Total Annual Burden (Hours):					3,815

Source: FDIC.

^P The FDIC anticipates zero respondents in the upcoming cycle and uses a placeholder respondent count of 1 to preserve the potential burden.

Note: The estimated annual IC time burden is the product, rounded to the nearest hour, of the estimated annual number of responses and the estimated time per response for a given IC. The estimated annual number of responses is the product, rounded to the nearest whole number, of the estimated annual number of respondents and the estimated annual number of responses per respondent. This methodology ensures the estimated annual burdens in the table are consistent with the values recorded in OMB's consolidated information system.

General Description of Collection: Section 13 of the Bank Holding Company Act of 1956 (section 13) contains certain restrictions on the ability of a banking entity to engage in proprietary trading and to have certain interests in, or relationships with, a hedge fund or private equity fund. The FDIC's regulations at 12 CFR part 351 (part 351) implement section 13 with respect to FDIC-supervised insured depository institutions (IDIs). The requirements in part 351 do not apply to FDIC-supervised IDIs that have, and if every company that controls it has, total consolidated assets of \$10 billion or less and total trading assets and trading liabilities, that are five percent or less of total consolidated assets.¹

Part 351 contains provisions that constitute information collections (ICs) under the Paperwork Reduction Act corresponding to policies, rules, and regulations regarding periodic reporting requirements, documentation of trading activities and compliance programs, and various other recordkeeping and disclosure requirements for FDIC-supervised IDIs that are subject to the requirements of part 351 (covered bank). There is no change in the substance or methodology of this information collection. The estimated annual burden for this information collection is 3,815 hours, a decrease of 234 hours from the previous renewal. This decrease is

attributed to a decrease in the estimated number of respondents.

Request for Comment

Comments are invited on: (a) whether the collections of information are necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collections of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
