Filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. At this point in this proceeding, the timeframe for filing timely intervention requests has expired. Any person seeking to become a party to the proceeding must file a motion to intervene out-of-time pursuant to Rule 214(b)(3) and (d) of the Commission's Rules of Practice and Procedures (18 CFR 385.214(b)(3) and (d)) and show good cause why the time limitation should be waived. Motions to intervene are more fully described at <https://www.ferc.gov/how-intervene>.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202)502-6595 or OPP@ferc.gov. Additional information about the project is available from the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

[Project No. 3428–205]

Brown Bear II Hydro, Inc.; Notice of Intent To Prepare an Environmental Assessment

On November 29, 2023, Brown Bear II Hydro, Inc. (Brown Bear Hydro) filed an application to relicense the 19.4-megawatt Worumbo Hydroelectric Project No. 3428, located on the Androscoggin River in Androscoggin County, Maine.¹

In accordance with the Commission's regulations, on January 14, 2026, Commission staff issued a notice that the project was ready for environmental analysis (REA Notice).² Based on the information in the record, including comments filed on the REA Notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the application to license the Worumbo Project.³

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502–6595 or OPP@ferc.gov.

The application will be processed according to the following schedule.

¹ On July 27, 2026, Brown Bear Hydro amended the license application (*see* Accession No. 20260727–5331).

² In notices issued February 10, 2026 and April 23, 2026, staff granted Brown Bear Hydro's request to extend deadlines established in the REA Notice for filing motions to intervene, protests, comments, recommendations, preliminary terms and conditions, and preliminary fishway prescriptions and for Brown Bear Hydro to request water quality certification. Additional time was needed to complete ongoing evaluations of fish passage alternatives at the project in consultation with licensing stakeholders.

³ For tracking purposes under the National Environmental Policy Act, the unique identification number for documents relating to this environmental review is EAXX–019–20–000–1785830510.

The EA will be issued for a 30-day comment period. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Commission issues EA.	September 10, 2027.

Any questions regarding this notice may be directed to Erin Kimsey at 202–502–8621 or Erin.Kimsey@ferc.gov.
