

remains of one individual of Native American ancestry.

- There is a connection between the human remains described in this notice and the Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; Ute Indian Tribe of the Uintah & Ouray Reservation, Utah; and the Ute Mountain Ute Tribe.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the authorized representative identified in this notice under

ADDRESSES. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains described in this notice to a requestor may occur on or after November 16, 2026. If competing requests for repatriation are received, the University of New Mexico, Maxwell Museum of Anthropology must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. The University of New Mexico, Maxwell Museum of Anthropology is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.

Notice of Intended Repatriation: University of Pennsylvania Museum of Archaeology and Anthropology, Philadelphia, PA

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the University of Pennsylvania Museum of Archaeology and Anthropology (Penn Museum) intends to repatriate certain cultural items that meet the definition of sacred objects and that have a cultural affiliation with the Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the cultural items in this notice may occur on or after November 16, 2026.

ADDRESSES: Send additional, written requests for repatriation of the cultural items in this notice to Dr. Christopher Woods, Williams Director, University of Pennsylvania Museum of Archaeology and Anthropology, 3260 South Street, Philadelphia, PA 19104–6324, email director@pennmuseum.org.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Penn Museum, and additional information on the determinations in this notice, including the results of consultation, can be found in the summary or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

A total of two cultural items have been requested for repatriation. The two sacred objects are a red catlinite pipe bowl (PM# NA3942A) and a wooden pipe stem (PM# NA3942B) (hereafter referred to as “the pipe”). The pipe is associated with Chief Black Coal (c. 1839–1893), an important Northern Arapaho leader and pipe keeper. The pipe was given to U.S. Army Lieutenant Patrick Henry Ray (1842–1911) following an unidentified council meeting in approximately 1886–1887. The Penn Museum purchased the pipe from Lieutenant Ray and his wife, Ada Blackman Ray (c. 1864–1936), on March 3, 1908. There is no known presence of any hazardous substances.

Determinations

The Penn Museum has determined that:

- The two sacred objects described in this notice are specific ceremonial objects needed by a traditional Native American religious leader for present-day adherents to practice traditional Native American religion, according to the Native American traditional knowledge of a lineal descendant,

Indian Tribe, or Native Hawaiian organization.

- There is a connection between the cultural items described in this notice and the Northern Arapaho Tribe of the Wind River Reservation, Wyoming.

Requests for Repatriation

Additional, written requests for repatriation of the cultural items in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the cultural items in this notice to a requestor may occur on or after November 16, 2026. If competing requests for repatriation are received, the Penn Museum must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the cultural items are considered a single request and not competing requests. The Penn Museum is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and to any other consulting parties.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3004 and the implementing regulations, 43 CFR 10.9.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Well Operations and Equipment

AGENCY: Bureau of Safety and Environmental Enforcement, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Bureau of Safety and

Environmental Enforcement (BSEE) proposes to renew an information collection with revisions.

DATES: Interested persons are invited to submit comments on or before November 16, 2026.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Please provide a copy of your comments to Kelly Odom, Acting BSEE ICCO, 45600 Woodland Road, Sterling, VA 20166; or by email to Kelly.Odom@bsee.gov. Please reference OMB Control Number 1014–0028 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Kelly Odom by email at Kelly.Odom@bsee.gov, or by telephone at (703) 787–1775. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on June 4, 2026 (91 FR 33754). BSEE received two comments. One comment was a test. The second was not germane to this information collection.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are

especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: BSEE uses the information to ensure safe drilling, workover, completion, and decommissioning operations and to protect the human, marine, and coastal environment. BSEE analyzes and evaluates these information/requirements to reduce the likelihood of a similar Deepwater Horizon event and to reduce the risk of fatalities, injuries, and spills. BSEE also utilizes these requirements in the approval, disapproval, or modification process for well operations.

Specifically, BSEE uses the information in Subpart G to ensure:

- certain well designs and operations have been reviewed by appropriate third parties/engineers/classification societies that, after one year, have been approved by BSEE;
- rig tracking data is available to locate rigs during major storms;
- casing or equipment repairs are acceptable and tested;
- up-to-date engineering documents are available;
- the Blowout Preventer (BOP) and associated components are fit for service for its intended use;
- that the BOP will function as intended;

- that BOP components are properly maintained and inspected;
- the proper engineering reviews and approvals for all BOP designs, repairs, and modifications are met.

Rig Movement Notification Report, Form BSEE–0144

We use the information to schedule inspections and verify that the equipment being used complies with approved permits. The information on this form is used by all 3 regions, but primarily in the Gulf of America (GOA), to ascertain the precise arrival and departure of all rigs in OCS waters in the GOA. The accurate location of these rigs is necessary to facilitate the scheduling of inspections by BSEE personnel.

Items in **BOLD** are new changes to the form this renewal cycle. Information on form BSEE–0144:

- **General Information**—Identifies the Report Date, Lease Operator, Rig Name; Rig Type, Rig Representative (on location); Rig Telephone Number (on location). (**Updated**) The Rig Type box has expanded to include the ability to check for either: Barge, Coiled Tubing Unit; Drill Ship; Jackup; Platform; Snubbing Unit; Semisubmersible; Submersible; and Wire-Line Unit.
- **Rig Arrival Information**—Identifies the Rig Arrival Date; Operation Type; Estimated Start Date of Well Operations; Expected Duration of Well Ops (Days); Is rig new to OCS; Location where rig came from; Well Information; Surface Information; Helideck Information; and Access Information. (**Updated**) **Adds Worked scheduled; location where rig came from? Well API number, Well Name, and Expected Duration of Well Operations.**
- **Rig Departure Information**—Identifies the Rig Departure Date, Well Status, Well API Number; Well Name; Is Rig Being Skidded on the Platform?; Well Surface Location Information; Lease No.; Area Name; Block No.; Latitude (Optional); Longitude (Optional); Area Clearance Information; Is Area Clear or Obstructions?; Remarks.
- **Rig Stacking Information**—Identifies Rig Arrival Date; Rig Departure Date; Manned (warm); Unmanned (cold); Location; Any modifications, repairs, or construction: Date of Modifications, repairs, or construction; Area Name; Block No.; Latitude (optional); Longitude (optional); Area Clearance Information; Is Area Clear of Obstructions?; Remarks.
- **Certification Statement** declaring

the information submitted is complete and accurate to the best of signatory's knowledge.

- BSEE OCS Contact Information (Updated).

Title of Collection: 30 CFR 250, Subpart G, Well Operations and Equipment.

OMB Control Number: 1014-0028.

Form Number: Form BSEE-0144, *Rig Movement Notification Report*.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Potential respondents are comprised of Federal OCS oil, gas, and sulfur lessees/operators and holders of pipeline rights-of-way.

Total Estimated Number of Annual Respondents: Currently there are approximately 550 Federal OCS oil, gas, and sulfur lessees and holders of pipeline rights-of-way. Not all the potential respondents will submit information in any given year, and some may submit multiple times.

Total Estimated Number of Annual Responses: 150,335.

Estimated Completion Time per Response: Varies from 15 minutes to 2,160 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 353,355.

Respondent's Obligation: Responses are mandatory and required to obtain or retain a benefit.

Frequency of Collection: Submissions are generally on occasion, daily, weekly, monthly, quarterly, and biennially, depending upon the requirement.

Total Estimated Annual Nonhour Burden Cost: \$11,891,400.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).
