Revisions to This Information Collection

As part of this ICR renewal, ATF is making no revisions to this information collection, OMB 1140–0056. However, ATF anticipates a program change affecting this information collection, in that ATF anticipates an increase in hiring for affected positions over the next three years. As a result, ATF adjusted the hourly burden due to a significant projected increase in the annual number of respondents since the last renewal, from 380 to 1,000, an increase of 620. This resulted in a corresponding increase in the total number of burden hours associated with this IC from 285 during the last renewal, up by 465 hours to 750 hours for this renewal.

It also prohibits certain transactions. In addition, this section includes provisions in which an FCU may seek a waiver from certain requirements of the rule. Type of Review: Extension of a previously approved collection.

Abstract: To protect the National Credit Union Share Insurance Fund (NCUSIF) and the credit union system, the largest Federally Insured Credit Unions (FICUs) must have systems and processes to monitor and maintain their capital adequacy. OMB Number: 3133–0210.

Title: Supervisory Stress Test Annual Data Collection, 12 CFR part 702, subpart C.

Type of Review: Extension of a previously approved collection.

Abstract: The NCUA Board (Board) has determined, to protect the National Credit Union Share Insurance Fund (NCUSIF) and the credit union system, that the largest Federally Insured Credit Unions (FICUs) should have systems and processes in place to monitor and maintain their capital adequacy. Subpart C of part 702 of NCUA's regulations codifies capital planning and stress testing requirements for federally insured credit unions with \$10 billion or more in assets (covered credit unions). Covered credit unions are further delineated by asset tiers. Tier I are credit union with \$10 billion or more in total assets, but less than \$15 billion in total assets; tier II are credit union with \$15 billion or more in total assets, but less than \$20 billion in total assets; and tier III are credit union with \$20 billion or more in total assets. Tier II and III credit unions are required to conduct supervisory stress tests and section 702.306 (b) codifies that NCUA

reserves the right to conduct stress tests of covered credit unions at any time and where both NCUA and a covered credit union have conducted the tests, the results of NCUA's tests will determine whether the covered credit union has met the requirements of this subpart. To facilitate NCUA's ability to conduct supervisory stress test on covered credit unions, section 702.306(d) requires that covered credit unions must provide NCUA with any relevant qualitative or quantitative information requested by NCUA pertinent to capital plans or stress test under this part.

Affected Public: Private Sector: Not-for-profit institutions.
