

articulate the collective and derived value of the IOOS enterprise and to create a profile of businesses and organizations who are involved with providing services or utilizing IOOS data for other specific end uses. This survey was conducted in FY2015, FY2020, and FY2025 and is intended to be repeated on a regular basis in order to track the growth of the U.S. Ocean Enterprise. The survey provides critical assessment data and is necessary in order to collect demographic, financial, and functional information for each organization with regard to their involvement with IOOS. Data from this web survey will be analyzed and used to produce a final report. The results will demonstrate the size and economic impact of IOOS data to the United States marine ocean sector.

Christopher M. Moore, Ph.D. Executive Director, Mid-Atlantic Fishery Management Council; telephone: (302) 526–5255.

SUPPLEMENTARY INFORMATION: The Mid-Atlantic Fishery Management Council and the Atlantic States Marine Fisheries Commission's Policy Board will meet jointly during the Commission's Annual Meeting. The joint session will take place during the Policy Board agenda item from 8 a.m.–9:45 a.m. E.T. on November 12, 2026. The purpose of the joint meeting is to discuss the Recreational Sector Separation Amendment for summer flounder, scup, black sea bass, and bluefish, which considers potential changes to the

recreational management program for these species, including options for managing for-hire fisheries separately from other recreational fishing modes, as well as possible changes to permit and reporting requirements for the for-hire sector.

The Council and Commission held a stakeholder workshop in September 2026 to facilitate a focused discussion on alternatives currently under development for this amendment. At the November 12 meeting, the Council and Policy Board will review workshop outcomes and provide additional guidance to the Fishery Management Action Team/Plan Development Team for further development of the action. Additional information on this amendment can be found at: <https://www.mafmc.org/actions/recreational-sector-separation-amendment>.

Other Business and General Public Comment

Although non-emergency issues not contained in this agenda may come before this group for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during these meetings. Actions will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c).

SUPPLEMENTARY INFORMATION:

Title: Disclosure and Retention of Certain Information Relating to Cleared Swaps Customer Collateral (OMB Control No. 3038–0091). This is a request for extension of a currently approved information collection.

Abstract: Section 724(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, Public Law 111–023, 124 stat. 1376, amended the Commodity Exchange Act (“CEA”), 7 U.S.C. 1 *et seq.*, to add, as section 4d(f) thereof, provisions concerning the protection of collateral provided by a Cleared Swaps Customer to margin, guaranty, or secure a swap cleared by or through a derivatives clearing organization (“DCO”). Broadly speaking, in cleared swaps transactions customers provide collateral to futures commission merchants (“FCMs”) through whom they clear their transactions. FCMs, in turn, may provide customer collateral to DCOs, through which FCMs clear transactions for their customers. 17 CFR part 22 is intended to implement CEA section 4d(f). Several of the sections of part 22 require collections of information.

Section 22.2(g) requires each FCM with Cleared Swaps Customer Accounts to compute daily the amount of Cleared Swaps Customer Collateral on deposit in Cleared Swaps Customer Accounts, the amount of such collateral required to be on deposit in such accounts and the amount of the FCM’s residual financial interest in such accounts. The purpose of this collection of information is to help ensure that FCMs’ Cleared Swaps Customer Accounts are in compliance at all times with statutory and regulatory requirements for such accounts.

Section 22.5(a) requires an FCM or DCO to obtain, from each depository with which it deposits cleared swaps customer funds, a letter acknowledging that such funds belong to the Cleared Swaps Customers of the FCM, and not the FCM itself or any other person. The purpose of this collection of information is to confirm that the depository understands its responsibilities with respect to protection of cleared swaps customer funds.

Section 22.11 requires each FCM that intermediates cleared swaps for customers on or subject to the rules of a DCO, whether directly as a clearing member or indirectly through a Collecting FCM, to provide the DCO with information sufficient to identify each customer of the FCM whose swaps are cleared by the FCM. Section 22.11 also requires the FCM, at least once daily, to provide the DCO with information sufficient to identify each

customer's portfolio of rights and obligations arising out of cleared swaps intermediated by the FCM. The purpose of this collection of information is to facilitate risk management by DCOs in the event of default by the FCM, to enable DCOs to perform their duty, pursuant to section 22.15, to treat the collateral attributed to each customer of the FCM on an individual basis.

Section 22.12 requires that each DCO and FCM, on a daily basis, calculate, based on information received pursuant to section 22.11 and on information generated and used in the ordinary course of business by the DCO or FCM, and record certain information about the amount of collateral required for each Cleared Swaps Customer and the sum of these amounts. As with section 22.11, the purpose of this collection of information is to facilitate risk management by DCOs and in the event of default by the FCM, to enable DCOs to perform their duty, pursuant to section 22.15, to treat the collateral attributed to each customer of the FCM on an individual basis.

Section 22.16 requires that each FCM who has Cleared Swaps Customers disclose to each of such customers the governing provisions, as established by DCO rules or customer agreements between collecting and depositing FCMs, relating to use of customer collateral, transfer, neutralization of the risks, or liquidation of cleared swaps in the event of a default by a Depositing FCM relating to a Cleared Swaps Customer Account. The purpose of this collection of information is to ensure that Cleared Swaps Customers are informed of the procedures to which accounts containing their swaps collateral may be subject in the event of a default by their FCM.

Section 22.17 requires that each FCM produce a written notice of the reasons and the details concerning withdrawals from a Cleared Swaps Customers Account not for the benefit of Cleared Swap Customers if such withdrawal will exceed 25% of the FCMs residual interest in such account.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. On August 6, 2026, the Commission published in the **Federal Register** notice of the proposed extension of this information collection and provided 60 days for public comment on the proposed extension, 91 FR 50817 ("60-Day Notice"). The Commission received two relevant

comments on the 60-Day Notice.¹ One commenter argued that the current reporting framework is outdated and structurally deficient, and suggested the Commission modernize its information collection requirements.² While revisions to the reporting framework for Part 22 would ultimately revise the burden estimates in this notice, revising the current reporting framework is beyond the scope of this renewal. Another commenter supported renewing this collection because daily collateral calculations, customer-level records, and depository acknowledgments are essential to safeguarding customer assets and to performing orderly default management.³ The commenter urged the Commission to provide standardized, non-identifying public summaries of collateral sufficiency and compliance issues, strengthen disclosure and reporting practices, and ensure burden estimates are transparent and validated. The Commission acknowledges the commenter's recommendation for additional public disclosures. The Commission notes, however, that it publishes extensive information regarding firms' financial condition and the amount of customer funds held in segregation. In determining the scope of publicly available information, the Commission has balanced the benefits of disclosure with the potential risk that the publication may undermine market integrity and/or compromise customer confidentiality. Based on these considerations, the Commission has determined not to further expand the content of the publicly available information at this time.

Burden Statement: The Commission is revising its estimate of the burden for this collection for 95 respondents (71 FCMs and 24 DCOs). The respondent burden for this collection is estimated to be as follows:

Estimated Number of Respondents: 95.

Estimated Average Burden Hours per Respondent: 314.

Estimated Total Annual Burden Hours: 29,830.

Frequency of Collection: Section 22.2(g)—Daily. Section 22.5(a)—Once. Section 22.11—Daily. Section 22.12—Daily. Section 22.16—Once. Section 22.17—On occasion.
