SUPPLEMENTARY INFORMATION:

Title of Collection: Consumer Response Company Response Survey.

OMB Control Number: 3170-0069.

Type of Review: Extension of an information collection.

Affected Public: Individuals or households.

Estimated Number of Respondents: 66,700.

Estimated Total Annual Burden Hours: 4,669.

Abstract: The CFPB will use this information collection to garner consumer feedback through an optional survey at the end of the consumer complaint process. Through the existing survey, consumers have the option to provide feedback on the company's response to and handling of their complaint. The results of this feedback are shared with the company that responded to the complaint to inform its complaint handling. The CFPB also uses this feedback as one of several inputs to inform its work to assess the accuracy, completeness, and timeliness of company responses to consumer complaints.

This information collection asks three questions about the company's response to and handling of any complaint and requires a narrative description in support of any provided answers. Positive feedback about the company's handling of the consumer's complaint would be reflected by affirmative answers to each question and by the

narrative in support of each answer. The Company Response Survey allows consumers to offer both positive and negative feedback on their complaint experience.

Request for Comments: Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the CFPB, including whether the information will have practical utility; (b) The accuracy of the CFPB's estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be summarized and/or included in the request for OMB's approval. All comments will become a matter of public record.

Anthony May,

Paperwork Reduction Act Officer, Consumer Financial Protection Bureau.

Office of the Secretary

[Docket ID: DOD-2026-OS-1651]

AGENCY: Office of the Under Secretary of Defense for Research and Engineering, (OUSD(R&E)), Department of Defense (DoD).

ACTION: 30-day information collection notice.

SUMMARY: The Department of Defense (referred to herein as "the Department", "Department of War" or "DoW" has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

SUPPLEMENTARY INFORMATION:

Title: *Associated Form; and OMB Number:* Report of Inventions and Subcontracts; Unclassified: DD Form 882-R and Classified: DD Form 882-R; OMB Control Number 0704-RCIS.

Type of Request: New.
Number of Respondents: 3,150.
Responses per Respondent: 1.48.
Annual Responses: 4,662.
Average Burden per Response: 1.06 hours.

Annual Burden Hours: 4,942.
Needs and Uses: This information collection is mandated by the Bayh-Dole Act to govern rights allocation for inventions made with federal funding, requiring contractors to disclose inventions and subcontracts and report on their utilization. The DoD replaces the legacy DD Form 882 with two specialized forms: DD Form 882-R for unclassified inventions, submitted annually or at contract closeout to certify disclosures in the iEdison database, and DD Form 882-C for classified inventions, submitted securely due to national security concerns. These processes ensure government contractors comply with reporting requirements, enable the government to secure royalty-free licenses, assume ownership of abandoned inventions, and verify subcontract compliance. Additionally, the data supports enterprise-level analysis of federally funded intellectual property, enhancing contract administration and technology management. Without these collections, the government would lose critical

mechanisms to protect and exercise its rights over innovations developed under its funding.

Affected Public: Business or other for profit.

Frequency: Annually.

Respondent's Obligation: Voluntary.

DOD Clearance Officer: Mr. Reginald Lucas.

Dated: October 9, 2026.
