Notice of Extension of the Deadline for Determining the Adequacy of the Antidumping and Countervailing Duty Petitions: Certain Wooden Fence Pickets from the People’s Republic of China

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: Applicable October 13, 2026.

FOR FURTHER INFORMATION CONTACT: Frank Schmitt at (202) 482–4880 (the People’s Republic of China (China) AD); and Suresh Maniam at (202) 482–0176 (China CVD), AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230.

Extension of Initiation of Investigations

The Petitions

On September 24, 2026, the U.S. Department of Commerce (Commerce) received antidumping duty (AD) and countervailing duty (CVD) petitions on imports of certain wooden fence pickets (wooden fences) from China filed in proper form on behalf of the American Alliance of Wooden Fence Producers (the petitioner),¹ the members of which are domestic producers of wooden fences.²

Determination of Industry Support for the Petitions

Sections 702(b)(1) and 732(b)(1) of the Tariff Act of 1930, as amended (the Act), require that a petition be filed by or on behalf of the domestic industry. To determine that the petition has been filed by or on behalf of the industry, sections 702(c)(4)(A) and 732(c)(4)(A) of the Act require that the domestic producers or workers who support the petition account for: (i) at least 25 percent of the total production of the

domestic like product; and (ii) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition. Moreover, sections 702(c)(4)(D) and 732(c)(4)(D) of the Act provide that, if the petition does not establish support of domestic producers or workers accounting for more than 50 percent of the total production of the domestic like product, Commerce shall: (i) poll the industry or rely on other information in order to determine if there is support for the petition, as required by subparagraph (A); or (ii) if there is a large number of producers, determine industry support using a statistically valid sampling method to poll the industry.

Extension of Time

Sections 702(c)(1)(A) and 732(c)(1)(A) of the Act provide that within 20 days of the filing of an AD or CVD petition, Commerce will determine, *inter alia*, whether the petition has been filed by or on behalf of the U.S. industry producing the domestic like product. Sections 702(c)(1)(B) and 732(c)(1)(B) of the Act provide that the deadline for the initiation determination, in exceptional circumstances, may be extended by 20 days in any case in which Commerce must “poll or otherwise determine support for the petition by the industry.” Because it is not clear from the Petitions whether the industry support criteria have been met, Commerce has determined it should extend the time period for determining whether to initiate the AD and CVD investigations in order to further examine the issue of industry support.

Commerce will need additional time to gather and analyze additional information regarding industry support. Therefore, it is necessary to extend the deadline for determining the adequacy of the Petitions by an additional 20 days. As a result, in accordance with sections 702(c)(1)(B) and 732(c)(1)(B) of the Act, Commerce’s initiation determinations will now be due no later than November 3, 2026.

International Trade Commission Notification

Commerce will contact the U.S. International Trade Commission (ITC) and will make this extension notice available to the ITC.

Dated: October 13, 2026.

Scot Fullerton,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; South Pacific Tuna Act

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. Public comments were previously requested via the **Federal Register** on June 11, 2026, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: South Pacific Tuna Act.

OMB Control Number: 0648–0218.

Form Number(s): None.

Type of Request: Regular submission [extension of a current information collection].

Number of Respondents: 21.

Average Hours per Response: Catch Report Form: 1 hour, License Application: 1 hour, FFA Application form: 45 minutes, Unloading & Transshipment Logsheet Form: 30 minutes. Expression of Interest: Initial application 2 hours and Renewal: 15 minutes.

Total Annual Burden Hours: 222 hours.

Needs and Uses: This is a request for an extension of a currently approved information collection. The National Oceanic and Atmospheric Administration (NOAA) collects vessel license, vessel registration, catch, and unloading information from operators of U.S. purse seine vessels fishing under the provisions of the Treaty on Fisheries between the Governments of Certain Pacific Island States and the

Government of the United States of America (Treaty). The Treaty provides access for U.S. purse seine vessels to fish in the exclusive economic zones (EEZs) of Pacific Island Parties to the Treaty (PIPs). The PIPs include Australia, Cook Islands, Federated States of Micronesia, Fiji, Kiribati, Marshall Islands, Nauru, New Zealand, Niue, Palau, Papua New Guinea, Samoa, Solomon Islands, Tonga, Tuvalu, and Vanuatu. This collection of information is required to meet U.S. obligations under the Treaty.

The South Pacific Tuna Act of 1988 (16 U.S.C. 973–973r) and U.S. implementing regulations (50 CFR part 300, subpart D) authorize the collection of information from U.S. purse seine vessels fishing in the EEZs of PIPs under the Treaty. Vessel operators must submit annual vessel license and registration (including registration of vessel monitoring system (VMS) units) applications and periodic written reports of catch and unloading of fish from licensed vessels. They are also required to ensure the continued operation of VMS units on board licensed vessels, which is expected to require periodic maintenance of the units. The information collected is submitted to the Pacific Islands Forum Fisheries Agency (FFA) through the U.S. government, NOAA's National Marine Fisheries Service (NMFS). The license and registration application information is used by the FFA to determine the operational capability and financial responsibility of a vessel operator interested in fishing under the Treaty. Information obtained from vessel catch and unloading reports is used by the FFA to assess fishing effort and fishery resources in the region and to track the number of fish caught within each PIP's EEZ. Maintenance of VMS units is needed to ensure the continuous operation of the VMS units, which, as part of the VMS administered by the FFA, are used as an enforcement tool. If the information is not collected, the U.S. government will not meet its obligations under the Treaty, and the lack of fishing information will result in poor management of the fishery resources.

Affected Public: Business or other for-profit organizations.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

Legal Authority: South Pacific Tuna Act; 16 U.S.C. 973–973r.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed

information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0218.
