending solutions or options to increase access;

(c) Making recommendations regarding policies and programs that:

1. conserve and restore wetlands, grasslands, forests, and other important wildlife habitats, and improve management and restoration of rangelands and agricultural lands to benefit wildlife and enhance hunting and wildlife-associated recreation;

2. promote opportunities for hunting and/or expand access to hunting, shooting sports and wildlife-associated recreation on public lands;

3. improve and enhance agency infrastructure that benefit wildlife and their habitats, that enhance public access to hunting and shooting sports opportunities on public lands and other related and lawful uses in accordance with the Federal Lands Recreation Enhancement Act (16 U.S.C. 6801-6814) and the Great American Outdoors Act (Pub. L. 115-162);
