

potential CLF obligations, which should strengthen CMESC's measurement, monitoring, and management of liquidity risk and help CMESC maintain and hold sufficient liquid resources to effect same-day settlement of payment obligations in the event of a default of the participant family that would generate the largest aggregate payment obligation in extreme but plausible market conditions. In particular, because the CLF is sized starting from the Cover 1 SPPO, and it serves as a backstop when CMESC's other sources of liquidity are unavailable or insufficient, clarifying the sizing and allocation process and ensuring that CMESC has the Member information needed to compute it should help CMESC maintain an appropriately sized and allocated facility, consistent with Rule 17Ad-22(e)(7).

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the requirements of the Act and in particular with the requirements of Section 17A of the Act³¹ and the rules and regulations promulgated thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act³² that proposed rule change SR-CMESC-2026-008 be, and hereby is, APPROVED.³³
