Title: 49 U.S.C. 5317 New Freedom Program.

OMB Number: 2132–0565.

Background: The purpose of the New Freedom program was to make grants available to assist states and designated recipients to reduce barriers to transportation services and expand the transportation mobility options available to people with disabilities beyond the requirements of the Americans with Disabilities Act (ADA) of 1990. The New Freedom program was repealed in 2012 with the enactment of the Moving Ahead for Progress in the 21st Century Act (MAP–21). However, funds previously authorized for programs repealed by MAP–21 remain available for their originally authorized purposes until the period of availability expires, the funds are fully expended, the funds are rescinded by Congress, or the funds are otherwise reallocated.

According to data from the Transit Award Management System (TrAMS), open grants have decreased to 13. This represents a 60% reduction in the

respondent universe from the previous PRA renewal cycle as FTA collaborates with grantees to close out legacy grants. As older grants are fully expended, project management report submissions continue to decline. This downward trend will persist until all remaining grants are closed.

To meet ongoing oversight responsibilities, FTA must continue to collect information while funds remain active. Grant recipients are required to make information available to the public and publish a program of projects identifying the subrecipients and projects receiving financial assistance. FTA uses this information to monitor grantee progress in implementing and completing project activities.

Respondents: State or local government, private non-profit organizations and public transportation authorities.

Estimated Annual Number of Respondents: 13.

Estimated Total Annual Burden: 156.

Frequency: Annually.
