This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, NMFS, Commerce.

Title: Tilefish Individual Fishing Quota Program.

OMB Control Number: 0648-0590.

Form Number(s): None.

Type of Request: Regular submission [extension of a current information collection].

Number of Respondents: 55.

Average Hours per Response: IFQ Allocation permits—30 minutes new application or 15 minutes for renewal, Declaration Form—5 minutes, IFQ Transfer—5 minutes, and Fees and Cost Recovery—1 hour.

Total Annual Burden Hours: 18 hours.

Needs and Uses: This request is for an extension of a currently approved information collection.

NMFS Greater Atlantic Region manages the golden tilefish fishery of the Exclusive Economic Zone (EEZ) of the Northeastern United States, through the Tilefish Fishery Management Plan (FMP). The Mid-Atlantic Fishery Management Council prepared the FMP

pursuant to the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The regulations implementing the FMP are specified at 50 CFR part 648 subpart N.

The recordkeeping and reporting requirements at § 648.294 form the basis for this collection of information. NMFS requests information from tilefish individual fishing quota (IFQ) permit holders to process applications that ensure IFQ allocation holders are provided a statement of their annual catch quota, and for enforcement purposes, to ensure vessels are not exceeding an individual quota allocation. In conjunction with the application, NMFS also collects IFQ share accumulation information to ensure that IFQ allocation holders do not acquire an excessive share of the total limited access privileges, as required by section 303A(d)(5)(C) of the Magnuson-Stevens Act.

NMFS requests transfer application information to process and track requests from allocation holders to transfer quota allocation (both permanent and temporary) to another entity. NMFS also collects information for cost recovery purposes as required under the Magnuson-Stevens Act. Cost recovery information is used to collect fees to recover the costs directly related to management, data collection and analysis, and enforcement of IFQ programs. Lastly, NMFS collects landings information to ensure that the amounts of tilefish landed and ex-vessel prices are properly recorded for quota monitoring purposes and for the calculation of IFQ fees. Having this information results in an increasingly more efficient and accurate database for management and monitoring of fisheries of the Northeastern U.S. EEZ.

Affected Public: Individuals or households; Business or other for-profit organizations.

Frequency: Annual and as requested.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.* Section 303).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day

Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648-0590.
